ARTICLE 3

Site Planning and General Development Standards
CHAPTER 27.20 - GENERAL PROPERTY DEVELOPMENT AND USE STANDARDS

27.20.010 - Purpose of Chapter

This Chapter expands upon the requirements of Article 2 by addressing additional details of site planning, project design and operation, to ensure that all development:

A. Produces an environment of stable and desirable character;
B. Is compatible with existing and future development; and
C. Protects the use and enjoyment of neighboring properties, consistent with the General Plan and any applicable specific plan.

27.20.020 - Applicability

These requirements apply to all proposed development and new land uses, and shall be considered in combination with the standards for each zoning district in Article 2 (Zoning Districts and Allowable Land Uses). If there is a conflict, the standards specific to the zoning district shall override these general standards.

27.20.030 - General Performance Standards

All land uses activities, and processes shall be operated and maintained so as to not be injurious to public health, safety or welfare, and to comply with the following standards.

A. Air emissions. No visible dust, gasses, or smoke shall be emitted, except as necessary for the heating or cooling of structures, and the operation of motor vehicles on the site.

B. Combustibles and explosives. The use, handling, storage, and transportation of combustibles and explosives shall comply with the Uniform Fire Code.

C. Ground vibration. No ground vibration shall be generated that is perceptible without instruments by a reasonable person at the property lines of the site, except for motor vehicle operations.

D. Light and glare.

1. Purpose. Parking lots, driveways, circulation areas, aisles, passageways, recesses, and grounds contiguous to buildings shall be provided with high intensity discharge lighting with sufficient wattage to provide adequate illumination to make clearly visible the presence of any persons on or about the premises during hours of business darkness and provide a safe, secure environment for all persons, property, and vehicles on site. (Revised 01/2/02, ORD. 2002-152)
2. **Public property.** Town Engineer shall determine illumination standards for public rights-of-way and on Town-owned property.

3. **Lamp characteristics.** High-pressure sodium lights are generally required. Metal halide lights are generally limited to building entrances or other applications as approved by the Planning Director.

4. **Glare control.** All outdoor illumination, including security lighting, shall be indirect or diffused and directed downward, away from adjacent properties and public rights-of-way. Light fixtures shall have “house side” reflectors to minimize glare.

5. **Wattage maximum.** Individual lighting fixtures are limited to 250 watts maximum.

6. **Fixture height.** Outdoor light fixtures shall be limited to a maximum height of 20 feet or the height of the nearest building, whichever is less.

7. **Minimum illumination.** A minimum of 0.25-foot candle of illumination shall be maintained at the surface throughout the area to be illuminated.

8. **Director authority.** The Planning Director may require:
   a. Photometric diagram and catalog cuts for conformity review with the light and glare standards.
   b. Fixture replacement if it is found that glare continues to be an issue following installation of lighting fixtures.
   c. Illumination for uses not listed in Table 3-A.
   d. The Director may waive or modify illumination standards when security, energy conservation, aesthetics, and design requirements need to be addressed.

9. **Outdoor illumination requirements.** Outdoor illumination shall conform to the following table:
<table>
<thead>
<tr>
<th>USE</th>
<th>ILLUMINATION (AVERAGE)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Financial Institution/Bank Parking Lot</td>
<td>1 foot candle</td>
</tr>
<tr>
<td>Bar/Restaurant</td>

(Revised 01/2/02, ORD. 2002-152)

E. **Liquid waste.** No liquid shall be discharged into a public or private body of water, sewage system, watercourse, or into the ground, except in compliance with applicable regulations of the North Coast Regional Water Quality Control Board.

F. **Noise.** No use, activity, or process shall exceed the maximum allowable noise standards identified in Table 3-1.

1. **Noise measurement criteria.** Exterior noise levels shall be measured at the property line of the noise source. Noise measurement shall be made with a sound level meter using the 'A' weighted scale at slow meter response. Fast meter response shall be used only for an impulsive noise.
### TABLE 3-1
MAXIMUM NOISE LEVEL BY RECEIVING LAND USE

</tr>
</tbody>
</table>

**Notes:**

1. Each of the noise limits specified in Table 3-1, above shall be reduced by 5 dB(A) for impulse or simple tone noises, or for noise consisting of speech or music. If the ambient noise level exceeds the resulting standard, the ambient noise level shall be the standard.

2. It shall be unlawful for any person within a residentially zoned area of the Town to operate any noise amplified device (e.g., bull horns, microphones, musical instruments, speakers, etc.), that exceeds a noise level of 45 dB(A) measured at the property line or cause loud excessive noise which disturbs the peace of the neighborhood.

2. **Exterior noise standards.** Exterior noise levels, when measured at any receiving property, shall conform to the noise level standards identified in Table 3-1, above.

   a. If the measured ambient noise level exceeds the applicable noise level standard in any category above, the applicable standards shall be adjusted to equal the ambient noise level.

   b. If the intruding noise source is continuous and cannot reasonably be discontinued or stopped to allow measurement of the ambient noise level, the noise level measured while the source is in operation shall be compared directly to the applicable noise level standards identified in Table 3-1, above.

3. **Conflicts with late night, early morning, or 24-hour operations.** Nonresidential activities shall not impact surrounding residential land uses (e.g., single-, multi-family, and mobile home parks).

4. **Construction hours allowed.** In order to allow construction schedules to take advantage of the weather, normal day light hours, to allow construction to proceed in an efficient manner, and to ensure that nearby residents as well as nonresidential activities are not disturbed by the early morning or late night activities, the Town has adopted, in the Municipal Code of the Town of Windsor, Title VII Building and
Housing Section 7-1-190 which establishes construction working hours related to the days and hours in which construction activity can occur. In addition, the Municipal Code has established procedures for seeking relief from the restrictions. Construction hours and days and any relief sought shall comply with the Municipal Code of the Town of Windsor. (rev 3/7/12 Ord 2012-274)

5. **Prohibited acts.** The following acts shall be a violation of this Section:

   a. **Places of public entertainment.** Operating or allowing to be operated, any loudspeaker, musical instrument, or other source of sound in any place of public entertainment that exceed 95 dB(A) at any point normally occupied by a customer;

   b. **Alarms.** Sounding of any exterior burglar or fire alarm or any motor vehicle burglar alarm that run continuously for a sufficient time to become a nuisance; and

   c. **Residential air conditioning, refrigeration, and heating.** A residential air conditioning or refrigeration system, heating system, or associated equipment installed after the effective date of this Section shall comply with the requirements in Table 3-1.

6. **Exempt activities.** The following are not subject to the noise limitations of this Section.

   a. **Emergencies.** Sound for alerting persons to the existence of an emergency or in the performance of authorized emergency work;

   b. **Warning devices.** Warning devices, necessary for the protection of public safety (e.g., ambulance, fire, and police sirens);

   c. **State or Federal preempted activities.** Any activity regulated by State or Federal law;

   d. **Public health, safety, and welfare activities.** Construction or maintenance and repair operations conducted by public agencies and/or utility companies or their contractors which are deemed necessary to serve the best interests of the public and to protect the public health, safety, and welfare;

   e. **Town Code provisions.** Where noise standards are specified elsewhere in the Town Code;
f. **Town parks.** Public agency sanctioned recreational activities and programs conducted in public parks; or

g. **Solid waste collection.** Noise sources associated with the authorized collection of solid waste (e.g., refuse and garbage).

G. **Odor.** No obnoxious odor or fumes shall be emitted that are perceptible without instruments by a reasonable person at the property line of the site.

H. **Radioactivity, electrical disturbance or electromagnetic interference.** None of the following shall be emitted:

1. Radioactivity, in a manner that does not comply with all applicable State and Federal regulations; or

2. Electrical disturbance or electromagnetic interference that interferes with normal radio or television reception or with the function of other electronic equipment beyond the property line of the site; or that does not comply with all applicable Federal Communications Commission (FCC) and other applicable State and Federal regulations.

**27.20.040 - Creekside Development**

A. **Purpose.** This Section provides for adequate buffer areas between creek corridors and adjacent development, to protect the creek corridors as valuable natural, scenic, and recreational amenities.

B. **Applicability.** The provisions of this Section apply to proposed development, other than public works or infrastructure, on any site adjacent to or crossed by a creek or stream.

C. **Streambed analysis required.** The project permit application shall include a site-specific streambed analysis prepared by a hydrologist, civil engineer, or other qualified professional to determine the precise boundary/top of bank of the waterway. The Director may waive this requirement if it is determined that the project, because of its size, location, or design will not have a significant impact on the waterway, or that sufficient information already exists and further analysis is not necessary. A required streambed analysis shall include all information and materials required by the Department.

D. **Development standards.**

1. A building setback line along the waterway shall be measured from the toe of the stream bank outward a distance of 2.5 times the height of the stream bank plus 30 feet, or 30 feet outward from the stream bank, whichever distance is greater. Additional setbacks may be required for "Riparian Woodlands" as designated in the General Plan, or to preserve existing vegetation or other environmental resources along any waterway. Setbacks adjacent to creekside paths or open spaces shall be measured from the outside boundary of the path or open space.
2. Paths or trails may be located within a creekside setback; however, no structure, road, parking access, parking spaces, paved areas, or swimming pool shall be constructed within a creek or creekside setback area.

3. No grading or filling, planting of exotic/non-native or non-riparian plant species, or removal of native vegetation shall occur within a creek or creekside setback area.

4. Where drainage improvements are required, they shall be placed in the least visible locations and naturalized through the use of river rock, earthenone concrete, and landscaping with native plant materials.

5. The proposed development should incorporate permeable surfaces (for example, wood decks, sand-joined bricks, and stone walkways) where feasible, to minimize off-site flows and facilitate the absorption of water into the ground.

6. Development or land use changes that increase impervious surfaces or sedimentation may result in channel erosion. This may require measures to stabilize creek banks.

   a. Creek rehabilitation is the preferred method of stabilization, with the objective is to maintain the natural character of the creek and riparian area. Rehabilitation may include enlarging the channel at points of obstruction, clearing obstructions at points of constriction, limiting uses in areas of excessive erosion, and restoring riparian vegetation.

   b. Concrete channels and other mechanical stabilization measures shall not be allowed unless no other alternative exists.

   c. If bank stabilization requires other than rehabilitation or vegetative methods, hand-placed stone or rock riprap are the preferred methods.

7. Public access and visibility to creeks should be provided through the use of single-loaded frontage roads adjacent to creeks, but outside of the creek setback. Structures or lots that back-on to creeks or creek frontage roads are discouraged.

8. The provision of multipurpose creekside trails and public open space is strongly encouraged. Open space areas should include planting for riparian enhancement with native shrubs and trees, paths and trails, lighting, benches, play and exercise equipment, and trash receptacles outside of the riparian habitat area, where appropriate.

9. Where streets are not used, frequent access to creekside trails and public open space should be provided at least every 300 feet, and may occur at the end of cul-de-sacs.
27.20.050 - Height Measurement and Exceptions

A. **Purpose.** This Section describes the required methods for measuring the height of structures in compliance with the height limits established by this Zoning Ordinance, and exceptions to the height limits established by this Zoning Ordinance.

B. **Maximum height of structures.** The height of structures shall not exceed the standard for the applicable zoning district established by this Chapter, except as otherwise provided by this Chapter.

C. **Height measurement.** The maximum allowable height shall be measured as the vertical distance from the existing grade of the site to an imaginary plane located the allowed number of feet above and parallel to the grade. See Figure 3-1.

**FIGURE 3-1**
**HEIGHT MEASUREMENT**

D. **Exceptions to height limits.** The review authority may approve exceptions to the height limits of this Zoning Ordinance as follows.

1. **Non-residential districts.** Minor projections, including elevator and mechanical equipment enclosures may exceed the height limit by 15 feet, provided they are screened by a parapet or pitched roof. Architectural features including clock towers, cupolas, and similar structures may exceed the height limit by:
   
   a. Up to 20 feet, if located at a street intersection; and
   
   b. Up to 12 feet, if located midblock.

   These features shall not exceed a width of 25 feet or one-third of the length of the building facade, whichever is less. Signs shall not be included within the additional height allowed.
2. **Residential districts.** Chimneys, television antennas, and solar collectors not exceeding a dimension of six feet at their base may exceed the height limits of the applicable zoning district by a maximum of five feet.

E. **Height limit at street corners.** Development proposed adjacent to any public or private street or alley intersection in other than the CT zoning district shall be designed to provide a traffic safety visibility area for pedestrian and traffic safety. See Figure 3-2.

1. **Measurement of visibility area.** A traffic safety visibility area is a triangle measured as follows, and may include private property and/or public right-of-way.

   The visibility area shall be defined by measuring 35 feet from the intersection of the extension of the front and street side curb lines and connecting the lines across the property.

2. **Height limit.** No structure, sign, or landscape element shall exceed 36 inches in height within the traffic safety visibility area, unless approved by the Director, except for trees with their canopy trimmed to a minimum of eight feet above grade.
FIGURE 3-2

Street Corner with Bulb-out
27.20.060 - Historic Conservation and Preservation

A. Purpose. These standards are intended to protect sites and structures identified by the community as historically significant, that contribute to Windsor's character and identity, and that should be preserved and/or restored. For additional information refer to Section 27.16.050 – Historical (HO) Overlay. (Revised 03/5/03, ORD. 2003-163)

B. Applicability. No person shall alter the exterior of, construct improvements to, or demolish any historic structure until the analysis required by the California Environmental Quality Act (CEQA) is completed to determine the historic significance and the effects of the proposed alterations.

C. Historic landmark designation. The Council may designate an improvement, natural feature, or site as an historic landmark and any area within the Town as an historic district in compliance with this Section, based on the Council's evaluation of the age of the structure, distinguishing characteristics, geographically definable area, familiar visual feature, significant achievement, significant geographical patterns, and/or similar to other distinctive areas.

   1. Procedure. The designation of an historic landmark or district, or the removal of an historic landmark or district from the Historic Register, shall comply with the procedure established by this Zoning Ordinance for amendments (Chapter 27.54), including public notice and a hearing in compliance with State law, a recommendation by the Commission, and a final decision by the Council.

   2. Permit issuance during nomination process. No permit for any improvement or structure within a proposed historic district or relative to a nominated historic landmark shall be issued while the nomination process is pending.

   3. Placement on the Historic Register. The nominated district, site, or structure shall be placed on the Historic Register after being officially accepted by the Council.

   4. Removal from the Historic Register. The Commission shall not recommend removal from the Historic Register unless it discovers that the information relied that supported the original designation was erroneous, or that circumstances beyond the owner's control have rendered the resource ineligible for designation and it would be infeasible to restore the resource.

D. Criteria for approval. In considering an application for exterior alterations or new construction, the Director shall be guided by the Secretary of the Interior's Standards for Rehabilitation and the compatibility of the proposed architectural features, materials, and style with those of existing structures.
E. Findings for alteration or demolition. The Director may approve alterations or demolition only after first making all the following findings, unless economic hardship is determined in compliance with Subsection F.

1. The proposed change would not adversely affect any significant aesthetic, architectural, cultural, or historical features of the subject parcel or the historic district;

2. The proposed change is compatible in architectural style with the structure and with existing adjacent structures in an historic district;

3. The proposed decorative features, details, fenestration, massing, materials, proportions, scale, and textures are consistent with the period and/or compatible with adjacent structures; and

4. In the case of a demolition, the applicant has submitted satisfactory evidence that a financial commitment has been obtained by the applicant to ensure replacement of the existing feature, landmark, or structure and that a Building Permit has been issued for the replacement structure.

F. Economic hardship. Alterations or demolition not in compliance with the findings required by Subsection E. may be approved only in cases of economic hardship. Economic hardship is defined as a substantial cost to the owner of the property that is patently unreasonable in comparison to the benefit conferred to the community should the owner be limited to following the guidelines for preserving or protecting the property.

1. Supporting evidence. Material evidence supporting the request for a finding of economic hardship shall consist of any information required by the Director.

2. Findings. In order to approve the alteration or demolition on the basis of economic hardship, the Director shall first find all of the following:

   a. Disapproval would substantially diminish the value of the property;

   b. The sale or rental of the property is impractical when compared to the cost of holding the property for uses allowed in the subject zoning district;

   c. An adaptive reuse study has been conducted and found that utilization of the property for lawful purposes is prohibited or impractical;

   d. Disapproval would unreasonably damage the owner of the property in comparison to the benefit conferred on the community;

   e. All means involving Town sponsored incentives (e.g., amendments to this Zoning Ordinance, Building Code modifications, financial assistance, and grants) have been explored to relieve possible economic hardship;
f. Without approval of the proposed construction, demolition, exterior alteration, remodeling, or removal, the reasonable use of or return from a designated landmark or property within an historic district will be denied a property owner; and

g. In the case of a proposed demolition, the Director shall make an additional finding that the designated landmark cannot be remodeled or rehabilitated in a manner that would allow a reasonable use of or return from the property to the owners.

3. Demolition of a nominated or designated historic landmark.

   a. If approval with a finding of economic hardship would result in the demolition of a nominated or designated historic landmark, the applicant shall be required to provide documentation of the resource proposed for demolition to the standards of the Historic American Buildings Survey.

   b. Documentation may include an archaeological survey, floor plans, measured drawings, photographs, or other documentation required by the Director and shall be submitted before issuance of a Demolition Permit.

G. Appeals. Any person dissatisfied with the Director's decision may appeal in compliance with Chapter 27.52 (Appeals).

H. Historic preservation participation incentives. The following incentives are available to historic landmarks and to historic districts:

   1. State Historic Building Code. Any exterior alteration made to historic properties shall be compliance with the standards of the State Historical Building Code (California Health and Safety Code Section 18950 et seq.).

   2. Mills Act contracts. The Council may authorize the use of State law (Government Code Section 50280 et seq.), alternately known as the Historical Property Contracts or Mills Act.

   3. Recognition. The Commission shall establish a program to recognize historic properties with special plaques, signs, etc.

   4. Financial benefits. Owners of historic properties are eligible to apply for local, State, and Federal financial benefits as may be available.

I. Maintenance requirements. The owner, occupant, or other person in actual charge of an historic landmark, or an improvement or structure in an historic district, shall keep the improvement properly maintained at all times.
27.20.070 - Setback Measurement and Exceptions

A. **Purpose.** This Section provides standards for the use and minimum size of setbacks. These standards provide open areas around structures for: visibility and traffic safety; access to and around structures; access to natural light, ventilation and direct sunlight; separation of incompatible land uses; and space for privacy, landscaping and recreation.

B. **Setback requirements.**

1. **General requirement.** All structures shall comply with the setback requirements of each zoning district and with any setbacks established for specific uses by this Article, except as otherwise provided by this Section. No portion of any structure, including eaves or roof overhangs, shall extend beyond a property line; or into an access easement or street right-of-way, without first securing an Encroachment Permit.

2. **Infill development within previously approved projects.** Where setbacks have been established for individual vacant parcels by a Specific Plan, a PC zoning district applied prior to the adoption of this Zoning Ordinance, a PD zoning district, an approved subdivision map, or other entitlement, those setbacks shall apply to continuing development within the approved project instead of the setbacks required by this Zoning Ordinance.

C. **Measurement of setbacks.** Setbacks shall be measured as follows, except that the Director may require different setback measurement methods where he or she determines that unusual parcel configuration makes the following infeasible or ineffective. See Figure 3-3. For streets with detached parkways, the property line is assumed to be the back of the sidewalk for the purposes of setback measurement.

1. **Front yard setbacks.** The front yard setback shall be measured at right angles from the nearest point on the front property line of the parcel (or edge of access easement on a private street) to the nearest point of the wall of the structure, except as provided in following Subsections C.1.a and C.1.b. The front property line is the narrowest dimension of a lot adjacent to a street.

   a. **Flag lots.** For a parcel with a fee ownership strip extending from a street or right-of-way to the building area of the parcel, area of the required front setback shall be determined by the Director.

   b. **Corner lots.** The measurement shall be taken from the nearest point of the structure to the nearest point of the most narrow street frontage property line. If the property lines on both street frontages are of the same length, the property line to be used for setback measurement shall be determined by the Director.

2. **Side yard setbacks.** The side yard setback shall be measured at right angles from the nearest point on the side property line of the parcel to the nearest line of the structure;
establishing a setback line parallel to the side property line, which extends between the front and rear yards.

3. **Street side yard setbacks.** The side yard on the street side of a corner parcel shall be measured from the nearest point of the side property line bounding the street, or the easement for a private road.

4. **Rear yard setbacks.** The rear yard shall be measured at right angles from the nearest point on the rear property line to the nearest line of the structure, establishing a setback line parallel to the rear property line. The Director shall determine the location of the required rear yard setback on a double-frontage parcel.

**FIGURE 3-3
LOCATION AND MEASUREMENT OF SETBACKS**

D. **Exemptions from setback requirements.** The minimum setback requirements of this Zoning Ordinance apply to all development and new land uses, except the following:

1. Fences or walls six feet or less in height above the grade of the site, when located outside of the front setback;

2. Decks, earthworks, free-standing solar devices, steps, terraces, and other site design elements that are placed directly upon grade and do not exceed a height of 18 inches above the surrounding grade at any point; and

3. Retaining walls less than 30 inches in height above finish grade. Embankments to be retained that are over 48 inches in height shall be benched so that no individual retaining wall exceeds a height of 36 inches.
E. **Limitations on uses of setbacks.**

1. **Structures.** Required setback areas shall not be occupied by structures other than:
   
   a. The fences, walls, and hedges permitted by Chapter 27.26 (Fences, Walls, and Hedges); and
   
   b. The projections into setbacks allowed by Subsection F.

2. **Storage.** No front or street side setback shall be used for the storage of scrap or junk.

3. **Parking.** Required residential parking spaces shall not be located within required setback areas. Temporary (overnight) parking is allowable within required setback areas only on paved driveways, in compliance with Section 27.30.080 (Parking Design and Development Standards).

F. **Allowed projections into setbacks.** Attached architectural features and certain detached structures may project beyond the wall of the structure and into the front, side and rear yard setbacks, in compliance with the following requirements.

1. **Architectural features.** Architectural features attached to the primary structure may extend beyond the wall of the structure and into the front, side and rear yard setbacks, in compliance with Table 3-3. See also Figure 3-4.

2. **Equipment.** Air conditioning, heating, and similar equipment may extend up to 30 inches into side and rear yards, but to no closer than 36 inches to any property line. Swimming pool, hot tub, and spa equipment are instead subject to Subsection G., below.
# TABLE 3-3

(2) Feature may project no closer than 24 inches to any property line.

**FIGURE 3-4**
EXAMPLES OF ALLOWED PROJECTIONS INTO SIDE SETBACKS
G. Setback requirements for specific structures:

1. **Accessory structures.** See Section 27.34.170 (Residential Accessory Uses and Structures).

2. **Fences.** See Chapter 27.26 (Fences, Hedges, and Walls).

3. **Decks and other site design elements.** Detached decks, freestanding solar devices, steps, terraces, and other site design elements which are placed directly upon the grade, and which exceed a height of 18 inches above the surrounding grade at any point, shall conform to the setback requirements of this Zoning Ordinance for detached accessory structures. (Note: site design elements less than 18 inches above grade are exempt.)

4. **Swimming pools, hot tubs, etc.** Swimming pools, hot tubs, spas, and associated equipment shall be set back a minimum of three feet from side and rear property lines, and shall not be located within a front setback.

27.20.080 - Solid Waste/Recyclable Materials Storage

A. **Purpose.** This Section provides standards which recognize the Town's support for and compliance with the California Solid Waste Reuse and Recycling Access Act (Public Resources Code Sections 42900 through 42911).

