Construction Notification

OLD FIRE STATION PARKING LOT PROJECT

The Town of Windsor is pleased to announce that the construction of the Old Fire Station Parking Lot Project is scheduled to begin the week of May 8, 2017.

The proposed site rehabilitation improvements consist of the installation of new asphalt paving, 25 new parking spaces, motorcycle and bicycle parking, new site lighting, new fencing, new bollards, striping and signage.

As is the case with all major construction projects, some inconvenience will be encountered during the construction period. Due to the scope of this project the site will remain closed and secured during the construction period. Please help our project staff minimize any disruptions to the project by reporting any unusual activity. This will help us expedite the project and provide a safe work area.

Construction work on the project will be performed by Engelke Construction, Healdsburg, California.

If you have any questions or concerns, please contact the Town Project Manager, Jim O'Brien at (707) 838-1012 or the Windsor Public Works, Engineering Division at (707) 838-5340.