B. **Applicability.** These requirements apply to new nonresidential development, or changes to existing development that increase gross floor area by 25 percent or more.

C. **Extent of storage area required.** Solid waste and recyclables storage areas shall be provided in the number, dimensions, and types required by the local waste hauler. Additional storage areas may be required, as deemed necessary by the Director.

D. **Enclosure requirements.** Storage areas shall be fully enclosed by a six-foot high masonry wall or other solid enclosure that is architecturally compatible with adjacent structures. Gates shall be solid and maintained in continual working order. Landscaping shall be provided to soften and screen the enclosure in compliance with Chapter 27.28 (Landscaping). See Figure 3-5.
FIGURE 3-5
SOLID WASTE AREA LANDSCAPING
CHAPTER 27.21 – EMERGENCY SHELTERS*

27.21.010 – Purpose of Chapter

The purpose of this chapter is to establish standards for emergency shelters in order to comply with requirements of State law under California Government Code Section 65583.

27.21.020 - Location of Emergency Shelters

Emergency shelters are permitted in conjunction with religious facilities, subject to the location restrictions identified in this Section. Emergency shelters are permitted by right in the “CC” Community Commercial district and are also permitted within the “LI” Light Industrial district with approval of a Use Permit. Emergency shelters shall not be located within three hundred feet of any other existing emergency shelter facility.

27.21.030 – Standards

In addition to the development standards in the underlying zoning district, the following standards apply to emergency shelters and each emergency shelter shall comply with the standards set forth in this section. In the event of a conflict between these standards and the underlying zoning district regulations, the standards in this section shall apply. Nothing in this section modifies the requirements for approval of a religious facility as otherwise provided in the Zoning Ordinance.

A. Facility compliance with applicable State and local standards and requirements.
   1. Federal, State, and local licensing, as required, for any program incidental to the emergency shelter.

B. Physical Characteristics.
   1. Compliance with applicable State and local housing and building code requirements.
   2. Facility shall have on-site security during all hours when the shelter is open.
   3. Facility shall provide exterior lighting on pedestrian pathways and parking lot areas on the property. Light shall reflect away from residential areas and public streets.
   4. Facility shall provide secure areas for personal property.
   5. If the emergency shelter is proposed in conjunction with a religious facility, the area utilized for emergency shelter facilities may not exceed 50 percent of the total floor area used for the religious facility.
C. **Limited Number of Bed per Facility.** Emergency shelters accessory to a religious facility shall not exceed 20 beds. Other emergency shelters located in the commercial or industrial zoning district shall not exceed 40 beds.

D. **Limited Terms of Stay.** The maximum term of staying at an emergency shelter is 6 months in a consecutive 12-month period.

E. **Parking.** Parking shall be provided on-site at a rate of 2 spaces per facility staff plus 1 space per 6 occupants allowed at the maximum capacity.

F. **Emergency Shelter Management.** A management plan is required for all emergency shelters to address management experience, good neighbor issues, transportation, client supervision, client services, and good services, evidence of the required permits and licensing for all services and programs associated with the emergency shelter. The plan shall be submitted to and approved by the Community Development Director prior to operation of the emergency shelter. The plan shall include a floor plan that demonstrates compliance with the physical standards of this chapter. The operator of each emergency shelter shall annually submit the management plan to the Community Development Director with updated information for review and approval.

*(Added 09/17/2014, ORD. 2014-287)*
CHAPTER 27.22 - AFFORDABLE HOUSING REQUIREMENTS AND INCENTIVES*

27.22.010 - Purpose of Chapter

This Chapter provides incentives for the development of housing that is affordable to the types of households and qualifying residents identified in Section 27.22.020 (Eligibility for Bonus and Incentives), below. This Chapter is intended to implement the requirements of State law (Government Code Sections 65302, 65913, and 65915, et seq. and the goals and policies of the Town's Housing Element.

27.22.020 - Eligibility for Bonus and Incentives

In order to be eligible for a density bonus and other incentives as provided by this Chapter, a proposed residential project shall:

A. Consist of five or more units;

B. Low and Very Low Income:

   Be designed and constructed to meet at least one of the following:

   1. 10 percent of the total number of proposed units are for lower income households, as defined in the Health and Safety Code §50079.5; or

   2. 5 percent of the total number of proposed units are for very low income households, as defined in the Health and Safety Code §50105; or

   3. A senior citizen housing development as defined in the Zoning Ordinance and consistent with Civil Code §51.3 or §51.12;

C. Moderate Income – Mixed-Use, Multi-Family, Condominium, or Planned Developments:

   Be designed and constructed to meet at least one of the following:

   1. 10 percent of the total number of proposed units are for moderate income households, as defined by the Health and Safety Code §50093; or

   2. Any senior citizen housing development as defined in the Zoning Ordinance and consistent with Civil Code §51.3 or §51.12;
D. Only those units that qualify may be used to be eligible for a density bonus.

E. All density bonus units shall be restricted for the use that qualified them for the incentive.

F. Satisfy all other applicable provisions of this Zoning Ordinance, except as provided by Section 27.22.030.D.

G. Residential projects may pay in-lieu fees or dedicate land to receive a density bonus as provided by Section 27.22.090 (In-Lieu Participation Fees) and Section 27.22.100 (Land Dedication).

27.22.030 - Types of Bonuses and Incentives Allowed

A residential development project that satisfies all applicable provisions of this Chapter shall be entitled to the following density bonus and other incentives. If a density bonus and/or other incentives cannot be accommodated on a parcel due to strict compliance with the provisions of this Zoning Ordinance, modified standards may be considered based on the requirements and required findings in Section 27.22.030 D., E., and/or Section 27.22.060, which shall be reviewed and given final action by the Commission, unless associated project development entitlements require both a Commission recommendation and Council approval.

A. Minimum Density Bonus. The density bonus granted to a residential development project shall consist of an increase over the otherwise maximum allowable residential density under applicable zoning and land use element of the General Plan as of the date of application. Such increase shall be equal to at least:

1. A 20% increase for low/very-low income, and senior citizens.

2. A 5% increase for mixed-use, multi-family, condominium or planned development moderate income.

3. A fifteen percent (15%) increase in density, when an applicant for a residential development donates land to the Town in accordance with the requirements of Government Code Section 65915 (h) (1)-(6). Nothing in this subsection shall be construed to enlarge or diminish the authority of the Town to require a developer to donate land as a condition of development.

4. The Town has the authority to grant up to a 50% increase for projects that are 100% low and/or very low income. (Government Code 65915 (n)).

5. The Town may, at its discretion, grant a density bonus that is greater than that described in subsections (1), (2) and (3) for a development that meets the requirements, therein, or proportionately lower than that described in subsections (1), (2) and (3) for a development that does not meet the requirements therein. The request must be made in writing by the project applicant and must demonstrate the projects ability to comply with the requirements of Section 27.22.060.
B. **Additional Density Bonus.** The amount of density bonus to which the applicant is entitled shall vary according to the amount by which the percentage of affordable housing units exceeds the base percentage established in section 27.22.020. The amount of density bonus for a donation of land shall vary according to the amount by which the donation exceeds the base donation established by Government Code section 65915(h)(2):

1. **Low income households.** For each one percent (1%) increase above ten percent (10%) in the percentage of units affordable to lower income households, the density bonus shall be increased by one and one half percent (1.5%).

2. **Very low-income households.** For each one percent (1%) increase above five percent (5%) in the percentage of units affordable to very low-income households, the density bonus shall be increased by two and one half percent (2.5%).

3. **Moderate income mixed-use, multi-family, condominiums and planned developments.** For each one percent (1%) increase above ten percent (10%) in the percentage of units affordable to moderate income households, the density bonus shall increase by one percent (1%).

4. **Donation of land.** For each one percent (1%) increase above the minimum ten percent (10%) land donation, the density bonus shall be increased by one percent (1%). Nothing in this subsection shall be construed to enlarge or diminish the authority of the Town to require a developer to donate land as a condition of development.

The base density bonus shall not be included when determining the number of housing units that is greater than five percent (5%) or ten percent (10%) of the total development. All calculations resulting in fractional units shall be rounded up to the next whole number. In no event shall the Town be required to grant more than a thirty five percent (35%) increase over the otherwise maximum allowable residential density under the applicable zoning ordinance and land use element of the general plan.

C. **Number of Incentives.** An eligible project shall receive one, two, or three incentives as follows:

1. **Low income households.** An applicant shall receive:
   a. One incentive for a project that includes at least ten percent (10%) of the total units for low income households;
   b. Two incentives for a project that includes at least twenty percent (20%) of the total units for low income households; and
   c. Three incentives for a project that includes at least thirty percent (30%) of the total units for low income households.

2. **Very low-income households.** An applicant shall receive:
   a. One incentive for a project that includes at least five percent (5%) of the total units for very low-income households;
   b. Two incentives for a project that includes at least ten percent (10%) of the total units for very low income households; and
   c. Three incentives for a project that includes at least fifteen percent (15%) of the total units for very low income households.

3. **Moderate income mixed-use, multi-family, condominiums, and planned developments.** An applicant shall receive:
   a. One incentive for a project that includes at least ten percent (10%) of the total units for persons and families of moderate income in a mixed-use, multi-family, condominium, or planned development;
   b. Two incentives for a project that includes at least twenty percent (20%) of the total units for persons and families of moderate income in a mixed-use, multi-family, condominium, or planned development; and
   c. Three incentives for a project that includes at least thirty percent (30%) of the total units for persons and families of moderate income in a mixed-use, multi-family, condominium, or planned development.

D. **Incentives.** A project that is eligible to receive incentives pursuant to subsection (C) above shall be entitled to at least one of the following incentives identified in Government Code Section 65915(l):
1. Modified standards such as reduction in the parcel development standards (e.g., coverage, setback, zero lot line and/or reduced parcel sizes, and/or parking requirements).

2. Approval of mixed-use zoning in conjunction with the housing project if nonresidential land uses would reduce the cost of the housing project, and the nonresidential land uses would be compatible with the housing project and adjoining development.

3. Other regulatory incentives or concessions may be proposed by the developer. These incentives/concessions are subject to Town review and acceptance/denial. Denial is subject to the findings outlined in Section E. below.

4. Nothing in this section shall be construed to require the Town to provide, or limit the Town’s ability to provide, direct financial incentives for housing development, including the provision of publicly owned land by the Town or the waiver of fees and dedication requirements.

E. Limitations and exceptions.

1. In order to receive incentives as described in Section 27.22.030 Subsections (C) and (D), an applicant must submit a proposal to the Town requesting the specific incentives that the applicant desires.

2. The Town shall grant the incentives requested by the developer pursuant to Section 27.22.030 Subsection (E)(1) and required pursuant to Subsection (C), unless the Town Council makes a written finding, based upon substantial evidence, of either of the following:

   a. The incentive is not required in order to provide for affordable housing costs, as defined in Health and Safety Code section 50052.5; or

   b. The incentive would have a specific adverse impact, as defined in Government Code section 65589.5(d)(2), upon public health and safety or the physical environment or on any real property that is listed in the California Register of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact without rendering the development unaffordable to low and moderate income households.

3. The Town’s granting of an incentive shall not be interpreted, in and of itself, to require a general plan amendment, zoning change, or other discretionary approval.
4. Nothing in this section shall be interpreted to require the Town to waive or reduce development standards or to grant an incentive that would have a specific, adverse impact upon health, safety or the physical environment for which there is no feasible method to mitigate or avoid the specific adverse impact; nor shall this subsection require the Town to waive or reduce development standards or to grant an incentive that would have an adverse impact on any real property that is listed in the California Register of Historical Resources.

F. **Town's right to disapprove project.** Nothing in this Chapter shall limit the Town's right to disapprove an affordable housing project if the Town finds, based on substantial evidence, any one of the following (consistent with State law [Government Code Section 65589.5]):

1. The Town has adopted an adequate Housing Element, and the project is not needed for the Town to meet its share of the regional housing needs of very low and low income housing;

2. The project as proposed would have a specific adverse impact upon public health and safety, which cannot be satisfactorily mitigated without rendering it unaffordable to very low and low-income households;

3. The disapproval of the project or imposition of conditions is required in order to comply with specific State or Federal law and there is no feasible method to comply without rendering the development unaffordable to very low and low income households; or

4. The development project is inconsistent with the General Plan land use designation, as it existed on the date the application was deemed complete, and the Town has adopted a Housing Element in compliance with State law.

**27.22.035 – Child Day Care Center**

A. When an applicant proposes to construct an eligible residential development project as defined in Section 27.22.020, and includes a Child Day Care Center that will be located on the premises of, as part of, or adjacent to, the project, the Town shall grant either:

1. An additional density bonus that is an amount of square feet of residential space that is equal to or greater than the amount of square feet in the child day care center; or

2. An additional incentive that contributes significantly to the economic feasibility of the construction of the child day care center.

B. The Town shall require, as a condition of approving the housing development, the following occur:
1. The child day care center shall remain in operation for a period of time that is as long as or longer than the period of time during which the density bonus units are required to remain affordable pursuant to section 27.22.040.

2. Of the children who attend the child day care center, the children of very low, low, and moderate income households shall equal a percentage that is equal to or greater than the percentage of dwelling units that are required for very low, low, or moderate income households pursuant to subsection 27.22.020(B).

C. Notwithstanding subsections (A) and (B) above, the Town shall not be required to provide a density bonus or incentive for a child day care center if it finds, based upon substantial evidence, that the community has adequate child care facilities.

27.22.040 - Continued Availability

The entitlement application for the affordable residential development project shall include the procedures proposed by the developer to maintain the continued affordability of the designated dwelling units as follows. These provisions shall apply to both rental and for-sale ownership units.

A. Development projects receiving financial assistance. Projects receiving direct financial assistance or other financial incentives from a public source (including the Town, Redevelopment Agency, the Department of Housing and Urban Development (HUD) or state tax credit program), or a density bonus and at least one other concession or incentive shall maintain the availability of the lower income designated dwelling units for a minimum of 30 years, as required by State law (Government Code Sections 65915(c) and 65916).

B. Private projects density bonus only. Privately financed projects that receive a density bonus as the only incentive from the Town shall maintain the availability of lower income designated dwelling units for a minimum of 10 years.

C. Before the issuance of a building permit for any dwelling unit in a development for which density bonus units have been awarded or incentives have been received, the developer shall identify the restricted units and shall enter into a written covenant with the Town to guarantee one or both of the following, as applicable:

1. Low and very low income households; continued affordability. The continued affordability and availability of the low income and very low-income units shall be for a minimum of thirty (30) years, as required by state law (Government Code Sections 65915(c)(1) and 65916). Those units target for low income households, as defined in Health and Safety Code section 50079.5, shall be affordable at a rent that does not exceed thirty percent (30%) of sixty percent (60%) of the area median income. Those units targeted for very low income households, as defined in Health and Safety Code section 50105, shall be affordable at a rent that does not exceed thirty percent (30%) of fifty percent (50%) of the area median income.
2. Moderate-income households; equity sharing. The initial occupant of any moderate-income unit in a mixed-use, multi-family, condominium or planned development shall be a person or family of moderate income, as required by state law (Government Code section 65915(c)(2)). Upon resale, the seller of the unit shall retain the value of any improvements, the down payment, and the seller’s proportionate share of appreciation. The Town shall recapture its proportionate share of appreciation, which shall be equal to the percentage by which the initial sale price to the moderate-income person or family was less than the fair market value of the home at the time of initial sale. The Town shall spend recaptured funds within three years for any purposes to promote homeownership, as described in Health and Safety Code section 33334.2(e).

27.22.050 - Location of Designated Dwelling Units

A. Location/dispersal of units. The location of the designated dwelling units within the qualifying project shall be at the discretion of the Town with the goal to integrate the units into the overall project. However, the designated dwelling units shall be reasonably dispersed throughout the development where feasible, shall contain on average the same number of bedrooms as the non-density bonus units, and shall be compatible with the design or use of the remaining units in terms of appearance, materials, and finish quality.

B. Phasing. If a project is to be phased, the density bonus units shall be phased in the same proportion as the non-density bonus units, or phased in another sequence acceptable to the Town.

C. Alternative development site.

1. Circumstances may arise in which the public interest would be served by allowing some or all of the designated dwelling units associated with one housing development to be produced and operated at an alternative development site.

2. Where the owner/developer and the Town form an agreement, the resulting linked developments shall be considered a single housing development for purposes of this Chapter. The owner/developer shall be subject to the same requirements for the designated dwelling units to be provided on the alternative site.

27.22.060 - Processing of Bonus Requests

A. Use Permit required. Requests for bonus units shall require the approval of a Use Permit in compliance with Section 27.42.050, which shall be reviewed and given final approval by the Commission, unless associated entitlements require both a Commission recommendation and Council approval.

B. Findings for approval. In addition to the findings required for the approval of a Use Permit in compliance with Section 27.42.050, the approval of a density bonus shall require that all of the following additional findings be made:
1. The development project would be compatible with the purpose and intent of the General Plan and this Zoning Ordinance;

2. The development project would not be a hazard or nuisance to the Town at large;

3. The number of dwellings can be accommodated by existing and planned infrastructure capacities;

4. Adequate evidence exists to ensure that the development of the property would result in the provision of affordable housing consistent with the purpose of this Chapter;

5. The Town has either granted an appropriate density bonus or provided other incentives of equivalent value in compliance with State law (Government Code Section 65915.); and

6. There are sufficient provisions to guarantee that the designated dwelling units would remain affordable in the future.

27.22.070 - Density Bonus Agreement

A. Procedures. An owner/developer requesting a density bonus, shall draft, and agree to enter into, a density bonus agreement ("agreement") with the Town. The terms of the draft agreement shall be reviewed and revised as appropriate by the Town Manager, or authorized designee, and/or the Town Attorney.

B. Execution of agreement.

1. Following execution of the density bonus agreement by all parties, the Town shall record the completed agreement on the parcels designated for the construction of designated dwelling units, at the County Recorder's Office. Moderate-income housing receiving a density bonus that does not require any government subsidies is exempt from the requirement of recording the agreement.

2. The approval and recordation shall take place at the same time as the final map or, where a map is not being processed, before issuance of Building Permits for the units.

3. The agreement shall be binding to all future owners, developers, and/or successors-in-interest.

C. Agreement contents. The density bonus agreement shall include at least the following information:

1. The total number of units approved for the housing development, including the number of designated dwelling units;
2. A description of the household income group to be accommodated by the housing development, and the standards and methodology for determining the corresponding affordable rent or affordable sales price and housing cost consistent with HUD Guidelines;

3. The marketing plan for the affordable units;

4. The location, unit sizes (square feet), and number of bedrooms of the designated dwelling units;

5. Tenure of the use restrictions for designated dwelling units of 30 years, in compliance with Section 27.22.040 (Continued Availability), above;

6. A schedule for completion and occupancy of the designated dwelling units;

7. A description of the additional incentive(s) being provided by the Town;

8. A description of the remedies for breach of the density bonus agreement by the owners, developers, and/or successor(s)-in-interest of the project; and

9. Other provisions to ensure implementation and compliance with this Chapter.

D. Agreement provisions. The density bonus agreement shall include at least the following provisions:

1. The developer shall give the Town the continuing right-of-first-refusal to lease or purchase any or all of the designated dwelling units at the appraised value;

2. The deeds to the designated dwelling units shall contain a covenant stating that the developer or successors-in-interest shall not assign, lease, rent, sell, sublet, or otherwise transfer any interests for designated units without the written approval of the Town;

3. When providing the written approval, the Town shall confirm that the price (rent or sale) of the designated dwelling unit is consistent with the limits established for low- and very low-income households, as published by HUD;

4. The Town shall have the authority to enter into other agreements with the developer, or purchasers of the designated dwelling units, to ensure that the required dwelling units are continuously occupied by eligible households;

5. Applicable deed restrictions, in a form satisfactory to the Town Attorney, shall contain provisions for the enforcement of owner or developer compliance. Any default or failure to comply may result in foreclosure, specific performance, or withdrawal of the Certificate of Occupancy.
6. In any action taken to enforce compliance with deed restrictions, the Town Attorney shall, if compliance is ordered by a court of competent jurisdiction, take all action that may be allowed by law to recover all of the Town's costs of action including legal services.

E. **For-sale housing conditions.** In the case of for-sale housing developments, the density bonus agreement shall provide for the following conditions governing the initial sale and use of designated dwelling units during the applicable use restriction period:

1. Designated dwelling units shall be owner-occupied by eligible very low or low income households, or by qualified residents in the case of senior housing; and

2. The initial purchaser of each designated dwelling unit shall execute an instrument or agreement approved by the Town which:
   
   a. Restricts the sale of the unit in compliance with this Chapter during the applicable use restriction period;
   
   b. Contains provisions as the Town may require to ensure continued compliance with this Chapter and State law; and
   
   c. Shall be recorded against the parcel containing the designated dwelling unit.

3. The applicable restriction period shall be a minimum of 30 years for projects in compliance with Section 27.22.040 (Continued Availability).

F. **Rental housing conditions.** In the case of rental housing developments, the density bonus agreement shall provide for the following conditions governing the use of designated dwelling units during the use restriction period:

1. The rules and procedures for qualifying tenants, establishing affordable rent, filling vacancies, and maintaining the designated dwelling units for qualified tenants;

2. Provisions requiring owners to annually verify tenant incomes and maintain books and records to demonstrate compliance with this Chapter;

3. Provisions requiring owners to submit an annual report to the Town, which includes the name, address, and income of each person occupying the designated dwelling units, and which identifies the bedroom size and monthly rent or cost of each unit; and

4. Low and very low income households; continued affordability. The continued affordability and availability of the low income and very low-income units shall be for a minimum of thirty (30) years, as required by state law (Government Code Sections 65915(c)(1) and 65916). Those units target for lower income households, as defined in Health and Safety Code section 50079.5, shall be affordable at a rent that does not exceed thirty percent (30%) of sixty percent (60%) of the area median
income. Those units targeted for very low income households, as defined in Health and Safety Code section 50105, shall be affordable at a rent that does not exceed thirty percent (30%) of fifty percent (50%) of the area median income.

G. Moderate-Income Conditions. In the case of for-sale moderate-income housing developments, the density bonus agreement shall provide for the following conditions governing the initial sale and use of designated dwelling units during the applicable use restriction period.

1. Moderate-income households; equity sharing. The initial occupant of any moderate income unit in a mixed-use, multi-family, condominium or planned development shall be a person or family of moderate income, as required by state law (Government Code section 65915(c)(2)).

2. Upon resale, the seller of the unit shall retain the value of any improvements, the down payment, and the seller’s proportionate share of appreciation.

3. The Town shall recapture its proportionate share of appreciation, which shall be equal to the percentage by which the initial sale price to the moderate-income person or family was less than the fair market value of the home at the time of initial sale.

4. The Town shall spend recaptured funds within three years for any purposes to promote homeownership, as described in Health and Safety Code Section 33334.2(e).

H. Recordation of Agreement. The terms and conditions of the covenant required by this section shall run with the land which is to be developed, shall be binding upon the successor(s)-in-interest of the developer, and shall be recorded in the county recorder’s office. In addition to the requirements described in subsection (A) above, the agreement shall include the following provisions:

1. The developer shall give the Town a continuing right-of-first-refusal to purchase or lease any or all of the designated units at the fair market value;

2. The deeds to the designated units shall contain a covenant stating that the developer shall not sell, rent, lease, sublet, assign, or otherwise transfer any interests for same without the written approval of the Town confirming that the sales or rental price of the units is consistent with the limits established for low, very low and moderate-income households, which shall be related to the Consumer Price Index; and

a. The Town shall have the authority to enter into other agreements with the developer or purchasers of the dwelling units, as may be necessary to ensure that the low and very low income units are continuously occupied by eligible households.
27.22.080 - Control of Resale

A. In order to maintain the availability of the affordable housing units as may be constructed in compliance with the requirements of this Section, the following resale conditions shall be imposed. The price received by the seller of an affordable unit shall be limited to the purchase price plus an increase based on the Bay Area Consumer Price Index, an amount consistent with the increase in the median income since the date of purchase, or the fair market value, whichever is less. Prior to offering an affordable housing unit for sale, the seller shall provide written notice of intent to sell to the Town. The notice shall be provided by certified mail to the Director.

B. Home ownership affordable units constructed, offered for sale, or sold under the requirements of this Section shall be offered to the Town or its assignee for a period of at least 90 days from the date of the notice of intent to sell is delivered to the Town by the first purchaser or subsequent purchaser(s). Home ownership affordable units shall be sold and resold from the date of the original sale only to households as determined to be eligible for affordable units by the Town according to the requirements of this Section. The seller shall not levy or charge any additional fees nor shall any "finder’s fee" or other monetary consideration be allowed other than customary real estate commissions and closing costs.

C. The owners of any affordable unit shall attach and legally reference in the grant deed conveying title of the affordable ownership unit a declaration of restrictions provided by the Town, stating the restrictions imposed in compliance with this Section. The grant deed shall afford the grantor and the Town the right to enforce the attached declaration of restrictions. The declaration of restrictions shall include all applicable resale controls, occupancy restrictions, and prohibitions as required by this Section.

D. The Town shall monitor the resale of ownership affordable units. The Town or its designee shall have a 90-day option to commence purchase of ownership affordable units after the owner gives notification of intent to sell. Any abuse in the resale provisions shall be referred to the Town for appropriate action.

E. Multi-family/mixed-use–income projects within the Downtown Plan Area are exempt from the requirements set forth in this Section. A Density Bonus Agreement under Section 27.22.070 is required to receive a density bonus for moderate-income projects in the Downtown Plan area.

27.22.090 - In-Lieu Participation Fees

The Town’s intent is to provide a mix of housing units and types. The Town’s General Plan Housing Element addresses a diverse housing stock and the Inclusionary Housing Ordinance further supports this intent. When circumstances in development support findings that the inclusion of affordable units is not suitable, but that greater density would better serve the project, the Town may consider payment of an in-lieu fee in place of actual construction of the units.
A. In-lieu fees may be appropriate for particular developments not suitable for affordable units due to factors including location, development density, accessibility to public transportation, environmental conditions, or in cases where the affordable requirement includes a decimal fraction of a unit and a combination of both affordable units and in-lieu fees is required to fulfill the affordable requirement. These in-lieu fees shall be used by the Town or its designee for the purpose of developing affordable housing for low and very low income households elsewhere in the Town.

B. The in-lieu participation fees for all residential development must be paid prior to the issuance of the first Building Permit for the project. The amount of in-lieu fees shall be established by resolution of the Council. The in-lieu fee shall be adjusted periodically to reflect changes in the Consumer Price Index (CPI), and may also be adjusted as necessary for changing conditions in the Town.

27.22.100 - Land Dedication

An Applicant may dedicate land to the Town or a non-profit entity or agency approved by the Town in place of actual construction of affordable units upon the approval of the Council. The intent of allowing a land dedication option is to provide the land needed to make affordable housing development feasible, thus furthering the intent of this Chapter. Reference Section 27.22.030 B for additional density bonus information in relation to donation of land.

* (All of Section 27.22 Revised 08/17/05, ORD. 2004-194)
CHAPTER 27.23- INCLUSIONARY HOUSING REQUIREMENTS

27.23.010- Purpose and Intent

The Town of Windsor recognizes the importance of achieving a diverse and balanced community with housing available for households of all income levels. Economic and social diversity cultivates a healthy social fabric that is beneficial to all residents of Windsor. The Town is experiencing an increasing shortage of housing affordable to very low, low and moderate-income households. New residential development does not provide housing opportunities for this segment of society. As a result, very low, low and moderate-income households are excluded from new housing, creating economic stratification in the Town that is detrimental to the public health, safety, and welfare.

The purpose of this chapter is to establish an inclusionary requirement on residential development projects. This Chapter will mitigate the impacts caused by these development projects for the additional demand for more affordable housing and rising land prices for limited supply of available residential land. The inclusionary requirements required by this chapter do not replace other regulatory requirements and processing fees or exactions, funding required pursuant to a development agreement or reimbursement agreement; assessment charged pursuant to special assessments or benefit assessments districts proceedings, etc., unless so specified.

27.23.020- Applicability

A. **Threshold.** The provisions of this Chapter shall apply to all new Residential Developments of ten (10) or more parcels or dwelling units intended and designed for permanent occupancy, including but not limited to single-family dwellings, multi-family residential projects which receive subdivision, Use Permit, or Design Review approval after the effective date of this Chapter.

B. **Exemptions.** The following shall not be subject to the provisions of this Chapter:

1. Residential dwelling for which a building permit has been issued by the Town prior to the effective date of this Chapter.

2. Residential and mixed-use development projects that the Town Council has determined have a vested right to proceed without complying with the provisions herein.

3. Existing residences, which are altered, improved, restored, expanded, or extended, provided that the number of units is not increased to five or more.

4. Accessory dwelling units constructed pursuant to Section 27.34.180 of the Zoning Ordinance. (Rev. 04/09/18, ORD. 2017-319)

5. Junior accessory dwelling units established pursuant to Section 27.34.185. (Rev. 04/09/18, ORD. 2017-319)
5. Dwelling units, which are offered and restricted for sale, lease or rent solely to individuals or households of very-low, low, or moderate-incomes as defined by this Chapter, and for the minimum terms set forth by this Chapter.

6. Replacement of any dwelling unit or residential development which is damaged or destroyed by fire or other catastrophe provided the number of units and the use of the building remain the same.

27.23.030- Inclusionary Requirements

A. **Percentage requirement.** In projects of ten (10) or more dwelling units, a ten (10%) inclusionary requirement applies if the inclusionary units are constructed for moderate-income households, seven and half (7.5%) requirement if the inclusionary units are constructed for low-income households, and a five percent (5%) requirement if the inclusionary units are constructed for very low income households. If, in the application of the requirements of this Chapter, a decimal fraction unit requirement is obtained, an in-lieu fee shall be provided equal to the applicable decimal fraction cost of a full housing unit. Council Resolution shall establish said fee.

B. **Payment of an in-lieu fee for all units.** The Town shall establish an in-lieu fee schedule, as defined in Section 27.23.130. Any fee required by this chapter shall be paid in full prior to the issuance of a Building Permit for the project. In multi-phase projects, the entire in-lieu fees required for the project, inclusive of all phases, shall be paid prior to issuance of any building permits for the first phase.

C. **Land Donation.** Dedicate with cost to the Town, a lot or lots within, contiguous to or elsewhere in Town sufficient to accommodate at least the required number of affordable units for the residential project. An election to dedicate land in lieu of compliance with other provisions of this chapter shall be allowed only if:

1. The appraised value, of the lot or lots to be dedicated, net of demolition and environmental remediation costs, is equal to at least 150 percent of the project’s in lieu fee obligation and financing or a viable financing plan is in place for at least the required number of affordable units and;

2. The lot or lots are suitable for the construction of affordable housing at a feasible cost, defined by the Town Manager, are zoned appropriately for affordable housing development, served by utilities, streets and other infrastructure and there are no hazardous materials or other material constraints on the development of affordable housing.

D. **Off site construction.** Construct, or make possible construction by another developer, of units not physically contiguous to the market-rate units or units that are physically contiguous to the market-rate units if the Town determines that this will provide greater public benefit and if the inclusionary housing regulatory agreement is acceptable to the Town Manager or the Manager’s designee.
E. **Construction of Inclusionary units.** The inclusionary units shall be provided at the same time as the other units. Both the inclusionary and market rate housing units shall be completed at the same time.

F. **Distribution of Inclusionary units.** Inclusionary units are encouraged to be distributed throughout the development. Distribution of units may take into account the number of required inclusionary units in the project, as well as consideration of environmental and aesthetic factors.

G. **Appearance of Inclusionary units.** The inclusionary units are encouraged to be substantially the same as the market rate units or buildings in exterior materials and finish. The developer may provide less expensive interior amenities for the inclusionary unit as long as there are not significant differences visible from the exterior. All units must conform to the requirements of the Building and Housing Codes, and subject to the approval of the Town Manager, or his/her designee.

H. **Bedroom Count of Inclusionary Units.** Inclusionary units shall be comparable in bedroom count distribution to the market rate units.

**27.23.040- Pricing Requirements for Inclusionary Units.**

Allowable rents and sales prices. Inclusionary units shall be made available at affordable rents or purchase prices and occupied by qualified income-eligible households, adjusted for household size and occupancy standards appropriate for the unit. The Planning Department shall set maximum allowable rents and maximum allowable purchase price for inclusionary units, adjusted by the household size appropriate for the unit. Such maximum allowable rents and maximum allowable purchase prices shall be set as rates such that qualified occupants pay no more than the affordable housing expense, as defined below:

For renters, affordable housing expense shall include rent plus a Utility Allowance and shall not exceed:

- **Very low income:** 30% of 50% AMI, adjusted for household size
- **Low income:** 30% of 60% of AMI, adjusted for household size
- **Moderate Income:** 30% of 110% of AMI, adjusted for household size

For owners, affordable housing expense shall include principal, interest, PMI, property taxes, insurance, homeowners’ association dues, property maintenance, repair and a Utility Allowance and shall not exceed:

- **Very low income:** 30% of 50% AMI, adjusted for household size
- **Low income:** 30% of 70% of AMI, adjusted for household size
- **Moderate Income:** 35% of 110% of AMI, adjusted for household size
- **Moderate Income:** 38% of 110% of AMI, adjusted for household size with no Town subsidy or concession
Household size adjustments shall be made using the Occupancy Standard defined in Exhibit “B,” Chapter 27.60.020.

27.23.050 - Eligibility Requirements.

A. Qualified households. Only qualified households shall be eligible to occupy or own and occupy the inclusionary units. Developers shall utilize an entity such as a non-profit housing cooperation or a public Housing Authority to obtain qualified occupants. Developers shall select only qualified households to occupy or own and occupy inclusionary units. Inclusionary for-sale units must be owner-occupied by a qualified household, with an exception granted in the case of an owner’s absence required by military service.

B. Excluded persons. The following individual, by virtue of their position or relationship, are ineligible to occupy an inclusionary unit.

1. The immediate relative of the project developer or owner.

27.23.060- In-Fractional Remainders and In- lieu Fees

A. Eligibility for fee payment. When the calculation of inclusionary requirements yields a fractional number, or if a developer if wishes to pay the in-lieu fee to satisfy the requirements of this ordinance a fee in-lieu of providing a full unit shall be paid to the Town,

1. Amount of fee. For purposes of this section, the fractional remainder and in-lieu inclusionary fee shall be as defined in Section 27.23.130 of this Chapter.

2. Payment of fee. Any fee required by this chapter shall be paid in full prior to the issuance of a Building Permit for the project. In multi-phase projects, the entire in-lieu fees required for the project shall be paid prior to issuance of any building permits.

3. Use of funds. Any funds received from in-lieu fee payments shall be placed in a reserve account used for the exclusive purpose of providing housing affordable to very-low, low and moderate-income households in the Town of Windsor.

27.23.070 - Deed Restrictions

When inclusionary units are required, a deed restriction shall be recorded setting forth the applicable restrictions in this Chapter. The minimum period of affordability for inclusionary units shall be set forth below:

A. Affordability Period. Except as may be otherwise provided in Section 27.22.040, inclusionary units which are built without a public subsidy, or density bonus or other concession granted pursuant to Government Code Section 65915, shall be required to maintain affordability in perpetuity for rental units and for the longest feasible time, but not less than forty-five (45) years, for owner units, or for a different period when required
by the Town of Windsor or State law. At the resale of an affordable owner unit, the affordability period of not less than forty-five (45) years shall be renewed. A program to assure affordability for these units for this period of time shall be administered by the Town or by a non-profit housing agency approved by the Town. The developer shall enter into an agreement with the Town or its designee to provide monitoring and to assure affordability of the inclusionary units in perpetuity for rental units and for the longest feasible time, but not less than forty-five (45) years, for owner units from the effective date of first occupancy or resale of an affordable owner unit. The Town Manager shall be authorized to enter into such agreement on behalf of the Town. The approved agreement shall be recorded with the Sonoma County Recorder prior to issuance of a building permit for the project.

1. All buyers of “for sale” inclusionary units shall enter into a Resale Agreement with the Town or its designee prior to the close of escrow for such inclusionary unit. The Resale Agreement shall specify the required affordability term, shall provide for an option for the Town or its designee to designate an eligible purchaser and shall provide the Town or its designee with first right of refusal to purchase the unit, and shall provide for a calculation of future equity assignment upon sale of the unit. Such agreement shall be recorded against each lot or unit.

2. Conversion of an inclusionary rental unit to a “for sale” unit, if otherwise permitted, shall not void any provisions of applicable inclusionary housing agreements or requirements.

27.23.080 - Monitoring of Inclusionary Units

Each owner of any rental inclusionary units shall submit an annual report to the Planning Department, no later than March 1, for the previous calendar year, identifying monthly rental rates, vacancy status of each inclusionary unit, income status for resident and any other related data deemed necessary by the Town while ensuring privacy for all occupants. The deed restriction for ownership units shall require a comparable conformance report to the Town upon sale of ownership of inclusionary units.

27.23.090 - Developer Incentives

When a developer proposes a housing project that is subject to the inclusionary requirements of this Chapter, the Town shall provide the developer a density bonus compliant with State density bonus law, as defined in California Government Code section 65915 et seq, as revised periodically. Subject to the approval of the Town Manager or the Town Manager’s designee, the Town may also provide other incentives, including, but not limited to: reduction in site development standards, modification of architectural design requirements, or other similar incentives that assist in making the project economically feasible. Subject to the approval of the Town Manager or the Town Manager’s designee, other incentives may be offered for the production of very low, or low income housing units, include fee deferrals, fast track permitting, shared equity programs and exceptions from zoning ordinance requirements i.e. parking, setbacks and others.
27.23.100 - Inclusionary Housing Submittal Requirements

As part of any submittal to the Town of Windsor for the construction of ten (10) or more new dwelling units, or for the subdivision of land into ten (10) or more lots for residential use, each developer shall include information as to the total number of housing units included within the application; the number of inclusionary units; proposed sale or rental prices of the inclusionary units; identification of the agency which will monitor occupancy and continued affordability of the inclusionary units for the amount of time specified by this chapter; and any other information deemed necessary by the Town. It shall be the responsibility of the developer to negotiate any needed agreement with the monitoring agency to comply with Section 27.40.070 “Deed Restrictions”.

27.23.110- Modification of Requirements, Hardship, Exception.

Notwithstanding any other provision of this chapter, the requirements of this chapter shall be waived, adjusted or reduced if the applicant shows, by the presentation of substantial evidence, that there is no reasonable relationship between the impact of a proposed residential project and the requirements of this chapter, or that applying the requirements of this chapter would take property in violation of the U.S. or California Constitution. To receive a waiver, adjustment or reduction under this subsection (c), the applicant must make a showing under this subsection when applying for a first approval for the residential project, and/or as part of any appeal which the City provides as part of the process for the first approval.

27.23.120- Appeals and Enforcement

A. Application of requirements. The provisions of this chapter shall apply to all agents, successors and assignees of the developer. No planning permit shall be issued after the effective date of this Chapter for any project which does not meet the requirements of this Chapter.

B. Violations. Any person, firm or corporation, whether as principal, agent, employee or otherwise, violating or causing the violation of any provision of this chapter, shall be guilty of a separate offense during each and every day during any portion of which any violation of this chapter is commenced, continued, or permitted by such person, firm or cooperation.

C. Appeal to Planning Commission. Any person aggrieved by any action involving denial, suspension or revocation of a building permit or denial, suspension or revocation of any development approval related to compliance with this chapter may appeal such determination to the Planning Commission, with further appeal possible to the Town Council, upon payment of the applicable appeal fee.

D. Appeal to the Town Council. Any developer or other person who contends that his or her interests are adversely affected by a determination or requirement of the Town or its designee in regard to this chapter and is not satisfied with the decision of the Planning
Commission may appeal to the Town Council upon payment of the applicable fee. The appeal shall set forth specifically wherein in action of the Town or its designee fails to conform to the provisions of this chapter thereby adversely affecting the developer’s or other person’s interests. The Town Council may reverse or modify any determination or requirement of the Town or its designee if it finds that the action under appeal does not conform to the provisions of this Chapter.

27.23.130 – In Lieu Fee Schedule

A. **Per square foot in lieu fee amount.** The in lieu fee shall be calculated on a per square foot basis, based on the square footage of the market rate units, as follows:

1. A minimum per unit in lieu fee of $2,000 shall apply for units up to 1,000 square feet;
2. For units of 1,000 square feet, the fee shall be $2.00 per square foot;
3. For larger units, the per square foot fee shall increase by $0.015 per 50 square feet, or fraction thereof.

B. **Adjustments to the in lieu fee.** The in lieu fee shall be adjusted annually by an inflation factor equal to the percent increase in the median home sales price in the Town over the previous three (3) years. In years when the percent change in rolling three year average of median home sales price is negative, the in lieu fee shall remain unchanged.

C. In lieu fee schedule. The in lieu fee schedule for 2009 is as follows:

(Revised: 01/07/09 ORD 2009-250)
CHAPTER 27.24 - AGRICULTURAL PRESERVATION

27.24.010 - Purpose of Chapter

It is in the public interest to preserve and protect agricultural lands and operations within the vicinity of the Town exclusively for agricultural and appurtenant uses. Non-agricultural land uses adjacent to agricultural lands and operations often lead to restrictions on the agricultural operations to the detriment of the economic viability of agriculture.

The purposes of this Chapter are to preserve and protect agricultural uses, support continued agricultural operations, alert prospective residents to the importance of agricultural land preservation, and provide suitable methods of land use separation and buffering provisions, in compliance with Section 27.24.020 (Buffering), below.

27.24.020 - Buffering

A. Buffering required. At the time of the subdivision or development of any parcel that adjoins lands zoned for and/or currently in agricultural use, an appropriate buffer shall be established on the parcel where the subdivision or development is proposed, between the urban development and existing agricultural operations.

B. Width of buffer. The minimum width of a buffer shall be 100 feet from the property line for row and field crops and 200 feet from the property line for vineyards and orchards. The Council may adjust the width of the buffer where deemed appropriate because of any of the following factors, provided that the buffer shall not be reduced to less than 100 feet:

1. Type of agricultural activity (e.g., animal husbandry, field crops, orchards, vineyards, etc.);

2. Agricultural practices;

3. Existing physical features (e.g., stand of trees, topography, water courses, etc.);

4. Man-made features (e.g., fences/walls, parking lots, streets, trails, etc.); and

5. Configuration, location, and size of the properties involved.

C. Setback from habitable structures. For development on individual parcels where a planning-related entitlement (e.g., Design Review, Tentative Map, Use Permit, etc.) is not required, a minimum buffer setback to all habitable structures of 100 feet shall be maintained.
27.24.030 - Disclosure

A. Disclosure by subdivider. The subdivider of any property located within 1,000 feet of land zoned and/or currently used for agricultural use shall disclose, through a notation on the final map of the subdivision, within Conditions, Covenants and Restrictions (CC&Rs), if prepared, and through the recordation of a separate acknowledgment statement, the presence of agricultural and appurtenant uses in the proximity of the subdivision through the following statement:

"The property(ies) within this subdivision is(are) located within 1,000 feet of land utilized or zoned for agricultural operations and residents/occupants of the property may be subject to inconvenience or discomfort arising from use of agricultural chemicals, including acaricides, fertilizers, fungicides, herbicides, insecticides, predacides, and rodenticides; and from the pursuit of agricultural operations, including crop protection, cultivation, harvesting, plowing, processing, pruning, shipping, and spraying, which may generate dust, light, noise, odor, smoke, and traffic. The Town has adopted policies to encourage and preserve agricultural lands and operations in the vicinity of the Town. Residents/occupants of property(ies) within this subdivision should be prepared to accept inconveniences or discomfort as normal and necessary to on-going agricultural operations."

B. Disclosure before issuance of Building Permits. Where a new structure intended for human occupancy is to be located on property which is located within 1,000 feet of land zoned and/or currently used for agricultural use, the owner(s) of the property shall, before issuance of a Building Permit, be required to sign and record a statement in a form complying with Subsection A. (Disclosure by subdivider), above. In lieu of signing the statement required above, the owner(s) may submit evidence that the statement in Subsection A., above, has been made a part of subdivision documents creating the parcel on which the structure is to be located.
CHAPTER 27.25 – REASONABLE ACCOMMODATION

27.25.010 – Purpose of Chapter

The purpose of this chapter is to provide a procedure for individuals with disabilities to request reasonable accommodation in seeking equal access to housing under the federal Fair Housing Act and the California Fair Employment and Housing Act (“Acts”) in the application of zoning laws and land use regulations, policies, and procedures.

27.25.020 - Applicability

A. A request for reasonable accommodation may be made by any person with a disability or their representative, when the application of a requirement of the Zoning Ordinance or Town requirement, policy, or practice acts as a barrier to fair housing opportunities. For the purpose of this chapter a “person with disability” is any person who has a physical or mental impairment that limits or substantially limits one or more major life activity, anyone who is regarded as having such impairment or anyone who has a record of such impairment. This chapter is intended to apply to those persons who are defined as disabled under the Acts.

B. A request for reasonable accommodation may include a modification or exception to the rules, regulations, and/or practices for the siting, development, use of housing or housing-related facilities that would eliminate regulatory barriers and provide a person with a disability equal opportunity to housing of their choice.

C. A reasonable accommodation is granted only to the household that needs the accommodation and does not apply to successors in interest to the site.

D. A reasonable accommodation may be granted in compliance with this chapter without the need for approval of a variance.

27.25.030 – Procedure

A. A request for reasonable accommodation shall be submitted in writing to the Community Development Director and shall contain the following information:

1. The applicant’s name, address, and telephone number.

2. Address of the property for which the request is being made.

3. The current use of the property.

4. The basis for the claim that the individual is considered disabled under the Acts, including verification of such claim.
5. The zoning code provision, regulations, or policy from which reasonable accommodation is being requested.

6. The reason why the reasonable accommodation is necessary to make the specific property accessible to the individual.

B. If the project for which the request for reasonable accommodation is being made requires some other discretionary approval (i.e. Use Permit, Design Review, etc.), the applicant shall file the information required by A. of this section for concurrent review with the application for discretionary approval.

C. A request for reasonable accommodation shall be reviewed by the Community Development Director or his/her designee. If no approval is sought other than the request for reasonable accommodation, the Director or his/her designee, shall make a written determination within 45 days of the application/written request being deemed complete and either grant, grant with modifications, or deny a request for reasonable accommodation.

D. A request for reasonable accommodation submitted for concurrent review with another discretionary land use application shall be reviewed by the Planning Commission or designated hearing body. The written determination on whether to grant or deny the request for reasonable accommodation shall be made by the Planning Commission/designated hearing body, in compliance with the applicable review procedure for the discretionary review.

27.25.040—Approval Findings

The written decision to grant or deny a request for reasonable accommodation will be consistent with the Acts and shall be based on consideration of the following:

A. Will the housing in the request be used by a person with a disability under the Acts?

B. Is the request for reasonable accommodation necessary to make specific housing available to a person with a disability under the Acts?

C. Will the request for reasonable accommodation impose undue financial, administrative, or enforcement burdens on the Town?

D. Will the request for reasonable accommodation require a fundamental alteration in the nature of a Town program or law, including but not limited to land use and zoning?

E. What, if any, are the potential impacts on surrounding uses?

F. What are the physical attributes of the property and structures?

G. Are there any other reasonable accommodations that may provide an equivalent level of benefit?
27.25.050 – Conditions of Approval

In granting a request for reasonable accommodation, the Community Development Director, his/her designee, or if applicable the Planning Commission or designated hearing body may impose any conditions of approval that are deemed reasonable and necessary to ensure that the reasonable accommodation complies with the findings in Section 27.25.040 above. The conditions shall also state whether the accommodation granted shall be removed in the event that the person for whom the accommodation was requested no longer resides on the site.

27.25.060 – Appeals

The decision of the Community Development Director, his/her designee or if applicable the Planning Commission or designated hearing body shall be considered final unless an appeal is filed in compliance with Chapter 27.52 (Appeals).

* (All of Section 27.25 Revised 09/17/14, ORD. 2014-287)
CHAPTER 27.26 - FENCES, WALLS, AND HEDGES

27.26.010 - Purpose of Chapter

This Chapter establishes requirements for fences, walls, and hedges to ensure that these elements minimize screening of scenic views and sunlight, provide adequate buffering between different land uses and screening of outdoor uses and equipment, and are attractively designed.

27.26.020 - Applicability

The provisions of this Chapter apply to all fences, walls, and hedges except as provided by this Section.

A. Exemptions. The following fences and walls are exempt from this Chapter:

1. Required fences or walls. Fences or walls required by the Town for reasons of public safety, or by the regulations of a State or Federal agency; or

2. Retaining walls. Retaining walls that are regulated by Section 27.20.070 (Setback Measurement and Exceptions).

B. Waiver or modification of requirements. The requirements of this Chapter may be waived or modified by the Director through Site Plan and Design Review (Section 27.42.030).

27.26.030 - Height limitations

A. Maximum allowed heights. Fences, walls, and hedges shall not exceed the maximum heights shown in Table 3-5 (Maximum Height of Fences, Walls, and Hedges), and in Section 27.20.050.D (Height Limit at Street Corners).

B. Height measurement. Fence height shall be measured from finished grade at the base of the fence to the uppermost part of the fence; except when there is a difference in the ground level between two adjoining parcels of two feet or more, the maximum allowed height of a fence or wall shall be determined by the Director.

C. Residential fence location. Fences located on residential parcels shall not exceed 3’ in height in the front setback. Fences in excess of 3’ in height shall be located a minimum of 2’ behind the front façade. For the purposes of this section fences shall include walls, screens, trellises, and other similar linear features.

(Rev. 8/17/05 Ord. 2005-194).
### TABLE 3-5
MAXIMUM HEIGHT OF FENCES, WALLS, AND HEDGES

<td>As deemed necessary by the Director</td>
</tr>
</tbody>
</table>

**Notes:**

1. In granting the Site Plan and Design Review, in compliance with Section 27.42.030, the Director may approve additional height to enclose or screen specific areas or uses.
2. Two-foot tall open lattice may be allowed on top of a six-foot tall fence on rear and interior side setbacks only, with approval of the Director, and with a Building Permit when required.
3. Maximum heights for fences may be different in the downtown planning area. Applicants should check with the Department prior to erecting fences in the downtown area.
4. Fences exceeding 3’ in height shall be located a minimum of 2’ behind the front façade of the residence. (Revised 08/17/05, ORD. 2005-194)

### FIGURE 3-6
FRONT & STREET SIDE SETBACK AREAS WITH 3-FOOT FENCE HEIGHT LIMIT
27.26.040 - Fence and Wall Design Standards

A. Pedestrian access to neighborhood shopping. To ensure the most direct and safe access routes for pedestrians walking between a neighborhood-serving commercial development and the neighboring dwelling units, an appropriate number of openings in the fences or walls shall be provided subject to the approval of the Director.

B. Allowable fence and wall materials. Fences and walls shall be constructed of attractive, long-lasting materials (e.g., masonry, wood, or stone). Masonry walls should not consist exclusively of smooth-surfaced concrete masonry units (CMUs); the use of textured or split-face CMUs is strongly encouraged. Walls shall be of a solid masonry construction and be of a decorative design when visible from public rights-of-way. The use of chain link fencing is discouraged.

27.26.050 - Walls Required Between Different Zoning Districts

A. Where a nonresidential or multi-family zoning district adjoins property in a residential zoning district (other than a public right-of-way), a six to seven-foot high solid masonry wall shall be constructed on the zone boundary line, subject to the approval of the Director.

B. The Director may waive or modify the requirement for a zone boundary line wall in compliance with Section 27.26.080 (Screening and Buffering) and the height requirement that would allow the wall(s) to be constructed higher than six to seven feet if the viewshed would not be impacted. A heavy wood timber fence may be considered as an acceptable alternative to the solid masonry wall.

C. Where property in an industrial zoning district adjoins property in a nonindustrial zoning district, a solid masonry wall, a minimum of six to seven feet in height, shall be constructed on the zone boundary line.

27.26.060 - Special Wall and Fencing Requirements

Swimming pools/spas and other similar water features shall be fenced in compliance with the Town's adopted Uniform Building Code.
27.26.070 - Security Fencing

This Section provides standards for the installation and maintenance of security fencing which shall be subject to the following criteria and standards.

A. General standards.

1. **Warning sign.** A warning sign shall be posted whenever security fencing is used.

2. **Maintenance.** Security fencing shall be properly maintained at all times by the property owner to ensure the public health, safety, and welfare of the community. The property owner shall repair the security fencing within 24 hours from the time the Town issues the property owner a notice of correction.

3. **Time for compliance for existing fencing.** Security fencing existing on arterial or major collector streets that is not in compliance with the provisions of this Section shall have a period of 12 months from the date of adoption of this Zoning Ordinance to comply with this Section.

4. **Prohibition in residential zones.** Security fencing shall not be used in any residential zoning district.

B. Security fencing in nonresidential zoning districts.

1. **Height.** Security fencing in nonresidential zoning districts shall be a minimum of six feet in height before the installation of the barbed wire, and shall not exceed eight feet in height, including the barbed wire.

2. **Limitation on materials.** Concertina wire, razor wire, or similar products shall be prohibited. Security fencing is allowed with Director approval, where the fence below the barbed wire is at least six feet in height.

3. **Review and approval.** Plans for the use of security fencing shall be approved by the Director, and a Building Permit, as necessary, shall be obtained before installation.

C. **Installation of security fencing in nonresidential zoning districts.** The security portion of fencing shall be installed and maintained at a 45-degree or a 90-degree angle into the property, measured from the vertical axis representing the fence. Fencing shall not extend over adjoining public or private property.
27.26.080 - Screening and Buffering

A. **Purpose and applicability.** This Section establishes standards for the screening, separating, and buffering of adjoining residential and nonresidential land uses, equipment and outdoor storage areas, and surface parking areas.

B. **General guidelines.**

1. Project design should incorporate sound principles of land planning to ensure the highest level of compatibility between adjoining land uses and zoning districts, to minimize the need for screening and buffering.

2. The use of appropriately enhanced setbacks, fencing, landscape plantings, and other opportunities and techniques can assist in softening building forms and minimizing the need for screening and buffering as required by this Section.

C. **Mechanical equipment, loading docks, and refuse areas.**

1. Roof or ground-mounted mechanical equipment (e.g., air conditioning, heating, ventilation, and exhaust ducts, transformers, etc.), loading docks, refuse storage areas, and utility services shall be adequately screened from the view from adjoining public streets and rights-of-way, and surrounding areas zoned for residential or open space uses, by fences, landscaping, walls, or other methods approved by the review authority. The review authority shall consider security and crime prevention measures for ground-mounted mechanical equipment and structures by requiring that the screening material be grates, field fencing, or other forms of screening that allow visibility of the interior area while also providing adequate screening.

2. The method of screening shall be architecturally compatible with other on-site development in terms of colors, materials, and architectural style.

3. Landscaping shall be installed adjacent to the walls, at the discretion of the Director, in compliance with Chapter 27.28 (Landscaping).

D. **Outdoor building and garden supply areas.** Outdoor building and garden supply areas shall be screened with fencing, landscaping, walls, or similar material to minimize visibility of the storage area.
CHAPTER 27.28 - LANDSCAPING

27.28.010 - Purpose of Chapter

The purpose of this Chapter is to protect public health, safety, and welfare by:

A. Preserving and enhancing the positive visual character of the Town, and providing cooling shade, oxygen, and filtering of the Town's air;

B. Enhancing well-designed structures and increasing compatibility between abutting land uses and public rights-of-way by providing landscape screening and buffers; and

C. Provide for the conservation and safeguard of water resources through the efficient use of water, appropriate use of plant materials, and regular maintenance of landscaped areas.

27.28.020 - Applicability

A. Landscaping required. The provisions of this Chapter apply to all proposed development. Additions to structures that are 25 percent or more of the floor area of the existing structure shall require that the entire parcel be brought into compliance with the requirements of this Chapter. In the case of an existing use, if the amount of required landscaping cannot be accommodated because of physical constraints on the site, (e.g., structures, parking, circulation, etc.) the applicant shall provide whatever additional landscaping the site can accommodate towards meeting the landscape requirements of this Chapter.

B. Other requirements. Standards for the provision of landscaping within the public right-of-way are located in Title ___ of the Town Code (Subdivisions).

C. Water-conserving landscape requirements. Water conserving landscape requirements are provided in Council Resolution 103-92.

27.28.030 - Landscape Plan Approval Required

A. Preliminary Landscape Plan. A Preliminary Landscape Plan shall be submitted as part of an application for a land use entitlement, for new development, and the significant expansion or redevelopment of an existing use as determined by the Director.

B. Final Landscape Plan. Following approval of the land use entitlement, a Final Landscape Plan shall be submitted as part of the application for a Building Permit. Final plans shall be approved by the Director prior to the start of on-site construction or soil disturbance and prior to the issuance of a Building Permit.

C. Content. Preliminary Landscape Plans and Final Landscape Plans shall contain information as specified in the instructions for preparing landscape plans provided by the Department.
D. **Review and approval.** After initial application, the Director shall review each Preliminary Landscape Plan and Final Landscape Plan to verify its compliance with the provisions of this Chapter. The Director may approve the submittal in compliance with this Chapter, or may disapprove or require changes to a submittal that is not in compliance.

E. **Statement of surety.** When required by the Director, a statement of surety in the form of cash, performance bond, letter of credit, or certificate of deposit, in an amount equal to 150 percent of the total value of all plant materials, irrigation, installation, and maintenance shall be posted with the Town for a two-year period. The Director may require statements of surety for phased development projects, a legitimate delay in landscape installation due to seasonal requirements (including adverse weather conditions) and similar circumstances where it may not be advisable or desirable to install all of a project's landscaping before occupancy of the site.

F. **Minor changes to approved plans.** Landscape plan approval may include the Director authorizing minor changes from the requirements of this Chapter.

**27.28.040 - Landscape Area Requirements**

Landscaping shall be provided in the locations specified below except for single-family uses.

A. **Setbacks.** All setback and open space areas required by this Zoning Ordinance and easements for utilities, and drainage courses shall be landscaped, except where a required setback is screened from public view or it is determined by the Director that landscaping is not necessary to fulfill the purposes of this Chapter.

B. **Unused areas.** All areas of a project site not intended for a specific use, including pad sites in shopping centers held for future development, shall be landscaped unless it is determined by the Director that landscaping is not necessary to fulfill the purposes of this Chapter.

C. **Parking areas.** Parking areas shall be landscaped in compliance with the following requirements.

1. **Landscape materials.** Landscaping materials shall be provided throughout the parking lot area using a combination of trees, shrubs, and ground cover.

2. **Curbing.** Areas containing plant materials shall be bordered by a concrete curb at least six inches high and six inches wide. Alternative barrier design to protect landscaped areas from damage by vehicles may be approved by the Director.

3. **Location of landscaping.** Parking lot landscaping shall be located so that pedestrians are not required to cross landscaped areas to reach building entrances from parked cars. This should be achieved through proper orientation of the landscaped fingers and islands.
4. **Bumper overhang areas.** To increase the parking lot landscaped area, a maximum of two feet of the parking stall depth may be landscaped with low-growth, hearty materials in lieu of paving, allowing a two-foot bumper overhang while maintaining the required parking dimensions.

5. **Perimeter parking lot landscaping.**

   a. **Adjacent to streets.** Parking areas for nonresidential uses adjoining a public street shall be designed to provide a landscaped planting strip between the street right-of-way and parking area equal in depth to the setback required by the zoning district or 10 feet, whichever is more. Parking areas for residential uses shall maintain the required setback areas for the zoning districts in which they are located.

   The landscaping shall be designed and maintained to screen cars from view from the street to a height of between 30 inches and 42 inches. Screening materials may include a combination of plant materials, earth berms, solid masonry walls, raised planters, or other screening devices which meet the intent of this requirement. Shade trees shall be provided at a minimum rate of one for every 30 linear feet of landscaped area. Plant materials, signs, or structures within a traffic safety sight area of a driveway shall comply with Section 27.20.050.E (Height Limit at Street Corners).

   b. **Adjacent to side or rear property lines.** Parking areas for nonresidential uses shall provide a perimeter landscaped strip at least five feet wide (inside dimension) where the facility adjoins a side or rear property line. The perimeter landscaped strip may include a required yard or buffer area. Trees shall be provided at the rate of one for each 30 linear feet of landscaped area.

   c. **Adjacent to structures.** When parking areas are located adjacent to nonresidential structures, a minimum five-foot wide landscape strip shall be provided adjacent to the structure.

   d. **Adjacent to residential use.** Parking areas for nonresidential uses adjoining residential uses shall provide a landscaped buffer yard with a minimum 10-foot width between the parking area and the common property line bordering the residential use. A solid masonry wall or fence and landscape buffer shall be provided along the property line to address land use compatibility issues such as nuisance noise and light/glare. Trees shall be provided at the rate of one for each 30 linear feet of landscaped area.
6. **Interior parking lot landscaping.**

   a. **Amount of landscaping.**

      (1) Multi-family, commercial, and office uses shall provide landscaping within the parking area at a minimum ratio of 10 percent of the gross area of the parking lot. One shade tree shall be provided for every five parking spaces.

      (2) Industrial/manufacturing uses shall provide landscaping within the parking area at a minimum ratio of six percent of the gross area of the parking lot. One tree shall be provided for every 10 parking spaces.

   b. **Location of landscaping.** Landscaping shall be evenly dispersed throughout the parking area. Use of an orchard-style planting scheme (placement of trees in uniformly-spaced rows) is encouraged for larger parking areas. Parking lots with more than 100 spaces should provide a concentration of landscape elements at primary entrances, including specimen trees, flowering plants, enhanced paving, and project identification.

27.28.050 - Maintenance of Landscape Areas

   A. **Maintenance required.** All landscaped areas shall be maintained in a healthful and sound condition at all times. Irrigation systems and their components shall be maintained in a fully functional manner consistent with the originally approved design and the provisions of this Chapter. Regular maintenance shall include checking, adjusting, and repairing irrigation equipment; resetting automatic controllers; aerating and dethatching turf areas; adding/replenishing mulch, fertilizer, and soil amendments; pruning; and weeding all landscaped areas.

   B. **Water waste prohibited.** Water waste in existing developments resulting from inefficient landscape irrigation leading to excessive runoff, low head drainage, overspray, and other similar conditions where water flows onto adjacent property, nonirrigated areas, walks, roadways, or structures is prohibited.

27.28.060 - Public Education

Developers shall provide information to prospective single-family homebuyers regarding water-efficient landscaping techniques. A sample of the information to be provided shall be submitted to the Director for approval prior to issuance of a Building Permit.
CHAPTER 27.30 - PARKING, LOADING, AND ACCESS

27.30.010 - Purpose of Chapter

This Chapter establishes regulations to ensure that sufficient off-street parking facilities are provided for all uses and that parking facilities are properly designed, attractive, and located to be unobtrusive yet meet the needs of the specific use.

27.30.020 - Applicability

Every use and structure, including a change or expansion of a use or structure shall provide off-street parking and loading areas in compliance with this Chapter. A use shall not be commenced and structures shall not be occupied until improvements required by this Chapter are satisfactorily completed.

27.30.030 - General Parking Regulations

A. Parking and loading spaces to be permanent. Parking and loading spaces shall be permanently available, marked and maintained for parking or loading purposes for the use they are intended to serve. The approval of a Temporary Use Permit may allow the temporary reduction of parking or loading spaces in compliance with 27.42.040 (Temporary Use Permits).

B. Parking and loading to be unrestricted. Owners, lessees, tenants or persons having control of the operation of a premises for which parking or loading spaces are required by this Chapter shall not prevent, prohibit or restrict authorized persons from using these spaces without prior approval of the Director.

C. Vehicles for sale. Vehicles, trailers or other personal property shall not be parked on private property for the purpose of displaying the vehicle, trailer, or other personal property for sale, hire, or rental, unless the property is appropriately zoned, and the person or business at that location is licensed to sell vehicles, trailers, or other personal property. However, one vehicle or trailer owned by the owner, renter, or lessee of the property may be displayed for the purpose of sale.

D. Recreational vehicle parking. The storage (parking for any period longer than 72 hours) of recreational vehicles and boats in residential zoning districts shall be allowed only when all portions of the vehicle or boat are located entirely within the property boundaries and do not extend into the public right-of-way.
27.30.040 - Number of Parking Spaces Required

A. Parking requirements by land use.

1. Each land use shall provide the number of off-street parking spaces required by Table 3-7. Additional spaces may be required/approved through discretionary entitlement approval.

2. Land uses not specifically listed by Table 3-7 shall provide parking as required by the Director. The Director shall use the requirements Table 3-7 as a guide in determining the minimum number of off-street parking spaces to be provided.

B. Expansion of structure, change in use. When a structure is enlarged, or when a change in use requires more off-street parking, additional parking spaces shall be provided in compliance with this Chapter except where the number of additional spaces required is 10 percent or less of the number of existing spaces. See also Chapter 27.50 (Nonconforming Uses, Structures, and Parcels).

C. Multi-tenant sites. A site with multiple tenants shall provide the aggregate number of parking spaces required for each separate use; except where the site is developed as a recognized shopping center, the parking ratio shall be that required for the entire shopping center as provided in Table 3-7. When a multi-tenant shopping center includes uses with parking requirements that are greater than a typical shopping center (e.g., theaters, restaurants) additional parking shall be required unless a parking reduction is approved in compliance with 27.30.050 (Reduction of Parking Requirements).

D. Excessive parking. Off-street parking spaces in excess of the requirements in Table 3-7 may be approved in conjunction with a discretionary entitlement, and when additional landscaping and pedestrian improvements are also provided.

E. Bench or bleacher seating. Where fixed seating is provided in the form of benches or bleachers, a seat shall be construed to be 18 inches of bench space for the purpose of calculating the number of required parking spaces as provided in Table 3-7.

F. Calculations based on gross floor area. When the parking requirements in Table 3-7 are based on structure floor areas in square feet, they shall be based on the gross floor area of the structure.

G. Nonconforming parking. A structure with nonconforming off-street parking may be physically changed or undergo a change in use subject to the following provisions.

1. Residential uses. No additional parking spaces shall be required, provided the change does not increase the number of dwelling units, nor eliminate the only portion of the site that can be used for the required or existing parking or access.
2. **Nonresidential uses.** The number of existing parking spaces shall be maintained on the site and additional parking shall be provided in compliance with Chapter 27.30 (Parking, Loading, and Access) for any additional floor area. If the use of the structure is changed to one that requires more parking than the previous use, the difference between the parking spaces required for the previous use and the new use shall be provided.

3. **Waiver by Director.** The Director may waive covered parking requirements when a nonconforming structure is proposed for rehabilitation if the Director determines that the existing structure location, lot size, or topography renders the requirement unreasonable.

#### 27.30.050 - Reduction of Parking Requirements

A. **Reduction of parking through Minor Use Permit.** The number of parking spaces required by this Chapter may be reduced with Minor Use Permit approval.

B. **Reduction for shared use.** Where two or more nonresidential uses are developed as a shopping or professional center and two or more uses have distinct and differing peak parking usage periods, (e.g. a theater and a bank), a reduction in the required number of parking spaces may be approved by the Director, provided that the most remote space is located within 300 feet of the use it is intended to serve (as measured along the most direct pedestrian path). The amount of reduction may be up to the amount of spaces required for the least intensive of the two or more uses sharing the parking. A shared parking analysis may be required by the Director to support a request for a parking reduction.

C. **Alternative shared-use parking reduction in TC, BC and RC zoning districts.** The following shared-use parking standards are based on the assumption that patrons will use a single parking space for more than one destination and that a single parking space will be available for short-term parking to serve a variety of different uses that may have different peak hours.
1. **Eligible projects.** The following categories of development shall be eligible to use the alternative shared-use parking standards within the TC, BC and RC zoning districts:
   
a. Nonresidential new construction on sites of less than 20,000 square feet in size.
   
b. New construction on sites greater than 20,000 square feet in size for retail commercial, restaurants (excluding fast food and drive-throughs), and theaters.
   
c. Additions to existing structures or changes in use or occupancy. Existing uses shall not reduce current levels of parking as a result of the alternative shared-use parking standards.

2. **Ineligible projects.** The following types of uses are not eligible to use alternative shared-use parking standards:
   
a. Residential uses that are not part of a mixed use project.
   
b. New construction of hotel or office uses on sites greater than 20,000 square feet in size.

3. **Shared-use parking standards.** Once it has been established that parking is required, eligible projects within the TC, BC and RC zoning districts may choose to provide shared parking by using the Alternative Shared-Use Parking Standards in Table 3-8 below. Projects developed under the shared-use parking standards shall enter into an agreement with the Town and recorded with the Office of the County Recorder. The agreement shall require that the parking be operated on a nonexclusive basis, open and available to the general public for shared use at all times.

27.30.060 - **In-lieu Parking Fee for TC Zoning District**

The Council may waive some or all of the parking spaces required for a nonresidential use if an in-lieu fee is approved by the Council and contributed by the developer to a parking district improvement fund. The amount of the fee and the boundary of the parking district shall be established by Council resolution. The reduction in the total number of parking spaces required shall be based on the number of spaces purchased in the public parking facility.
27.30.070 - Disabled/Handicapped Parking Requirements

Parking spaces for the disabled shall be provided in compliance with the Uniform Building Code (UBC). These spaces shall count toward fulfilling the off-street parking requirements of this Chapter.

27.30.080 - Parking Design and Development Standards

Required parking areas shall be designed and constructed as follows.

A. Access to parking.

1. Parking areas shall provide suitable maneuvering area so that vehicles exit to a street in a forward direction. Parking lots shall be provided so as to prevent access at any point other than at designated access drives. Single-family homes and duplexes are exempt from this requirement.

![FIGURE 3.7 QUEUING AREA](image)

2. Industrial uses located on arterial streets, and commercial uses that provide 50 or more parking spaces shall have access driveways that are not intersected by a parking aisle, parking space, or another access driveway for a minimum distance of 50 feet from the street right-of-way, to provide stacking area for vehicles entering and exiting the site. See Figure 3-7.

3. A minimum unobstructed clearance height of 14 feet shall be maintained above areas accessible to vehicles within nonresidential uses.

B. Access to adjacent sites. Applicants for nonresidential development are encouraged to provide shared vehicle access to adjacent nonresidential properties to provide for convenience, safety, and efficient circulation. A joint access agreement running with the land shall be recorded by the owners of the abutting properties, as approved by the Director, guaranteeing the continued availability of the shared access between the properties.
Shared pedestrian access between adjacent properties, including residential developments is also strongly encouraged.

C. **Location.** Parking areas shall be located as follows:

1. Residential parking shall be located on the same parcel as the uses served.

2. Nonresidential parking shall be located on the same parcel as the uses served or within 300 feet of the parcel if shared parking or public parking facilities are used to meet parking requirements.

3. Nonresidential parking shall not be located within a required front yard setback area. Parking may be located within a required side or rear yard setback provided it is separated from the side or rear property line by a minimum five-foot landscaped area.

D. **Parking space and lot dimensions.**

1. **General requirements for residential uses.** Minimum parking dimensions shall be as shown in Table 3-9.

3. **Parallel parking spaces.** Parallel parking spaces shall have minimum width of nine feet and a minimum length of 24 feet. Aisle widths shall be 12 feet for one-way traffic and 27 feet for two-way traffic.
FIGURE 3-8
PARKING LOT DIMENSIONS

30 Degree Angle Parking

45 Degree Angle Parking

60 Degree Angle Parking

90 Degree Parking

Parallel Parking

Note: See section 27.28.040 for parking lot landscape requirements.
4. Compact parking spaces. When 40 or more parking spaces are required, compact car spaces may be provided as follows:

   a. Maximum number of spaces. Up to 30 percent of the parking spaces required for a multi-family residential project may be compact spaces; up to 15 percent of the spaces required for a nonresidential project may be compact spaces;

   b. Dimensions. Compact parking spaces shall have a minimum depth of 16 feet and a minimum width of 8 feet; minimum depth shall be at least 18 feet for parallel spaces. Bumper overhang areas may be provided in compliance with Section 27.28.040.C.4.

   c. Markings. Each compact space shall be clearly marked as a compact space in letters reading "Compact Only."

E. Landscaping. Landscaping shall be provided in compliance with Section 27.28.040.C (Landscape Area Requirements - Parking Areas).

F. Lighting. See Section 27.20.030.D (Light and Glare).

G. Striping and identification.
   1. Vehicular. Parking spaces shall be clearly outlined with four-inch wide lines painted on the surface of the parking facility. Car pool spaces shall be clearly identified for compact vehicle and Car pool use only.

   2. Restriping. The restriping of any parking space or lot shall require the approval of a restriping plan by the Director.

H. Surfacing. Parking spaces and maneuvering areas shall be paved and permanently maintained with asphalt, concrete or other all-weather surfacing approved by the Director.

I. Wheel stops/curbing. Continuous concrete curbing at least six inches high and six inches wide shall be provided for parking spaces located adjacent to fences, walls, property lines, landscaped areas, and structures. Individual wheel stops may be provided in lieu of continuous curbing when the parking is adjacent to a landscaped area, and the drainage is directed to the landscaped area.

   When provided, wheel stops shall be placed to allow for two feet of vehicle overhang area within the dimension of the parking space.

27.30.090 - Driveways and Site Access

Driveways providing site access shall be from an improved street, alley or other public right-of-way, and shall be designed, constructed and maintained as follows.
A. **Number of driveways.** A maximum of two driveways shall be allowed for each multi-family and nonresidential parcel of two acres or less, unless the Director and Town Engineer determine that more than two driveways are required to accommodate the traffic for the specific project. Whenever a property has access to more than one street, access shall be generally limited to the lowest volume street where the impact of a new access will be minimized.

Single-family and duplex residences shall be allowed one driveway. Circular driveways shall be allowed for parcels with 70 feet or more of street frontage.

B. **Distance from street corners.** Driveways shall be located a minimum of 150 feet from the nearest intersection, as measured from the centerline of the driveway to the centerline of the nearest travel lane of the intersecting street. For parcels with frontages less than 150 feet, the minimum distance shall be 100 feet unless a lesser distance is approved by the Town Engineer.

C. **Driveway spacing.** Driveways shall be separated along the street frontage as follows:

1. **Single-family and duplex residential development.** Driveways shall be separated by at least six feet, unless a shared, single driveway is approved by the Director. The six-foot separation does not include the transition or wing sections on each side of the driveway; and

2. **Multi-family and nonresidential development.** Where two or more driveways serve the same or adjacent multi-family or nonresidential development, the centerline of the driveways shall be separated by a minimum of 50 feet. Exceptions to this standard shall be subject to the approval of the Town Engineer.

D. **Driveway width and length**

1. **Single-family uses.**

   a. Driveways are intended only to provide access to required off-street parking spaces in garages.

   b. Driveways that provide access to garages having a setback greater than 24 feet from the street property line shall have a minimum width of 10 feet and a maximum width of 16 feet at the property line.

   c. Driveways that provide access to garages having a setback less than 24 feet from the street property line shall not exceed the width of the garage door opening plus two feet.

   d. When a garage is perpendicular (90 degrees) to the driveway, a minimum 26-foot deep unobstructed back-out area shall be provided.
e. Driveways may be allowed with greater widths than provided above with the approval of a Minor Use Permit in compliance with Section 27.42.050.

2. **Multi-family uses.** Driveways for multi-family uses shall have a minimum paved width of:
   a. 20 feet for six or less; and
   b. 24 feet for seven units or more.

3. **Nonresidential uses.** Driveways for nonresidential uses shall have a minimum paved width of 13 feet for one-way driveways and 27 feet for two-way driveways. The maximum driveway width shall be 30 feet, exclusive of the area provided for a median divider.

E. **Clearance from obstruction.** The nearest edge of a driveway curb cut shall be at least three feet from the nearest property line, the centerline of a fire hydrant, utility pole, traffic signal, light standards, or other similar facilities. Street trees shall be a minimum of 10 feet from the driveway access, measured at the trunk. Driveways shall have an overhead clearance of 14 feet in height except within a parking structure which may be reduced to seven feet, six inches.

F. **Traffic safety visibility area.** Structures or landscaping over 30 inches in height shall not be allowed within a traffic safety visibility area. See Section 27.20.050.E.

G. **Surfacing.** Driveways shall be paved and permanently maintained with asphalt, concrete or other all-weather surfacing approved by the Director.

**27.30.100 - Loading Space Requirements**

A. **Number of loading spaces required.** Nonresidential uses shall provide off-street loading spaces in compliance with Table 3-11, below. Requirements for uses not listed shall be determined by the Director based upon the requirements for comparable uses.
### TABLE 3-11
REQUered LOADING SPACES

<table>
<thead>
<tr>
<th>Type of Land Use</th>
<th>Loading Spaces Required</th>
</tr>
</thead>
<tbody>
<tr>
<td>Commercial uses</td>
<td>1 space for each 10,000 sq. ft. of floor area.</td>
</tr>
<tr>

</tr>
<tr>
<td>Office uses and public uses</td>
<td>1 space for each 25,000 sq. ft. of floor area.</td>
</tr>
</tbody>
</table>

**B. Standards for loading areas.** Off-street loading areas shall be provided as follows.

1. **Dimensions.** Loading spaces shall be a minimum of 12 feet in width, 40 feet in length, with 14 feet of vertical clearance.

2. **Lighting.** Loading areas shall have lighting capable of providing adequate illumination for security and safety. Lighting shall also comply with the provision of Section 27.20.030.D (Light and Glare).

3. **Loading ramps.** Plans for loading ramps or truck wells shall be accompanied by a profile drawing showing the ramp, ramp transitions and overhead clearances.

4. **Location.** Loading spaces shall be located and designed as follows.
   a. As near as possible to the main structure and limited to the rear two-thirds of the parcel, if feasible.
   b. Situated to ensure that the loading facility is screened from adjacent streets to the greatest degree possible.
   c. Situated to ensure that loading and unloading takes place on-site and in no case faces a public street, or is located within a required front yard setback, adjacent public right-of-way, or other on-site traffic circulation areas.
   d. Situated to ensure that vehicular maneuvers occur on-site.
   e. Situated to avoid adverse impacts upon neighboring residential properties and located no closer than 100 feet from the boundary of a residential district unless adequately screened and approved by the Design Review Committee.

5. **Screening.** Loading areas shall be screened from abutting parcels and streets with dense landscaping or solid masonry walls with a minimum height of six feet.
6. **Striping.** Loading areas shall be striped indicating the loading spaces and identifying the spaces for "loading only." The striping shall be permanently maintained by the property owner/tenant in a clear and visible manner at all times.
CHAPTER 27.32 - SIGNS

27.32.010 - Purpose of Chapter

This Chapter establishes sign regulations to:

A. Encourage signage in the commercial, office, and industrial districts that makes these attractive places to work and shop, and that is a positive attribute to the design image of Windsor;

B. Preserve and enhance the aesthetic, traffic safety, and environmental values of the community, and commercial, office, and industrial districts, while at the same time providing channels of communication to the public;

C. Ensure the public's ability to easily identify uses and premises and regulate signage on the basis of the characteristics, location, and proportion of signage;

D. Limit commercial signage to on-site locations to keep the proliferation of this signage to a more aesthetic proportion, and protect existing businesses from visual encroachment from new signage on neighboring properties;

E. Enhance aesthetics and traffic safety in the community by minimizing sign information to ensure that signage does not distract motorists, obstruct, or otherwise impede traffic circulation; and

F. Safeguard and protect the public health, safety, property, and general welfare through appropriate prohibitions, regulations, and controls on the design, location, and maintenance of signs.

27.32.020 - Applicability

The standards of this Chapter apply to signs in all zoning districts. Only the signs authorized by this Chapter shall be allowed.

27.32.030 - General Provisions for All Signs

A. Maintenance of signs. Signs and supporting hardware, including temporary signs, shall be maintained in good repair and functioning properly at all times. Repairs to signs shall be of equal or better in quality of materials and design as the original sign. Signs which are not properly maintained and are dilapidated shall be deemed to be a public nuisance.

When existing signs are removed or replaced, all brackets, poles, and other supports that are no longer required shall be removed. Unpainted areas shall be painted to match the adjacent portion of the building or sign support structure.
B. **Measurement of sign height.** Sign height shall be measured from the upper most part of the sign used in determining the area of the sign to the lowest elevation at the base of the sign.

C. **Measurement of sign area.**

1. The surface area of a sign shall be calculated by enclosing the extreme limits of all writing, logo, representation, emblem, or other display within a single continuous perimeter composed of squares or rectangles with no more than eight lines.

   ![Figure 3-9: Sign Area Measurement](image)

   - **Sign Area = 20.5 sq. Ft.**
   - **Sign Area = 17.5 sq. Ft.**
   - **Sign Area = 32 sq. Ft.**

2. Supporting framework or bracing that is clearly incidental to the display itself shall not be computed as sign area.

3. Signs composed of more than one sign face shall be computed as including only the maximum single display surface that is visible from any ground position at one time.

4. Where a sign consists of one or more three-dimensional objects (i.e., balls, cubes, clusters of objects, sculpture or statue-like trademarks), the sign area shall be measured as their maximum projection upon a vertical plane.

5. For signs that incorporate time and temperature devices, the area of these devices shall not be included in the total area of the sign.

D. **Illumination of signs.** The artificial illumination of signs, either from an internal or external source, shall be designed to eliminate negative impacts on surrounding rights-of-way and properties, and the public in general.

1. External light sources shall be directed and shielded to limit direct illumination of any object other than the sign.

2. The light from an illuminated sign shall not be of an intensity or brightness that will interfere with the reasonable enjoyment of properties in direct visual proximity to the sign.

3. Signs shall not have blinking, flashing, or fluttering lights or other illuminating devices that have a changing light intensity, brightness or color.
4. Colored lights shall not be used at a location or in a manner so as to be confused or construed as traffic control devices.

5. Reflective-type bulbs and incandescent lamps that exceed 15 watts shall not be used on the exterior surface of signs so as to expose the face of the bulb or lamp to a public right-of-way or adjacent property.

E. Signs on public property.

1. No person, except a duly authorized public officer or employee, shall erect, construct or maintain, paste, paint, print, nail, tack or otherwise fasten or affix any card, banner, handbill, campaign sign, poster, sign, advertisement, or notice of any kind, or cause or suffer the same to be done, on any curbstone, lamppost, pole, bench, hydrant, bridge, wall, tree, sidewalk or structure in or upon any public street, alley, public right-of-way, or upon any other public property, except as may be required or permitted by ordinance or law.

2. The Town Manager, or his or her authorized representative, shall cause the removal of any sign or other matter prohibited by Subsection E.1 above. Removal and abatement shall not be subject to any notice requirement, and any notice, appeal or other enforcement provisions of this ordinance shall not apply. The Town Manager, as appropriate, shall make a report of the cost of removal, and the origin of said or other matter, and shall forward a copy of that report to the Town Attorney to initiate recovery of costs.

27.32.040 - Prohibited Signs

A. Basis for prohibition. The signs prohibited by this Section are not allowed because, depending on the specific type of sign, they are:

1. Inconsistent with the purposes and standards of this Chapter; or

2. Inconsistent with the Town's aesthetic objectives for overall community appearance; or

3. Potentially distracting, and thereby hazardous to motorists or pedestrians.

B. Prohibited signs. The following signs are prohibited in all zoning districts.

1. Abandoned and/or dilapidated signs and sign structures.

2. Animals or human beings, live or simulated, designed or used so as to attract attention to the premises.

3. Animated, moving, flashing, blinking (intermittent light), fluctuating, reflecting, revolving, or other similar signs, except time/temperature devices and signs or decorations commemorating a National, State, or local holiday.
4. Bench signs, except at approved bus passenger loading areas.

5. Inflated signs, balloons, and figures, except as otherwise allowed in Section 27.32.060. (rev. Ord 2009-256)

6. Neon signs, except as part of a comprehensive sign program in compliance with Section 27.32.070.

7. Obscene or offensive signs containing statements, words, or pictures of an obscene, indecent or immoral character which appeal to a prurient interest in sex, or which are patently offensive and do not have serious literary, artistic, political, or scientific value.

8. Pole signs, except barber poles.

10. Roof signs mounted on the roof of a structure or extending above the edge or eave of the roof.

11. Signs erected in a manner that a portion of its surface or supports will interfere with the free use of a fire escape, exit, or standpipe or obstruct a required ventilator, door, stairway, or window.

12. Signs not in compliance with the provisions of this Chapter.

13. Signs emitting audible sounds, odors, or visible matter.

14. Signs that may confuse or create hazards for motorists or pedestrians by conflicting with or imitating the color, wording, design, location or illumination of traffic control signs or devices, or that obstruct clear vision or the safe and efficient flow of vehicular or pedestrian traffic.

15. Signs on public property or projecting within the public right-of-way, except as permitted by this Chapter and approved by the Town Manager.

16. Mobile billboards that are carried, conveyed, pulled, or transported by any vehicle or wheeled conveyance to attract attention to business identification, business advertisement, service, or product, in the public right-of-way and/or on property where the business, service, or product is not conducted/provided. Prohibition not intended for buses, taxis, and signs/graphics on vehicles used in the course of business. (Rev. ORD. 2009-256)

17. Signs attached to trees, utility poles, governmental signs, or traffic control devices, including but not limited to, stop signs and street signs.
18. Strings of lights or signs outlined with individual light bulbs except when the bulbs are five watts or less.

19. Temporary signs, either on- or off-site, including banners, streamers, promotional flags, and pennants, except as specifically allowed by Section 27.32.060.

27.32.050 - Approval of Signs

Signs may be approved by the Director through the Building Permit process provided that the proposed sign is consistent with the purpose and provisions of this Chapter.

27.32.060 - Exemptions From Sign Permit Requirements

Sign Permits shall not be required for the signs listed in this Section. Exempt signs shall not be included in the determination of the total allowable number of signs or total allowable sign area for a site or use.

A. Basis for exemption. The signs listed in this Section do not require a sign permit because these signs, subject to the limitations of this Section, have been determined by the Council to be:

1. Minor in nature, and consistent with the Town's aesthetic objectives for signs and overall community appearance; or

2. Essential for the protection of public health or safety; or

3. Of significant value in terms of providing for public convenience.

B. Exempt permanent signs without specific size limitations. The following signs are exempt from Sign Permit requirements subject to the following limitations.

1. Signs within buildings that are not visible from any point on the boundary of the premises.

2. Official and legal notices required by a court or governmental agency.

3. Signs erected and maintained in compliance with a governmental function or required by a law, ordinance or governmental regulation, including signs erected by a public utility.

4. Signs on licensed commercial vehicles, including trailers; provided, however, that vehicles/trailers shall not be used as parked/stationary outdoor display signs.

5. Change of sign copy within an approved Comprehensive Sign Program that conforms to the provisions of the specific Comprehensive Sign Program. (See Section 27.32.070.)
6. Public utility signs that indicate danger, serve as an aide to public safety, or show the location of underground facilities or public telephones.

C. Exempt permanent signs with specific size and height limitations. The following signs are exempt from Sign Permit review subject to the following limitations.

1. Affiliation signs. Affiliation signs for auto-related uses, motels, and hotels that show notices of services provided or required by law, trade affiliations, credit cards accepted, and similar signs, provided they are attached to an otherwise approved sign or structure. These signs or notices shall not exceed one-half square foot in area per sign, and no more than six signs are allowed per business.

2. Flags. Official flags of a nation, the State of California, other states of the Nation and municipalities provided that the pole height shall not exceed 25 feet in residential zoning districts and 35 feet in nonresidential zoning districts. The length of the flag shall not be more than 1/4 of the height of the pole. Larger flags may be approved by the Director.

3. Gas pump signs. Gasoline pump signs required by State law, which identify the brand, types, octane rating, etc., provided the signs do not exceed three square feet and are located on the pump face.

4. Name plates. The following signs are intended to assist emergency response personnel in locating a site.
   a. Residential. Occupant name, street number, and street name signs not exceeding two square feet in area per single-family or multi-family unit. Street addresses shall be Arabic numbers a minimum of three inches in height.
   b. Non-residential. Signs for commercial, office and industrial uses not exceeding two square feet, with copy limited to business identification, hours of operation, address, and emergency information.

5. On-site directional signs. Directional signs solely for guiding traffic, parking and loading on private property, with no advertising. Copy shall be limited to the facility name and address, instructions, and directional arrows. Sign area shall not exceed four square feet in residential zoning districts and six square feet in non-residential districts. The maximum height for freestanding signs shall be six feet unless additional height is be allowed by the Director after determining that the visibility of a lower sign will be impaired.

6. Permanent commemorative signs. Names of structures, commemorative plaques, tables, dates of construction, and the like when carved in stone, concrete, or similar materials or made of bronze, aluminum, or other similar permanent material and mounted permanently on a structure. These signs shall not exceed four square feet in area and five feet in height.
7. **Public information signs.** Signs for public convenience, including signs identifying restrooms, public telephones, walkways and similar features and facilities, with a maximum area of two square feet.

D. **Exempt temporary signs limited by size and/or period of display.** (Revised 09/02/2009, ORD. 2009-256)

1. **Construction signs.** Signs that provide the names of the architects, engineers, and contractors working on the site of a development project subject to compliance with the following limitations.

   a. One sign per street frontage not to exceed 20 square feet with a maximum height of six feet. Maximum size of 32 square feet if combined with a future tenant sign.

   b. Signs shall be removed upon first occupancy of the site.

2. **Inflated figures.** During a community event a business shall be allowed one inflated figure, subject to compliance with the following (rev. Ord 2009-256):

   a. The inflated figure shall not obstruct the accessible path of travel, public right-of-way, or pedestrian walkway.

   b. Guide wire, electrical cords, etc. shall not obstruct/or create a barrier to an accessible path of travel, public right-of-way, or pedestrian walkway

   c. The inflated figure shall be in place only during the event and/or during the hours of operation and shall not be left up overnight.

   d. Figure shall be located at ground level, no roof top mounted figures.

   e. Figure shall not be illuminated.

   f. Figure shall not exceed 10’ in height.

   g. Applicant shall obtain a sign permit, prior to placement of the figure.

3. **Future tenant signs.** Future tenant identification signs that announce the future use of a project while under construction subject to compliance with the following limitations.

   a. One sign per street frontage except where a project has in excess of 500 linear feet of street frontage, one additional sign may be allowed.

   b. Signs shall be limited to a maximum of 32 square feet and six feet in height. Maximum 50 square feet if combined with a construction sign.

   c. Signs shall be removed upon occupancy of the site.

4. **Banners.** Businesses shall be allowed the use of one banner subject to the following (rev. Ord 2009-256):
a. Banners shall be affixed to the exterior wall(s) of the structure within which the business is located, and shall not hang between posts, or from trees, be within the public right-of-way, or be placed on a rooftop.
b. Banner shall not exceed a maximum area of 24 square feet.
c. Banners shall maintain a minimum of 80” clearance above an accessible path of travel or pedestrian walkway.
d. Banners shall be maintained in a clean and presentable manner

5. **Portable signs.** Non-residential uses shall be allowed one temporary portable sign subject to the following (rev. Ord 2009-256):
   a. **Non-Residential Uses:**
      (1) Portable signs shall be located only in front of the business they are intended to serve.
      (2) Portable signs shall have a maximum sign area of six square feet.
      (3) Portable signs shall not exceed four feet in height, including supporting structure.
      (4) Portable signs shall be setback so as not to obstruct an accessible path of travel, public right-of-way, or pedestrian walkway.
      (5) There shall be a minimum 10-foot separation between portable signs.
      (6) Sign copy shall be applied on the sign face against a contrasting-colored background that is compatible with the surroundings.
      (7) Portable signs shall only be displayed during business hours.
   b. **Sites with Comprehensive Sign Programs:** Businesses that are part of a site with a Comprehensive Sign Program may be allowed a specific number of portable signs for the site. Conditions of approval may establish the number, location, size, and separation of portable signs within the multi-tenant site. The provision for banners and/or portable signs in this Ordinance may take precedence over a Comprehensive Sign Program that prohibits banners and/or portable signs, if the property managers choose not to enforce the prohibition. If the Comprehensive Sign Program does not address portable signs then the businesses are subject to the provisions of this Ordinance.

6. **Real estate and recorded subdivision signs.** As required by State law, real estate and recorded subdivision signs are allowed on private property in any zoning district subject to the following limitations.
   a. The signs shall be located entirely within the subject property and shall not be illuminated.
   b. The signs shall be removed within 15 days after the close of escrow, or after rental, or lease of the property has been accomplished. Subdivision signs shall be removed when all units or lots are sold.
   c. The maximum sign area for real estate signs shall be three square feet for lots of less than 10,000 square feet; six square feet for lots of less than 20,000 square
feet; 12 square feet for lots of less than one acre; 18 square feet for lots of less than five acres; 24 square feet for lots of less than 10 acres; and 32 square feet for lots of 20 acres or more.

d. Off-site "open house" real estate signs, used for the purpose of providing directions to open house locations, may be placed on private property with the permission of the property owner. Signs shall not be larger than six square feet in area and four feet in height. No more than two offsite signs may be placed for each open house, and for only the period during the time the property is available for public showing and an agent is present on the site.

e. A recorded subdivision shall be allowed 64 square feet of sign area for temporary use, with additional sign area allowed with the approval of a Minor Use Permit (27.42.050).

E. **Exempt signs located in the public right-of-way.** Signs located in the public right-of-way, not exceeding three square feet in area, providing direction to public facilities (e.g., Town Hall, hospitals, library, police and fire departments, etc.), or to the Chamber of Commerce office and key commercial/industrial areas within the Town, are allowed as approved by the Town Engineer and the Director.

**27.32.070 - Comprehensive Sign Program**

A. **Purpose.** The purpose of a Comprehensive Sign Program is to integrate a project’s signs with the design of the structures to achieve a unified architectural statement. A Comprehensive Sign Program provides a means for the flexible application of sign regulations for multi-tenant projects and other users of multiple signs in order to encourage creativity and provide incentive and latitude in the provision of multiple signs and to achieve, not circumvent, the intent of this Chapter.

B. **Comprehensive Sign Program required.** The Commission may approve a Comprehensive Sign Program which may modify the development standards for signs for an eligible project. Standards for signs provided in this Chapter shall serve as a reference for evaluating Comprehensive Sign Program applications.

A Comprehensive Sign Program shall be required whenever any of the following circumstances exist.

1. New multi-tenant developments of three or more separate tenants that share either the same parcel or structure and use common access and parking facilities.

2. Whenever five or more signs are proposed for a new or existing development.

3. Whenever three or more signs are requested by a single tenant in an existing multi-tenant project that currently is not covered by a Comprehensive Sign Program.
4. Whenever signs are proposed on parcels adjoining U.S. Highway 101 and the signs will be located on elevations of structures facing the highway so that the signs will be visible from the highway. Signs shall comply with the standards for highway-oriented signs located in Subsection 27.32.100.D (Highway oriented signs) unless modifications to the standards are approved by the Commission through a Comprehensive Sign Program.

5. Whenever the Director determines that a Comprehensive Sign Program should be developed for a project due to special circumstances (e.g., the number or size of signs proposed, constrained visibility of the site, location of site relative to major transportation routes, etc.).

C. Contents of Comprehensive Sign Program request. A request for approval of a Comprehensive Sign Program shall clearly detail the type, number, size, and location of each proposed sign. Elevations of each sign shall be provided indicating the proposed text, letter size, colors, materials, use of logos, method of illumination, and method of attachment to the structure.

D. Lessees to be informed of Comprehensive Sign Program. Lessees within developments subject to the requirements of an approved Comprehensive Sign Program shall be made aware of the program in their lease and their responsibility to follow the approved Comprehensive Sign Program.

E. Revisions to Comprehensive Sign Programs. Revisions to a Comprehensive Sign Program may be approved by the Director if the Director determines that the revision is minor and that the intent of the original approval and any conditions are not affected. Revisions that would substantially deviate from the original approval shall require Commission approval.

27.32.080 - Temporary Off-Site Signs (Revised 09/02/2009, ORD. 2009-256)

A. Temporary Signs. Temporary signs are subject to the following standards.

1. Each permittee shall pay the fee required by the Town for a Sign Permit prior to the placement of any temporary sign.

2. In residential districts, no more than 32 square feet of total signage area is permitted, counting only a single-side of any two-sided sign toward the signage area. Sign height shall not exceed four feet above the ground.

3. In all other zoning districts, no more than 64 square feet of total signage area is permitted, counting only a single-side of any two-sided sign toward the signage area. No sign shall exceed six feet in height above the ground.

4. No sign shall be erected more than 45 days.
5. No sign shall be displayed without the consent of the legal owner of the property and/or person holding present right to possess and control property (“owner”). Each permittee, shall obtain permission from the “owner”, prior to placing a sign on the property. The permittee may, upon request, be required to provide the Town with a copy of written permission from the “owner”. In the event a permittee is unable to provide written permission to post signs, the signs shall be immediately removed or the Town may impose a penalty on the permittee sufficient to cover the costs of removal.

6. The maintenance and removal of the signs are the responsibility of the permittee. All signs shall be removed entirely within the allotted time on the permit. In the event that all signs are not properly removed within the allotted time, the Town may impose a penalty on the permittee sufficient to cover the costs of removal.

7. No portion of a sign shall be located within five feet of road, street, or common driveway and no sign may obstruct vision on the public rights-of-way or at any other location where, by reason of the sign’s position, shape or color it interferes or may be confused with any authorized traffic sign, signal or device. Signs erected on public property and/or in the public right-of-way, may be abated by the Town without notice.

8. Signs shall not be erected above the height limitations of Section 9, on/or attached to a pole, or suspended without support from the ground (i.e. from a crane, or similar device). With the exception of magnetic signs attached to the doors, no signs shall be mounted on a vehicle or similar object.

9. The height of a sign shall be measured from the existing grade to the top of the sign and shall not exceed 4’ in height in a residential zone nor 6’ in height in a non-residential zone.

10. If the Town Manager determines that any sign has been posted in violation of these conditions, but not in such a manner that poses an immediate safety hazard, the Town Manager will notify the permittee by phone and in writing of the violation. The permittee will then have two working days to correct the violation. Any major violation, as determined by the Town Manager, to the provisions herein shall result in the immediate and summary abatement by the Town. The permittee shall be liable to the Town for any and all removal and abatement costs.

11. The permit shall be subject to revocation upon failure to comply with the above conditions.

B. Community event signs. Community event signs shall be allowed on public and/or private property as approved by the Town Manager, and may be subject to administrative design review. Signs may be posted two weeks prior to the activity and shall be removed within two days after the event.
27.32.090 - Off-Site Outdoor Advertising Signs

Off-site outdoor advertising signs (billboards) shall be prohibited within the Town, except that existing outdoor advertising signs may be maintained in compliance with State law.

27.32.100 - Standards for Specific Types of Signs

A. **Arcade and marquee signs.** Arcade and marquee signs shall:
   1. Be mounted only on the front or sides of a marquee, or suspended below a marquee or arcade;
   2. Not project more than six inches from the face of a marquee;
   3. Not extend above the top of a marquee; and
   4. Shall be installed so that a clear distance of eight feet is maintained from the lowest part of a suspended or cantilevered sign to the ground below.

B. **Awning signs.**
   1. Signs on awnings shall only be located on building frontages, including those fronting a parking lot or pedestrian way.
   2. Signs on awnings are limited to ground level occupancies only.
   3. Awnings shall not be internally illuminated. Lighting directed downwards that does not illuminate the awning is allowed.

C. **Community identification signs.** One community identification monument sign is allowed at or within the Town boundary on each arterial street. The maximum allowed sign area is 100 square feet; the maximum height is 12 feet. The signs may include the Town name, slogans or mottos, information on community events, or the names of civic or other local organizations, but no names of businesses or commercial products.

D. **Freestanding monument signs.**
   1. Signs are allowed only for frontages adjoining a public street.
   2. Signs shall not be located closer than five feet from any property line unless otherwise provided in Section 27.32.110 (Sign Standards by Zoning District). Signs shall not obstruct traffic safety sight areas.
   3. There shall be a minimum of 75 feet between two freestanding signs on adjoining sites to ensure adequate visibility for all signs. The Director may waive this requirement in
situations where its enactment would be impractical due to the locations of existing signs on adjacent properties.

4. Landscaping shall be provided at the base of the supporting structure equal to twice the area of one face of the sign. For example, 30 sq. ft. of sign area = 60 sq. ft. of landscaped area.

5. Signs shall contain a number address plate identifying the project or use by specific street address to assist emergency response personnel in locating the site. The address plate shall not exceed four square feet of sign face area. Numbers shall be a minimum of three inches in height and shall be clearly visible from the adjacent street. Address plates shall not be calculated against the permitted sign face area.

E. **Highway-oriented signs.** Freestanding signs and wall signs that are located on parcels adjoining U.S. Highway 101, and are oriented toward and visible from the highway shall comply with the following standards, and shall require the approval of a Comprehensive Sign Program.

1. **Highway-oriented wall signs.** Highway-oriented wall signs shall comply with the following requirements, and those in Subsection E. below.
   a. Maximum sign area shall not exceed one square foot for each linear foot of the building elevation on which the sign is placed. No sign shall exceed 100 square feet in area, and the length of the sign shall not exceed 50 percent of the length of the building elevation on which it is placed.
   b. More than one sign per elevation for a single-tenant building, or more than one sign per portion of a building elevation occupied by an individual tenant in a multiple-tenant building may be allowed as long as all signs do not exceed the maximum sign area allowed for the use.
   c. Individual letter height shall not exceed 18 inches. Logos shall not exceed a height of 24 inches.
   d. The signs shall be an integral part of the building design.
   e. Internal illumination shall be allowed; however, exterior neon signs are not allowed.

2. **Highway-oriented freestanding signs.**
   a. Maximum sign area shall not exceed 50 square feet.
   b. One sign per parcel or per center, including centers with multiple parcels, shall be allowed.
c. Maximum sign height shall be 20 feet. The Commission may approve greater sign heights due to special site conditions (e.g. lower site elevation than the highway/freeway). However, the Town encourages signs that are kept as low as possible while still maintaining reasonable visibility from the highway.

d. A minimum separation of 100 feet shall be required between all highway-oriented freestanding signs.

e. Signs may be internally illuminated.

f. Joint use of signs is encouraged for businesses located on adjacent parcels. To accommodate shared use of signs and reduce the overall number of freestanding signs along the highway, the Commission may approve signs up to a maximum of 60 square feet in area for two businesses sharing the sign, and up to 75 square feet in area for three or more businesses sharing the sign.

F. Wall signs. Wall signs shall:

1. Be located only on building frontages unless specifically approved through a Comprehensive Sign Program (27.32.070);

2. Not project from the surface upon which they are attached more than required for construction purposes and in no case more than 12 inches;

3. Not project above the edge of the roof of a structure; and

4. Not be placed to obstruct any portion of a window.

G. Window signs. Window signs shall:

1. Be permanently painted or mounted on the inside of windows and doors; and

2. Not occupy more than 25 percent of the area of any one window including permanent and temporary signs. Holiday and seasonal signs are exempt from this requirement.

H. Vending machines. Vending machines located outdoors and visible from a public street shall have the area of all visible sides containing advertising copy or product names counted as part of the maximum sign area allowed on the site by this Chapter.

27.32.110 - Sign Standards by Zoning District

A. Sign standards. The sign standards provided in this Section are intended to apply to signs in all zoning districts. Only signs authorized by this Section shall be allowed unless otherwise expressly provided in this Chapter. Standards for signs that are exempt from Sign Permits are provided in 27.32.060 (Exemptions from Sign Permits).
B. **Adjustments to sign standards.** Adjustments to sign standards may be allowed through Use Permit approval (Section 27.42.050).

27.32.120 - Judicial Review

The judicial review of any permit issued or denied in compliance with this Chapter shall be subject to expedited judicial review in accordance with the time limits set forth in Code of Civil Procedure Sections 1094.8 et seq.
CHAPTER 27.34 - STANDARDS FOR SPECIFIC LAND USES

27.34.010 - Purpose of Chapter

This Chapter provides site planning and development standards for land uses that are allowed by Article 2 (Zoning Districts and Allowable Land Uses) in individual or multiple zoning districts, and for activities that require special standards to ensure their compatibility with adjacent land uses and avoid problems for the community.

27.34.020 - Applicability

The provisions of each of the following Sections apply to the use identified in the Section title, as allowed in the applicable zoning district by Article 2 (Zoning Districts and Allowable Land Uses).

27.34.030 - Adult Business Establishments

A. **Purpose.** The intent of this Section is to prevent community-wide economic impacts, increased crime, decreased property values, and the deterioration of neighborhoods, which can be brought about by the concentration of adult business establishments in close proximity to incompatible uses such as schools for minors, churches, and residentially zoned districts or uses. The Council finds that it has been demonstrated in various communities that adult business establishments can cause an increase in the number of transients in the area, and an increase in crime and in addition to the effects described above can cause other businesses and residents to move elsewhere. It is, therefore, the purpose of this Section to establish reasonable and uniform regulations to prevent the close proximity of adult business establishments to incompatible uses, while permitting the location of adult business establishments in certain areas.

B. **Applicability.** Adult business establishments are allowed in compliance with Article 2 (Zoning Districts, Allowable Land Uses, and Zone-Specific Standards) and the following Standards.

C. **Separation requirements.** An adult business establishment shall not be established within 300 feet of another similar establishment or within 500 feet of any of the following:

1. Property classified in any residential zoning district;
2. Residential use;
3. Church, chapel, or similar place of worship;
4. Retirement or convalescent home or hospital;
5. School or day care establishment, or public or private park or playground;
6. Recreational facility, (e.g., game arcade, bowling alley, skateboard rink, skating rink), or similar area where minors regularly congregate; Town Hall, Town offices, libraries or other governmental facilities.

D. **Measurement of distances.** Distances shall be measured in a straight line, without regard for intervening structures, from the nearest property line for which the adult business is proposed to be located to the nearest property line of a use or district listed above.

E. **Development standards.**

1. **Screening.** New or existing structures intended to accommodate adult business establishments shall be designed so that windows and entries are oriented to prevent the interior of the premises from being visible to the public; however, screening or barriers to windows and entries are not allowed, so as to facilitate crime prevention by law enforcement agencies.

2. **Signs, advertisements, and displays.** Signs, advertisements, displays or other promotional materials depicting or describing "specified anatomical areas" or "specified sexual activities" or displaying instruments, devices, or paraphernalia that are designed for use in connection with "specified sexual activities" shall not be shown or exhibited so as to be visible from areas open to the general public.

3. **Facilities for live entertainment.** The following standards shall apply to adult business establishments that provide live entertainment depicting "specified anatomical areas" or involving "specified sexual activities":

   a. There shall be no live entertainment performances, for patrons of an adult business establishment, except upon a stage at least 18 inches above the level of the floor which is separated by a distance of at least six feet from the nearest area occupied by patrons. Patrons shall not be allowed within six feet of the stage while the stage is occupied by an entertainer/performer;

   b. The adult business establishment shall provide separate dressing room facilities and entrances/exits to the premises which are exclusively dedicated to the entertainers' use; and

   c. The adult business establishment shall provide permanent access for entertainers between the stage and the dressing room facilities which is completely separated from the patrons and prevents any physical contact between the entertainers and patrons.
4. **Arcade viewing area.**

   a. It is unlawful to maintain, operate, or manage or permit to be maintained, operated, or managed any adult arcade in which the viewing areas are not visible from a continuous main aisle or are obscured by a curtain, door, wall, or other enclosure. For purposes of this Subsection, "viewing area" means the area where a patron or customer would ordinarily be positioned while viewing a film, performance, picture, or show.

   b. It is unlawful for more than one person at a time to occupy any individually partitioned viewing area or booth.

   c. It is unlawful to create, maintain, or permit to be maintained any holes or other openings between any two booths or individual viewing areas for the purpose of providing viewing or physical access between the booth or individual viewing area.

F. **Operational requirements.**

   1. **Employees required.** It shall be the duty of the owners to ensure that at least one employee in addition to any performers is on duty at all times when any patron is present inside the premises.

   2. **Hours of operation.** The adult business establishment shall not operate or be open between the hours of 2:00 a.m. and 7:00 a.m.

   3. **Security program.** A security program shall be prepared and submitted for the approval of the Chief of Police. The security program shall be subject to change based on problem activity as identified by the Police Chief.

G. **Judicial review.** The judicial review of any permit issued or denied in compliance with this Section shall be subject to expedited judicial review in accordance with the time limits set forth in Code of Civil Procedure Sections 1094.8 et seq.
27.34.040 - Animal Keeping

The provisions of this Section are intended to minimize potential adverse effects on adjoining property, the neighborhood and persons in the vicinity from the improper management of animals. Potential adverse effects include but are not limited to the propagation of flies and other disease vectors, dust, noise, offensive odors, soil erosion and sedimentation.

A. Nonconforming uses. Any legally established noncommercial animal keeping use that became nonconforming upon adoption of this Zoning Ordinance may continue in compliance with Chapter 27.50 (Nonconforming Uses, Structures, and Parcels).

B. Site and animal density requirements. All animal keeping shall comply with the following standards.

<table>
<thead>
<tr>
<th>Type of Animal or Facility</th>
<th>Maximum Number of Animals per Site (1)</th>
<th>Minimum Lot Area (2)</th>
<th>Minimum Setbacks (3)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chinchillas, guinea pigs, hamsters, rabbits, rodents, and similar small animals, not raised for commercial purposes</td>
<td>5 or less</td>
<td>None</td>
<td>10 feet</td>
</tr>
<tr>
<td>Horses, cows, goats, sheep, llamas, and other hoofed animals</td>
<td>1 animal for the first 2 acres and 1 additional for each additional acre, to a maximum of 4</td>
<td>2 acres</td>
<td>40 feet</td>
</tr>
<tr>
<td>Household pets (including birds, cats, dogs, and other non-poisonous and non-carnivorous small animals)</td>
<td>4 of each species, not to exceed an aggregate total of 8 animals</td>
<td>None</td>
<td>None</td>
</tr>
<tr>
<td>Poultry, fowl (not including roosters, ducks, geese, guinea fowl, or peafowl, which are not allowed)</td>
<td>5 or less</td>
<td>None</td>
<td>25 feet</td>
</tr>
<tr>
<td>Swine</td>
<td>Not allowed</td>
<td>N.A.</td>
<td>N.A.</td>
</tr>
</tbody>
</table>

Notes:
(1) Offspring are allowed in addition to the maximum number until weaned. The keeping of multiple species (for example, horses and poultry) is allowed, provided that the total number shall not exceed four large animals (horses, cows, goats, etc.), and 10 small animals (rabbits, poultry, etc).
(2) Minimum lot area required for the keeping of animals.
(3) Minimum setbacks from all property lines for areas and structures where animals are kept. Animals shall not be kept in a required front yard setback.

C. Maintenance and operational standards.

1. Odor and vector control. All animal enclosures, pens, coops, cages and feed areas shall be maintained free from litter, garbage and the accumulation of manure, to
discourage the proliferation of flies, other disease vectors and offensive odors. Sites shall be maintained in a neat and sanitary manner.

2. **Erosion and sedimentation control.** In no case shall animal keeping be managed or maintained so as to produce sedimentation on any public road, adjoining property, or in any drainage channel. If sedimentation occurs, the keeping of animals outdoors on the site shall be deemed a nuisance and may be subject to abatement in compliance with Chapter 27.56 (Enforcement).

3. **Waterway protection.** The keeping of horses or cattle within 50 feet of any waterway shall first require Director approval of a good housekeeping plan to protect the waterway from the polluting effects of runoff from the animal keeping area.

D. **Animal husbandry project exception.** The keeping or raising of a calf, horse, goat, sheep, hog, chickens, rabbits, birds or other animals as a 4-H or Future Farmers of America (FFA) project is not subject to the requirements of this Section, provided that:

1. A minimum of one acre of site area shall be required for each large animal and swine;

2. The project animals shall be confined in a pen or fenced area that is located no closer than 25 feet to any residence other than that on the project site;

3. Hogs shall not be located closer than 100 feet from any dwelling other than those on the project site;

4. The number of animals complies with the limitations in Subsection B.; and

5. The animal keeping shall comply with the maintenance and operational standards in Subsection C.

**27.34.050 - Automated Teller Machines (ATMs)**

Automated teller machines shall be located and operated as follows.

A. **ATMs may be attached to a structure or be freestanding.** Whenever ATMs are provided on the exterior of a structure, they shall be located on that portion of the structure most visible from a public right-of-way.

B. **Vehicle drive-up aisles for ATMs shall comply with the requirements of 27.34.080 (Drive-in and Drive-through Facilities); and**

C. **Security lighting shall be provided at each ATM equivalent to three-foot candles at the pavement surface adjacent to the machine. The light source shall be shielded so that glare and reflections are confined within the boundaries of the site.**
27.34.060 - Bed and Breakfast Inns (B&Bs)

A. Exterior appearance. The exterior appearance of the structure housing the B&B in a residential zoning district shall not be altered from its original residential character except for allowed signs and any structural modifications necessary to comply with Title 24 of the California Code of Regulations.

B. Limitation on guest rooms. The B&B shall be limited to five guest rooms.

C. Limitation on services provided. Service shall be limited to the rental of bedrooms or suites; and meal/beverage service shall be provided for registered guests only. Separate/additional kitchens for guests are not allowed. A B&B within a residential zoning district shall not be used for receptions, private parties, or similar activities.

D. Off-street parking. Off-street parking shall be provided at a ratio of one space for each guest room, plus two covered spaces for the on-site owner/manager of the B&B. Parking shall not be located in the required front and side yard setback.

E. On-site management. A manager shall be present on the site at all times.

F. Signs. See Section 27.32.110.C (Table 3-12).

27.34.070 - Child Day Care Facilities

A. Applicability. Commercial child day care facilities shall comply with the following standards. These standards apply in addition to the other provisions of this Zoning Code and requirements imposed by the California Department of Social Services. Licensing by the Department of Social Services is required for all facilities.

B. Standards for large family day care homes.

1. In order to avoid the concentration of intensive, non-residential land uses in residential neighborhoods, maintain residential character, and compatibility with adjacent residential uses, no large family day care home shall be located within 500 feet of an existing small family day care home, large family day care home, or child day care center. In no case shall a residential property be directly abutted by a large family day care center on two or more sides.

2. The driveway may be used to provide required off-street parking, if the parking will not obstruct any required drop-off and pick up areas nor block any sidewalks or other public access. At least two off-street parking spaces shall be provided exclusively for dropping off and picking up children.

3. Homes located on arterial streets shall provide a drop-off/pick-up area designed to prevent vehicles from backing onto the arterial (e.g. circular driveway).
4. Large family day care homes shall arrange staggered times for clients to drop-off and pick-up children.

5. Any side or rear yard areas intended for day care use shall be surrounded by a barrier to separate the children from neighboring properties. Examples of barriers include wood or chain link fences, walls, etc.

6. Outdoor recreation equipment over eight feet in height shall be set back a minimum of five feet from perimeter property lines.

7. Noise generated from the large family day care home shall not exceed the standards in Section 27.20.030.F (Noise).

8. Large family day care homes shall comply with applicable building and fire codes, and standards adopted by the State, and Social Services Department licensing requirements (California Code of Regulations, Title 22, Division 2).

C. Standards for child day care centers.

1. A six-foot-high solid decorative fence or wall shall be constructed on all property lines, except in the front yard or within a traffic safety visibility area (Section 27.20.050.D). Fences or walls shall provide for safety with controlled points of entry. Fences and walls shall be provided in combination with landscape materials to help mitigate the appearance of long, flat walls.

2. The minimum parcel size for a child day care center shall be 10,000 square feet.

3. Off-street parking shall be a minimum of one space per employee on the largest shift. (Rev 8/1/01 Ord 2001-148)

4. Picking up and dropping off of children shall not create unsafe conditions. Loading and unloading of children from vehicles shall only be allowed in the driveway or in an approved parking area.

5. Potential noise sources shall be identified during the Use Permit process, and noise attenuation and sound dampening shall be addressed.

6. The minimum separation between the main assembly building of the center and a residential zoning district shall be 30 feet.

7. The facility shall be provided with both indoor and outdoor play areas in compliance with State requirements.
27.34.080 - Drive-In and Drive-Through Facilities

A. **General standards.** Drive-in and drive-through facilities shall be designed and operated to mitigate problems of congestion, excessive pavement, litter, and noise.

B. **On-site circulation standards.** Parcels with drive-through facilities shall be provided with internal circulation and traffic control devices as follows.

1. **Aisle design.**
   
a. The entrance/exit of any drive-through aisle shall be at least 50 feet from an intersection of public rights-of-way (measured at the closest intersecting curbs) and at least 25 feet from the edge of any driveway on an adjoining parcel.

b. Drive-through aisles shall be designed with a minimum 10-foot interior radius at curves and a minimum 10-foot width.
   
   *(Revised 08/1/01, ORD. 2001-148)*

2. **Stacking area.** A clearly identified area shall be provided for vehicles waiting for drive-through service that is physically separated from other on-site traffic circulation.

   a. The stacking area shall accommodate a minimum of five cars for each drive-through window in addition to the vehicle(s) receiving service.

   b. The stacking area shall be located at and before the menu board, teller window, etc.

   c. Separation of the stacking area from other traffic shall be by concrete curbing or paint striping on at least one side of the lane.

   d. Stacking areas parallel to streets or public rights-of-way shall be discouraged.

3. **Walkways.** Pedestrian walkways should not intersect the drive-through aisles, but where they do, they shall have clear visibility and shall be emphasized by enhanced paving.

C. **Screening.** An opaque screen consisting of plant material and a solid masonry wall, a minimum of six feet in height, shall be constructed on each property line that is adjoining a residentially zoned/occupied parcel. The design of the wall and the proposed construction materials shall be subject to the approval of the Director.

D. **Signs.**

   1. **Directional signs.** Each entrance to, and exit from, any drive aisle shall be clearly marked to show the direction of traffic flow by signs and pavement markings or raised curbs.

   2. **Menu boards.** Menu boards shall not exceed 24 square feet in area, with a maximum height of six feet, and shall face away from public rights-of-way. Outdoor speakers shall be located at least 50 feet from any residentially zoned/occupied parcel.
27.34.090 - Guest House/Pool House

A. **Intended use.** A guest house is intended to provide temporary living quarters within a detached residential accessory structure, located on the same premises with the main dwelling, for short-term, temporary use by guests of the occupants of the premises.

A pool house is intended to provide changing and restroom facilities within a detached residential accessory structure, located on the same premise with the main dwelling and in conjunction with a swimming pool, spa, hot tub, or other similar facilities on site. Regulations for accessory dwelling units are provided by Section 27.34.180. Guesthouses and pool houses shall not be rented or otherwise used as separate dwelling units.

B. **Deed restriction.** A deed restriction shall be filed with the County Recorder prior to issuance of a building permit, which restricts the use of the guest house/pool house for temporary accommodation only and limits the improvements to those allowed by this Zoning Code.

C. **Development and use standards.**

1. Only one guesthouse or pool house is allowed on a single parcel. Both structures may be allowed on a single parcel with Use Permit approval, in compliance with Section 27.42.050.

2. The total site coverage including a guesthouse, the main dwelling and other accessory structures, shall not exceed the maximum allowable site coverage for the applicable zoning district.

3. A guesthouse/pool house shall not exceed 840 square feet. Square footage is measured from the exterior walls at the building envelope, excluding any garage area or unenclosed covered porch areas. All floor area within the building envelope shall be identified and square footage for each area provided. For the purposes of measurement all attached and/or interior storage areas, mezzanines, lofts, attics (except those less than 7’ in height accessed by a crawlspace and/or other code compliant access), and similar uses shall be counted in the total square footage.

4. The architecture of the guesthouse/pool house shall be consistent and compatible with the main dwelling.

5. A guesthouse/pool house shall not contain kitchen/and or cooking facilities. A wet bar is permitted, with a maximum sink size of 12”x12”, unless otherwise approved by the Building Official and/or Planning Director.

6. The height of a guest house/pool house shall not exceed 15 feet, except where a greater height is authorized through Minor Use Permit approval.

(Rev. 04/18/07, ORD. 2007-214, Rev. 04/09/18, ORD. 2017-319)
27.34.100 - Home Occupations

A. Permit requirement. A Zoning Clearance shall be obtained in compliance with Section 27.42.020 (Zoning Clearances) to establish a home occupation. The applicant shall sign a statement certifying agreement and compliance with the operating standards identified in Subsection B., below before issuance of the Zoning Clearance.

B. Operating standards.

1. The home occupation shall be clearly secondary to the full-time use of the structure as a dwelling, and shall not be conducted within a garage or accessory structure. Garage areas converted to habitable space with the appropriate permits may be used.  
   (Revised 08/1/01, ORD. 2001-148)

2. The use shall not require any modification not customarily found in a dwelling, nor shall the home occupation activity be visible from any adjoining public rights-of-way or from neighboring parcels.

3. The use shall not display advertising signs, merchandise or stock in trade, other than a single-family residential name plate in compliance with Section 27.32.110.A (Signs Permitted in Residential Zoning Districts).

4. The use shall be confined to not more than 25 percent of the floor area of the main dwelling nor more than 400 square feet of floor area, whichever is greater. Home occupation activities and storage shall not occur out-of-doors or within a required parking area.

5. Only one vehicle with a capacity not exceeding one ton may be used by the resident directly or indirectly in connection with a home occupation.  
   (Rev 8/1/01 Ord 2001-148)

6. Activities conducted and equipment or material used shall not change the fire safety or occupancy classifications of the premises. The use shall not employ the storage of pesticides or explosive, flammable, or hazardous materials.

7. The use shall not create dust, electrical interference, fumes, gas, glare, light, noise, odor, smoke, toxic/hazardous materials, vibration, or other hazards or nuisances.

8. The home occupation shall be limited to eight customers and two deliveries each day.

9. The use shall not employ any persons not residing on the premises.  
   (Revised 08/1/01, ORD. 2001-148)

C. Home occupations requiring Minor Use Permit approval. The following are activities that may not comply with the operating standards in Subsection B. above, but may be allowed with Minor Use Permit approval, in compliance with Section 27.42.050.
1. A use exceeding 400 square feet or 25 percent of the floor area of the main dwelling, whichever is greater. In no case shall the use, including storage areas and accessory structures, exceed either 1,000 square feet or 40 percent of the floor area of the main dwelling.

2. A use employing no more than one person living off-site and working at the dwelling.

3. Uses that entail food handling, processing, or packing.

4. Hand woodworking or machine work.

5. More than one home occupation in a single dwelling unit.

6. Uses generating up to two customer visits at a time or more than two deliveries each day. In no case shall customer or delivery traffic exceed more than 10 trips each day.

27.34.110 - Mixed-Use Development

A. **Maximum density.** When residential dwelling units are combined with office or retail commercial uses in a single building or on the same parcel, the maximum density shall be 16 dwelling units per acre, and up to 32 units per acre in the Shiloh Road Village Vision Plan area, plus any density bonus units approved in compliance with Chapter 27.22 (Affordable Housing Requirements and Incentives). (Revised 08/3/05, ORD. 2005-192)

B. **Location of units.** Residential units shall be located only on second or higher floors. Accessible residential units (as defined by the Town’s adopted Building Code) that comply with ADA requirements may be located on the ground floor. (Revised 03/03/04, ORD. 2004-178)

C. **Access and parking.** The number of parking spaces shall comply with the requirements of Chapter 27.30 (Parking, Loading, and Access). Residential parking and commercial parking may be located in the same location/facility.

D. **Loading and refuse areas.** Commercial loading areas and refuse storage facilities shall be located away from residential units and shall be completely screened from view from the residential portion of the project. Where appropriate, the Director may allow the shared use of refuse storage facilities.

E. **Lighting.** Lighting for the commercial uses shall be appropriately shielded so as not to spill over into other residential area or impact the residential units in any way.

F. **Sound mitigation.** All residential units shall be designed to be sound attenuated against present and future project noise. New projects, additions to existing projects, or new nonresidential uses in existing projects shall provide an acoustical analysis report, by an acoustical engineer, describing the acoustical design features of the structure required to satisfy the exterior and interior noise standards.
G. **Joint owners' association.** A joint owner's association shall be formed where there is more than one property owner and shared interest in maintaining common facilities related to lighting, signage, landscaping, shared parking, etc. The association shall be formed of equal voting rights according to type of use (i.e., residential, commercial, office). The association bylaws shall be subject to review by the City Attorney and approval by the Director.

H. **Design considerations.** The design of mixed-use projects shall demonstrate compatibility between the different uses. In order to properly mix residential and nonresidential uses on the same site, potential noise, odors, glare, pedestrian traffic, or other significant impacts shall be reduced to a level of insignificance. Also, the design of the mixed use project shall take into consideration potential impacts on adjacent properties and shall include specific design features to properly mitigate any potential impacts.

The design of a mixed-use project shall ensure that the residential units are of a residential character. The design of the project shall ensure that privacy between residential units and between other uses on the site are maximized.

27.34.120 - Mobile Home Parks

A. **Design and development standards.**

1. **Minimum area and density.** Proposed mobile home parks shall comply with the following requirements:

   a. **Minimum site area for park:** Four acres.

   b. **Minimum lot area:** 2,400 square feet for each mobile home site.

   c. **Density:** Maximum allowable density shall be determined by Use Permit approval.

2. **Setbacks.** Minimum setbacks between mobile homes and other structures shall be 10 feet on all sides, including front and rear, except for any side or rear abutting the project property line, in which case the minimum setback shall be 15 feet. When an awning, cabana, porch, or similar structure is attached to a mobile home, the minimum setback between these types of elements and other structures shall be six feet.

3. **Site coverage.** The maximum coverage allowed in the mobile home park shall comply with the requirements of the applicable zoning district.

4. **Parking.** On-site parking improvements shall comply with Chapter 27.30 (Parking, Loading, and Access) and the following:

5. **Recreation space.** Each mobile home park shall contain a minimum of 300 square feet of recreation space for each mobile home site. In family parks, an additional 300 square feet per site shall be added. In no case shall the total recreation space be
less than 6,000 square feet in area and each single recreation area shall be a minimum of 3,000 square feet in area.

6. **Access and roadway standards.** Park access shall be designed and constructed as follows:

   a. All streets shall comply with the Town's standards for local residential streets.

   b. No access driveway shall be located closer than 100 feet to any intersection.

   c. All cul-de-sac streets shall have a minimum outside turning radius of 40 feet.

   d. All corners shall have minimum 15-foot radii.

   e. Curbs, gutters, and sidewalks shall be installed on both sides of all streets.

   f. All streets shall be adequately lighted in compliance with the Town's standards for roadway lighting.

   g. Each site shall front on an access street.

   h. Stop signs shall be provided at all intersections with all public streets.

7. **Signs.** One nonilluminated or indirectly illuminated sign shall be allowed at each entrance to the park. The sign may be either wall mounted or freestanding monument-type. Signs shall not exceed 32 square feet in area. Freestanding signs shall not exceed a height of six feet.

8. **Landscaping.** All open areas shall be landscaped and continuously maintained. At least 60 percent of all open areas shall be landscaped with live materials. Landscaping shall include planting of trees along perimeter boundaries adjacent to adjoining properties. Trees shall be of a minimum 15-gallon size with a minimum of one tree for each mobile home site. Additional and more mature trees may be required through Use Permit approval.

9. **Accessory uses allowed.** A mobile home park may contain accessory uses that are primarily for the convenience of the residents of the park. Any structure used for an accessory use shall meet all requirements for a main structure and shall be architecturally compatible with other structures on the site. Allowable accessory uses include laundry facilities, vending machines, a common car wash, storage area for recreational vehicles, management facility, recreational facility, and other uses which in the opinion of the Director are of a similar nature.

10. **Screening.** A six-foot-high wall, fence, or landscape screen may be required along all project boundaries. If a wall or fence is required, it shall not be less than six feet.
B. Staged development. Development may be in stages provided that each stage meets the minimum standards of this Section and there is no occupancy of any mobile home until at least 10 mobile home lots are developed and improved on at least two acres.

27.34.122 - Mobile Homes on Single-Family Lots

A. Applicability. One mobile home per lot is permitted wherever Article 2 of this Zoning Ordinance permits a single-family dwelling, subject to the standards of this Section.

B. Mobile home standards. A mobile home located on a parcel outside of a mobile home park shall be:

1. Placed on a permanent foundation system;

2. Constructed after September 15, 1971, and issued an insignia of approval by the California Department of Housing and Community Development; or constructed after July 1, 1976 and issued an insignia of approval by the U.S. Department of Housing and Urban Development, and has not been altered in violation of applicable codes;

3. Occupied only as a residential use type in compliance with all applicable regulations;

4. Subject to all Zoning Ordinance provisions applicable to residential structures;

5. Constructed with a minimum width of 12 feet, not including an "expander";

6. Covered with an exterior material (including, wood, stucco, Masonite and horizontal "lap" siding) customarily used on conventional dwellings and approved by the Director. The exterior covering materials shall extend to the ground, except that when a solid concrete or masonry perimeter foundation is used, the exterior covering materials need not extend more than six inches above finished grade;

7. Constructed with a roof pitch of not less than three inches vertical rise for each 12 inches of horizontal run, and consisting of shingles or other material customarily used for conventional dwellings and approved by the Director; and

8. Have eaves of a conventional design.

27.34.130 - Neighborhood Markets

A. Limitations on use. Neighborhood markets shall be subject to the following limitations.

1. Hours of operation: 7 a.m. to 9 p.m., daily.

B. Site area. The minimum site area for a neighborhood market shall be 6,000 square feet; the maximum size of a site shall be 12,500 square feet.
C. **Parking.** Off-street parking shall be provided in compliance with Chapter 27.30, with a minimum of three vehicle spaces and three bicycle racks provided.

D. **Trash and recycling.** Trash and recycling receptacles shall be provided for patrons near the front door, outside of any public right-of-way.

E. **Security and crime prevention.** Neighborhood markets, convenience stores and service stations shall have drop safes, closed circuit television kept in operation and maintained, signage that discloses no more than $100 is kept on the premises after 9:00 p.m., and public telephones available on the site, either within the building, or outdoors.
27.34.140 - Outdoor Retail Sales and Activities

A. **Applicability.** The provisions of this Section apply to temporary and permanent facilities for outdoor display and sales (e.g., garden nurseries, lumber yards, and similar uses where merchandise is displayed for sale).

B. **Temporary outdoor displays and sales.** See Section 27.42.040 (Temporary Use Permits).

C. **Permanent outdoor displays and sales.** The permanent outdoor display and sale of merchandise (e.g., garden centers, nurseries, lumber yards, etc.) is allowed subject to the following standards.

1. The outdoor display of merchandise shall not exceed a height of 10 feet above finish grade, unless a greater height is allowed through the approval of a Use Permit.

2. Outdoor sales areas shall not encroach into required setback areas. In zoning districts where no setback area is required, the outdoor sales area shall be set back a minimum of 10 feet from adjoining property line(s) unless otherwise allowed through the approval of a Use Permit.

3. Displayed merchandise shall occupy a fixed, specifically approved location that does not disrupt the normal function of the site or its circulation, and does not encroach upon driveways, landscaped areas, parking spaces, or pedestrian walkways. Displays shall not obstruct intersection visibility or otherwise create hazards for vehicle or pedestrian traffic.

4. The outdoor display and sales area shall be directly related to a business occupying a permanent structure on the subject parcel.

5. Outdoor sales and activity areas other than vehicle sales lots shall be screened from the view of adjoining public rights-of-way by decorative walls, fences, or landscaping.

6. Additional signs, beyond those normally allowed for the subject use, shall not be provided as a result of the outdoor display and sales area.

27.34.150 - Outdoor Storage

Permanent outdoor storage areas shall be entirely enclosed by a six-foot high solid wall or fence as approved by the Director. Stored materials shall not be higher than the fence, except with Minor Use Permit approval. In any case where an outdoor storage area abuts a street right-of-way, the required screening wall or fence shall be set back from the right-of-way as required by the applicable zoning district, and the set back area shall be landscaped to the approval of the Director, and in compliance with Chapter 27.28 (Landscaping).
27.34.160 - Recycling Facilities

This Section establishes standards and procedures for the siting and operation of various types and sizes of commercial recycling facilities where allowed by Article 2 (Zoning Districts and Allowable Land Uses).

A. Reverse vending machines.

1. The machines shall be installed only as an accessory use to an allowed main use.

2. If located outside of a structure, the machines shall not occupy parking spaces required by the main use.

3. Sign area shall not exceed four square feet for each machine, exclusive of operating instructions. The sign area shall be subject to the overall site sign area limitations in Section 27.32.110 (Sign Standards by Zoning District).

4. The machines shall be illuminated to ensure comfortable and safe operation if machines are accessible between dusk and dawn. The light source shall be shielded so that glare and reflections are confined within the boundaries of the site.

B. Small collection facilities.

1. Collection containers shall not occupy more than 350 square feet nor three parking spaces, not including space that will be periodically needed for the removal of materials or exchange of containers.

2. Collection containers shall be set back at least 10 feet from any public right-of-way, and shall not obstruct pedestrian or vehicular traffic.

3. Collection containers shall be constructed of durable waterproof and rustproof materials, secured from unauthorized removal of material, and shall be of sufficient capacity to accommodate materials collected and the collection schedule.

4. Containers shall not be located within 50 feet of any residentially-zoned parcel.

5. Collection containers are encouraged to be of a color and design to be both compatible with the surrounding uses and neighborhood.

6. Signs may be provided as follows:

   a. Recycling facilities may have identification signs with a maximum area of 12 square feet for each side or exterior surface; and

   b. Directional signs may be installed with the approval of the Director if found necessary to facilitate traffic circulation.
7. Additional parking spaces shall not be required for customers of a small collection facility located in an established parking lot of a commercial/industrial use.

8. Use of parking spaces by the facility and by the attendant, if provided, shall not reduce available parking spaces below the minimum number required for the commercial/industrial use unless a parking study shows that existing capacity is not fully utilized during the time the recycling facility will be on the site.

9. The site shall be maintained clean, sanitary, and free of litter and other undesirable materials, and shall be cleaned of loose debris on a daily basis.

C. Large collection facilities.

1. The facility shall not abut a parcel zoned for residential use.

2. Structure setbacks and landscape requirements shall be those provided for the zoning district in which the facility is located.

3. Exterior storage of materials shall be screened from view from adjacent public rights of way and adjoining parcels.

4. The site shall be maintained clean, sanitary, and free of litter and any other undesirable materials, and shall be cleaned of loose debris on a daily basis.

5. Any containers provided for "after hours" deposit of recyclable materials shall be located at least 300 feet from any residential zoning district, constructed of sturdy, rustproof material(s), with sufficient capacity to accommodate materials collected, and secured from unauthorized entry or removal of materials.

6. Dust, fumes, odor, smoke, or vibration, above ambient levels, shall not be detectable from adjoining parcels.

D. Light processing facilities. Light recyclable materials processing facilities, excluding scrap and dismantling yards, are allowed in compliance with the following standards.

1. The facility shall not abut a parcel zoned for residential use.

2. Processing facilities are limited to baling, briquetting, compacting, crushing, grinding, shredding, sorting of source-separated recyclable materials, and repairing of reusable materials.

3. A processing facility shall not exceed 45,000 square feet, may have up to an average of two outbound truck shipments of material each day, and shall not bale, compact, or shred ferrous metals other than beverage and food containers.
4. Outdoor storage shall be screened by a six-foot-high opaque fence or solid masonry wall in combination with landscape materials. Storage, excluding truck trailers, shall not be visible above the height of the required wall.

5. Any containers provided for "after hours" deposit of recyclable materials shall be located at least 300 feet from any residential zoning district, constructed of sturdy, rustproof materials, with sufficient capacity to accommodate materials collected, and secured from unauthorized entry or removal of the materials.

6. Dust, fumes, odor, smoke, or vibration, above ambient levels, shall not be detectable from adjoining parcels.

27.34.170 - Residential Accessory Uses and Structures
(Revised 04/18/07, ORD. 2007-214, Revised 09/06/08, ORD. 2007-241, Revised 04/09/18, ORD 2017-319).

A. Applicability. The provisions of this Section apply to residential accessory structures, including garages, gazebos, greenhouses, patio covers, storage sheds, studios, recreation rooms, hobby shops, play structures/houses, workshops, and similar non-commercial uses. Regulations for accessory dwelling units are instead provided by Section 27.34.180 and Guest Houses/Pool Houses under Section 27.34.090.

B. Relationship of accessory use to main use. Accessory uses and structures shall be incidental to and not alter the character of the site from that created by the main use. Accessory structures shall not contain kitchen/and or cooking facilities. Electrical lighting and/or plumbing fixtures shall be limited to a lavatory sink, shower, and/or toilet (as defined by the plumbing code, permits may be required). No structure identified in Sub-section A above shall be used as a living unit or for commercial purposes.

C. Attached structures. An accessory structure attached to the main structure shall comply with the requirements applicable to the main structure, including architecture, heights, parcel coverage, and setbacks.

D. Detached structures. An accessory structure that is detached from the main structure shall comply with the following standards.

1. Setbacks. Accessory structures shall not be located within a required front yard setback, shall maintain side and rear yard setbacks of at least five feet, (corner lot side yard setbacks shall comply with the minimum setback for the zoning district) and shall maintain a six-foot separation or minimum separation allowed by the Building Code, whichever is greater from other accessory structures and the main dwelling unit.

2. Height limitations. The height of an accessory structure shall not exceed 15 feet. In no case shall the accessory structure height exceed the height of the primary structure.

3. Coverage and size limitations. The maximum site coverage for all structures on a parcel shall comply with the requirements of the applicable zoning district. Aggregate
coverage of all accessory structures shall not exceed a total of 840 square feet. The total square footage may be a single structure of 840 square feet or multiple structures totaling 840 square feet. When multiple accessory structures are placed on a parcel the minimum separation allowed by the Building Code shall be maintained. Structures shall be required to meet minimum rear and side yard setbacks in Section D.1 above.

A single portable structure per lot or unit, including pre-manufactured storage sheds and other small similar structures, which do not require a Building Permit are subject to regulations under Section 27.06.040 and shall comply with the minimum side and rear yard setback requirements in Section D.1 above. The maximum site coverage for all structures on a parcel shall comply with the requirements of the applicable zoning district.

4. **Attached Open-sided patio covers.** Detached free standing patio covers are subject to all requirements of this section. Patio covers that are attached to the main dwelling, and open on at least three sides, are permitted subject to the limitations of Subsections D.1-D.3 above. Attached enclosed patio covers are subject to the same regulations as the primary structure.

5. **Detached Garages.** Single story detached garages shall not exceed 840 square feet. Detached garages are subject to the minimum rear and side yard setbacks in Section D.1, height limitations in Section D.2, and architectural compatibility in Section D.6. Detached garages with an accessory dwelling unit above are subject to the regulations in Section 27.34.180.

6. **Architectural Compatibility.** Structures that require a building permit shall have the similar architecture as the primary structure (colors, siding, roof materials and pitch, windows, doors, etc.).

7. **Minor Use Permit.** Requests to exceed or deviate from the minimum height and/or square footage requirements in the above sections are subject to the Minor Use Permit process, prior to building permit.

8. **Deed restrictions.** At the discretion of the Planning Director, a deed restriction may be required for accessory structures. The deed shall be filed and recorded with the County Recorder, prior to issuance of a building permit. The deed restriction shall identify the use of the structure at the time of issuance of the building permit.
27.34.175 – Personal Services, Restricted
(Adopted 11/18/09, Effective 12/18/09, Ord. 2009-258)

For the purposes of this Section refer to the definitions in Article 6 under Personal Services, Restricted:

A. Limitations on use:
   1. **Hours of operation:** 9 a.m. to 8 p.m., daily.

B. Permit and License Requirements:
   1. **Regulatory Permits/License/Clearances:** Uses shall obtain the appropriate permits/license/clearance from the County, State, or Federal agency that governs the use. Conditions of the Minor Use Permit/Use Permit shall include a provision requiring the applicant to provide written proof of the permit/license/clearance, prior to commencement of the use.

   2. **Town Requirements:** Conditions of the Minor Use Permit/Use Permit shall include a provision requiring the applicant to obtain a Business Registration/License, as appropriate, prior to commencement of the use. The Business Registration/License shall be kept current during the duration of operation of the use.

   3. **Building Permit:** Obtain appropriate building permits and clearances, prior to construction, remodel and/or tenant improvements.

C. Signs: All signs shall comply with the Town of Windsor Zoning Ordinance Sign Regulations. As part of the Minor Use Permit/Use Permit a comprehensive sign program or signs related to the use may be considered.

D. Massage Establishments/Businesses: Massage businesses are subject to obtaining a certificate issued by the Massage Therapy Organization pursuant to Business and Professions Code Section 4600 et. seq. or if allowed by Town Code, a Massage Practitioner’s Permit in compliance with the Town’s Municipal Code requirements for massage establishments.

E. Smoke Shops: Smoke shops are defined as devoting more than 15% of the total floor space and/or more than a two foot by four foot section of shelf space for display for sale of smoking, drug and/or tobacco paraphernalia. The following is required and will become conditions of the Minor Use Permit/Use Permit:
   1. No smoking shall be permitted inside the shop.
   2. All Town smoking regulations shall be abided by.
   3. Signs shall be posted in accordance with the Town’s Municipal Code Chapter 20.
   4. No person under age 18 may enter the business even if they are accompanied by an adult.
   5. All clerks/personnel shall be 18 or older.
6. Smoke shops may not be located within 600 feet of youth-frequented locations including schools, religious institutions, public libraries, and public parks.
7. Smoke shops may not be located within 500’ of residential zoned areas.
8. No products may be sold by means of self-service or vending machine assisted.
9. May not display any form of advertising for tobacco products in visible locations with the exception of any onsite sign that contains the name or slogan of a business that lawfully sells tobacco products that have been placed at or upon the business premises for the purpose of identifying the business.
10. Business shall not distribute free tobacco products or promotional items.
11. Business shall not sell or offer for sale cigarettes or other tobacco or smoking products not in the original packaging provided by the manufacturer and with all required health warnings.
12. Compliance with State law including but not limited to Health and Safety Code Section 11364.5 and as amended from time to time.

F. Security and crime prevention. Checking cashing/cash advance businesses, pawn shops, and bail bond businesses are subject to review and approval by the Chief of Police, prior to commencement of the use. The following may be required and become provisions of the Minor Use Permit/Use Permit, at the discretion of the Chief of Police:

1. Installation of a CCTV(or equivalent) inside the business with retrievable videotapes maintained regularly and of sufficient resolution to identify customers involved in criminal offenses,
2. Central station silent intrusion alarming of the business with teller access in strategic locations within the premises.
3. Acceptance and use of the Sonoma County Sheriff’s Department bank alarm response policy and training.
4. Money safe or vault as approved by the Chief of Police. Tellers/personnel shall have the ability to make frequent cash/check drops and a policy shall be instituted to limit available cash on hand.
5. While closed the business will provide sufficient interior night-lights for night time security.

G. Time Limitations, Revocation, and Revisions: Permits are subject to the time limits, extensions, and revocation requirements as provided for in the Town of Windsor Zoning Ordinance.

27.34.180 – Accessory Dwelling Units

Accessory dwelling units shall comply with the requirements of this Section, where allowed by Section 27.08.030 – Residential Land Uses and Permit Requirements.

A. Purpose. The provisions of this Section are intended to set standards, in compliance with California Government Code Section 65852.2, for the development of accessory dwelling units in order to increase the supply of smaller and affordable housing while ensuring such housing remains compatible with the existing neighborhood.
The provisions of this Section are intended to implement the provisions of the General Plan Housing Element that encourage the development of housing types for all economic segments of the community and to minimize governmental constraints on residential development.

B. **Applicability.** Except as otherwise provided by this Section, accessory dwelling units shall be ministerially permitted only in compliance with the requirements of this Section and all other requirements of the applicable zoning district in the following residential zoning districts: Estate Residential (ER), Surrounding Residential (SR), Village Residential (VR), Medium Density Residential (MDR), and Planned Development (PD) where not prohibited by a Policy Statement or conditions of approval.

C. **General Requirements.** An accessory dwelling unit:

1. May be located on any residentially zoned parcel that allows single-family or multi-family dwellings and that contains only one single-family detached dwelling;
2. Is not subject to the density requirements of the General Plan, but shall otherwise be consistent with the General Plan text and diagrams;
3. Shall not be sold separately from the primary residence; and
4. Shall not be rented for term of less than 30 days. The single-family residence may be rented for term of less than 30 days.

D. **Owner Occupancy.** The property owner is not required to occupy the accessory dwelling unit or primary residence located on the parcel.

E. **Permit Requirements.** An application for an accessory dwelling unit that complies with all applicable requirements of this Section shall approved ministerially through the building permit process.

F. **Development Standards.** A building permit for an accessory dwelling unit shall be issued only if the unit complies with all of the following development standards:

1. Number of units per lot. One accessory dwelling unit shall be allowed on a parcel in a single-family or multi-family zoning district developed with a primary dwelling. An accessory dwelling shall not be allowed on a parcel developed with two or more dwellings.

2. Location. An accessory dwelling unit may be located within, attached to, or detached from the existing-primary dwelling. An accessory dwelling unit may also be located above a garage attached to or detached from the primary dwelling.

3. Existing Development. A single-family dwelling must already exist on the lot or shall be constructed on the lot in conjunction with the construction of the accessory dwelling unit.
4. **Setbacks.** Residential District. An accessory dwelling unit shall comply with the following setback requirements:

   a. **Attached Unit.** An attached accessory dwelling unit shall be subject to the same setback requirements applicable to the primary dwelling as determined by Section 27.08.040 of this Code (Residential District General Development Standards).

   b. **Existing Single-Family Dwelling.** An accessory dwelling unit that is fully contained within the existing space of a single-family dwelling or accessory structure and has independent exterior access from the existing single-family residence shall provide side and rear setbacks sufficient for fire safety.

   c. **Existing Garage.** No setback shall be required for an existing garage that is converted to an accessory dwelling unit. A setback of five feet from the side and rear property lines is required for an accessory dwelling unit constructed above an existing garage.

   d. **Detached Unit.** A detached accessory dwelling unit, including a unit located above a detached garage, shall not be located within a required front setback and shall be located a minimum of five feet from the interior side and rear property lines, and ten feet from a street side setback.

   e. **Distance between structures.** A detached accessory dwelling shall maintain a minimum of six feet of separation between the primary dwelling and other accessory structures on the site or the minimum distance required by the California Building Code, whichever is greater. An attached or detached accessory dwelling unit shall be no closer than ten feet to a primary dwelling on an adjacent parcel.

   f. **Planned Development (PD) District.** Within a PD District without specified setbacks for accessory structures in a Policy Statement or Development Plan, an attached or detached accessory dwelling unit, not consisting of a garage conversion and not contained within the existing space of a single-family dwelling or accessory structure, shall maintain the setbacks required in subsections a – e above. Within a PD District with specified setbacks in a Policy Statement or Development Plan, the setbacks shall be as required by the applicable Policy Statement or Development Plan.

5. **Maximum floor area.** Accessory dwelling units shall not exceed 840 square feet. Square footage is measured from the exterior walls at the building envelope, excluding any garage area or unenclosed covered porch areas. All floor area within the building envelope shall be identified and square footage for each area provided. For the purposes of measurement all attached and/or interior storage areas, mezzanines, lofts, attics (except those less than 7’ in height accessed by a crawlspace and/or other code compliant access), and similar uses shall be counted in the total square footage. The increased square footage of an attached accessory dwelling unit shall not exceed fifty-percent of the existing living area, with a maximum increase of 840 square feet. Living
area means the interior habitable area of the dwelling, including basements and attics, but does not include a garage or any accessory structure.

6. **Height limit.** A detached accessory dwelling is limited to a maximum height of fifteen feet. An accessory dwelling located above a detached garage is limited to a maximum height of twenty-five feet. An accessory dwelling attached to the primary dwelling is limited to the height allowed in the underlying zoning district.

7. **Site coverage.** An accessory dwelling unit shall comply with the site coverage requirements of the applicable zoning district.

8. **Architectural compatibility.** The design of a detached accessory dwelling unit shall demonstrate an architectural relationship to the primary residence on the site. The architectural relationship may be demonstrated through the use of the same roof pitch, architectural style, colors, materials, window and door fenestration, or similar methods. An accessory dwelling unit that is attached to the primary residence and visible from the public right-of-way shall be architecturally compatible with the primary residence, including but not limited to, the architectural design, materials, colors, roof materials and pitch, and windows and doors.

9. **Privacy.** An accessory dwelling unit shall be designed to lessen privacy impacts to adjacent properties. Appropriate design techniques may include use of obscured glazing, window placement above eye level, screening treatments, or orienting balconies, windows and doors away from residences on adjacent parcels.

10. **Parking.** One off-street, all-weather parking space is required for an accessory dwelling unit in addition to that required for the main dwelling, except as set forth below. The required off-street parking space may be covered or uncovered and shall be permitted in tandem and in setback areas, unless the review authority determines that such parking is not feasible due to specific site topographical or fire and life safety conditions. If the review authority determines that onsite parking is not feasible, on-street parking may be approved by the review authority. No off-street parking shall be required if any of the following circumstances exist:

- The accessory dwelling is located within one-half mile of public transit.
- The accessory dwelling unit is located on a property with a Historic Overlay zoning designation.
- The accessory dwelling unit is part of the existing primary residence or an existing accessory structure.
- When on-street parking permits are required but not offered to the occupant of the accessory dwelling unit.
- Where there is a car share vehicle located within one block of the accessory dwelling unit.

To qualify for an exception, the applicant must provide supporting evidence, such as a map illustrating the location of the accessory dwelling unit and its proximity to public
transit or car share vehicle or on a lot with an Historic Overlay zoning designation, or proof of local parking permit requirements.

If a garage, carport or covered parking is demolished in conjunction with the construction of an accessory dwelling unit, replacement spaces may be provided in any configuration on the lot, including as tandem parking or within setbacks.

11. **Access.** A passageway that provides access to the unit from a street is not required.

12. **Fire sprinklers.** Fire sprinklers shall be required if required for the primary residence.

G. **Connection Fees.**

1. Except as provided in subsection (2), a separate utility connection payment of a connection or capacity charge pursuant to State law and Town fee schedule will be required for any new accessory dwelling unit.

2. No new or separate utility connection will be required for accessory dwelling units that are internal conversions of existing space within a single-family residence or a residential accessory structure.

H. **Accessory dwelling unit and junior accessory dwelling unit.** One accessory dwelling unit and one junior accessory dwelling unit are permitted per parcel, when in compliance with the requirements of this Code.

I. **Illegal accessory dwelling units.** This Section shall not validate any existing illegal accessory dwelling unit. The standards and requirements for the conversion of an illegal accessory unit to a legal conforming unit shall be the same as for a new accessory dwelling unit.

(Rev/ 04/09/18, ORD. 2017-319)

**Section 27.34.185 - Junior Accessory Dwelling Units**

Junior accessory dwelling units shall comply with the requirements of this Section, where allowed by Section 27.08.030 – Residential Land Uses and Permit Requirements.

A. **Purpose.** The provisions of this Section are intended to set standards, in compliance with Government Code Section 65852.22, for the development of junior accessory dwelling units in order to increase the supply of smaller and affordable housing while ensuring that they remain compatible with the existing neighborhood. It is not the intent of this ordinance to override lawful use restrictions as set forth in Conditions, Covenants, and Restrictions.

The provisions of this Section also are intended to implement the provisions of the General Plan Housing Element that encourage the development of housing types for all
economic segments of the community and to minimize governmental constraints on residential development.

B. **Applicability.** Except as otherwise provided by this Section, junior accessory dwelling units shall be ministerially permitted only in compliance with the requirements of this Section and all other requirements of the applicable zoning district in the following residential zoning districts: Estate Residential (ER), Surrounding Residential (SR), Village Residential (VR), Medium Density Residential (MDR), and Planned Development (PD), where not prohibited by a Policy Statement or condition of approval.

C. **Definition.** For the purpose of this Section, a “Junior Accessory Dwelling Unit” means a dwelling unit not exceeding 500 square feet in size and contained entirely within an existing legally established single-family structure. A junior accessory dwelling unit shall include an efficiency kitchen. A junior accessory dwelling unit may include separate sanitation facilities, or may share sanitation facilities with the existing structure.

D. **Density.** As provided by Government Code Section 65852.22 (d) and (e), junior accessory dwelling units are not considered new or separate dwelling units and, therefore, are exempt from the density limitations of the General Plan.

E. **Timing.** A junior accessory dwelling unit allowed by this Section must be installed after construction of the single-family dwelling.

F. **General Requirements.** A junior accessory dwelling unit:

1. May be located on any residentially zoned lot that allows single-family or multifamily dwellings and that contains only one single-family detached dwelling.
2. Is limited to one per parcel.
3. Is not subject to the density requirements of the General Plan, but shall otherwise be consistent with the General Plan text and diagrams.
4. Requires property owner occupancy of the junior accessory dwelling unit or the remaining portion of the single-family residence.

G. **Permit Requirements.** An application for a junior accessory dwelling unit that complies with all applicable requirements of this Section shall be approved ministerially. A building permit shall be required for a junior accessory dwelling unit. A junior accessory dwelling unit shall not be considered a separate or new dwelling for the purposes of applying building codes, fire codes, collection of impact fees, or the provision of water, sewer, and power, including connection fees that otherwise may be associated with the provision of those services.

H. **Development Standards.** A permit for a junior accessory dwelling unit shall be issued only if the unit complies with the following development standards:

1. **Maximum floor area.** The junior accessory dwelling unit shall not exceed 500 square feet in area.
2. **Existing development.** The junior accessory dwelling unit shall be contained entirely within the existing walls of an existing single-family dwelling and shall utilize one of the existing bedrooms.

3. **Number per lot.** A maximum of one junior accessory dwelling unit shall be permitted on any lot.

4. **Kitchen.** The junior accessory dwelling unit must contain an efficiency kitchen as defined in Section 27.60.020. The efficiency kitchen shall be removed when the junior accessory dwelling unit use ceases.

5. **Sanitation.** A junior accessory dwelling unit may include a full bathroom, or the occupants of the junior accessory dwelling unit may share the bathroom facilities within the remainder of the single-family dwelling.

6. **Entrance.** The junior accessory dwelling unit shall include an exterior entrance separate from the main entrance to the single-family dwelling, and an interior entry into the main living area. The junior accessory dwelling unit may include a second interior doorway for sound attenuation.

7. **Parking.** Off-street parking shall not be required for a junior accessory dwelling unit.

I. **Deed Restriction.** Prior to occupancy of a junior accessory dwelling unit, the property owner shall record with the County Recorder and file with the Town a deed restriction, which has been approved by the Town as to its form and content, containing a reference to the deed under which the property was acquired by the owner and stating that:

1. The junior accessory dwelling unit shall not be sold separately from the single-family residence;
2. The junior accessory dwelling unit shall comply with all of the standards included in Zoning Ordinance Section 27.34.185.
3. The restrictions shall run with the land and be binding upon any successor in ownership of the property. Lack of compliance shall void the approval of the junior accessory dwelling unit and may result in legal action against the property owner and future purchasers.

J. **Junior accessory dwelling and accessory dwelling.** One junior accessory dwelling and one accessory dwelling are permitted per parcel, when in compliance with the requirements of this Code.

(Rev. 04/09/18, ORD. 2017-319)

**27.34.190 - Service Stations**

A. **Location criteria.** Service stations shall be allowed only on corner lots or lots with street and/or highway frontages on at least two sides, or incorporated as part of a shopping center that has a minimum of 30,000 square feet of building area.

B. **Minimum site area.** No service station shall be located on a site of less than 10,000 square feet, or less than 100 feet wide.

C. **Setbacks.** The minimum setback from a property line to canopies and roof eaves shall be 15 feet. Setback areas adjacent to streets shall provide a minimum 10 feet wide landscaped
area. Interior setback areas shall provide a minimum four feet wide landscaped area. Additional landscaping may be required through the Use Permit process to screen the service station from adjacent properties.

D. **Access to site.** Vehicle access shall comply with the following:

1. There shall be no more than two vehicular access points to/from the public right-of-way;
2. Driveways shall not be located closer than 70 feet from the nearest intersecting street property line.
3. The width of a driveway shall not exceed 35 feet, measured at the sidewalk; and
4. Driveway locations will be reviewed on a case-by-case basis by the Engineering Department.

E. **Screening.** A service station that adjoins property in a residential zoning district shall provide a six- to seven-foot high decorative masonry wall along the common property line, compatible with on-site development and adjacent properties, subject to the approval of the Director.

F. **Building design.** Service stations shall be designed to ensure compatibility with existing or anticipated development in the vicinity and the overall community.

G. **Building orientation.** Service stations shall be designed so that the main building or buildings are oriented to the adjacent right of way.

H. **Limitation on outdoor activities.** Activities and operations shall be conducted entirely within an enclosed structure, except as follows:

1. The dispensing of petroleum products, water, and air from pump islands;
2. The provision of emergency service of a minor nature; and
3. The area occupied by vending machines shall be next to the main structure in a designated area not to exceed 32 square feet.

I. **Parking.** Vehicles shall not be parked on sidewalks, driveways, alleys, or landscaped areas. Vehicles shall not be parked on the premises for the purpose of sales.

J. **Storage.**

1. Used or discarded vehicle parts or equipment, or disabled, junked, or wrecked vehicles shall not be located in an open area outside of the main structure.
2. Storage of trucks, vans, buses or similar vehicles is prohibited, except tow trucks, pick-up trucks and small vans incidental to the service station use. The storage of rental vehicles and trailers is not allowed, unless approved through the Use Permit process.
27.34.200 - Telecommunications Facilities

Cellular wireless telephone antennas, including supporting towers and related ground-mounted structures and equipment structures, shall comply with the following requirements.

**A. Permit requirements.** The establishment of wireless communication antennas and facilities shall be allowed in compliance with a use permit approved by the Town subject to the standards of this Section. At the time of permit application, the Director may require the applicant to submit a visual impact analysis of the proposed facility using mock-ups and photomontages.

**B. Site selection.** Sites for cellular wireless communications shall be selected according to the following order of preference:

1. On existing structures (e.g., a building, church steeple, communication tower, freestanding sign, water tank, etc.);
2. In locations where the existing topography, vegetation, or other structures provide the greatest amount of screening; or
3. On vacant land without significant visual resources and only in commercial, industrial, and public zoning districts.

As part of the application process, applicants for cellular wireless communication facilities shall be required to provide written documentation demonstrating a good faith effort in locating facilities in compliance with the site selection standards above.

**C. Prohibited areas.** Wireless communications facilities shall not be established within a residential zoning district or on a parcel that contains a legally established residential use.

**D. Co-location.** Town agencies, special districts, and utility providers shall encourage and allow co-location of cellular equipment on appropriate existing structures and towers subject to reasonable engineering requirements.

**E. Construction materials.** Telecommunication facilities shall be constructed of metal or other non-flammable and non-reflective materials.

**F. Painting.** The equipment and supporting structure shall be painted a single, neutral, nonglossy color (e.g., earth-tones, sky blue, light gray, sea ranch green, etc.) and, to the extent possible, compatible with the appearance and character of the surrounding neighborhood.

**G. Setbacks.** Equipment shall not be located within any setback in any zoning district, and shall not extend beyond the property lines. Telecommunication facilities shall be set back at least 20 percent of the tower height from all property lines and at least 100 feet from any public trail, park, riparian corridor buffer setback area, or outdoor recreation area.
H. **Signs.** Identification signs, including emergency phone numbers of the cellular service provider, shall be posted and readable at ground level at all equipment and tower sites. Signs shall not exceed four square feet in area.

I. **Undergrounding required.** Electrical and equipment wiring shall be placed underground.

J. **Unused/obsolete equipment.** Unused/obsolete equipment or towers shall be removed from the site within six months after their need has ceased.

K. **Tower support.** Towers shall be single pole self-supportive. The use of guy wires is prohibited.

L. **Compliance with FCC regulations.** Telecommunication facilities shall comply at all times with all applicable Federal Communications Commissions (FCC) and Federal Aviation Administration (FAA) rules, regulations, and structures.

M. **Lighting.** All telecommunication facilities shall be unlit except for the following:

1. A manual-operated or motion-detector controlled light above the equipment shed door which shall be kept off except when personnel are actually present at night; and

2. The minimum tower lighting required which shall be shielded or directed to the greatest extent possible in such a manner as to minimize the amount of light that falls onto nearby properties, particularly residences.

N. **Height.** Telecommunication facilities shall not exceed the height limit from grade established by the base-zoning district for the proposed facility, at the highest point of the antenna. An approved use permit may modify this provision if strict compliance would result in substandard reception/transmission.

O. **Roads and parking.** Existing roads shall be used for access, whenever possible. Any new roads or parking areas built shall, whenever feasible, be shared with subsequent telecommunication facilities and/or other permitted uses. In addition, roadways shall meet the width and structural requirements of the Fire Chief and Town Engineer.

P. **Noise and traffic.** All telecommunication facilities shall be constructed and operated in a manner as to minimize the amount of disruption caused to nearby properties. Back up generators shall only be operated during power outages and for testing and maintenance purposes. Testing and maintenance shall only take place on weekdays between the hours of 8:30 a.m. and 4:30 p.m.

Q. **NIER exposure.** No telecommunication facilities or combination of facilities shall produce at any time power densities in any inhabited area that exceed the FCC adopted NIER (Nonionizing Electromagnetic Radiation calculations) standard for human exposure. Every telecommunication facility within 400 feet of an inhabited area shall demonstrate continued compliance with the NIER standard by submitting to the Planning Director a report annually demonstrating compliance with the FCC adopted NIER standard for human exposure.
R. **Town of Windsor Exemption.** The Town of Windsor is exempt from the provisions hereof when the telecommunication facility is located on Town owned property and approved by the Town Council.

27.34.210 – Mini-Warehouses

A. **Setbacks.** The minimum setback from the front property line shall be 10 feet, except that for sites located within 300 feet of a residential district, any enclosed structure, fencing, storage or parking area shall be set back a minimum of 20 feet. Variation of the setback to avoid the appearance of a continuous wall along the street frontage is strongly encouraged. Side and rear yard setbacks shall be as required for the zoning district, except that when the site is adjacent to a residential district, any enclosed structure, storage or parking area shall be set back a minimum of 20 feet.

B. **Landscaping.** All required setback areas shall be landscaped. Landscaping shall consist of a variety of evergreen and deciduous trees, high-profile shrubs, suitable ground cover and native grasses.

C. **Screening.** Fencing shall be provided around the sides and rear of the project. Such fencing shall be solid wood or masonry and shall be constructed to prevent the passage of debris or light and shall not be less than 6 feet as measured on the side with the highest ground elevation.

D. **Building design.** The project shall be designed to ensure compatibility with existing or anticipated development in the vicinity and the overall community. This can be accomplished by avoiding the appearance of a walled enclave along the street frontage, by providing architectural relief in the form of roofline variation, change in materials and the use of window treatments. Blank walls are to be avoided. The design of the project shall be oriented to the street and promote an inviting, walkable street environment.

E. **Building heights.** Enclosed structures shall be one and two stories in height not to exceed 35 feet, except that for sites within 300 feet of a residential district, structures of a minimum height of 20 feet shall be used on the outside perimeter adjacent to the residential district as physical barriers to protect adjacent residences from noise, nighttime glare and visual activity. (Revised 08/1/01, ORD. 2001-148)

F. **Mixed uses.** Mixed-uses, including residential and/or office uses should be located along the street frontage with driveway access to the mini-warehouse located behind the mixed-use to promote the Town design goals of defensible space along the street frontage.
CHAPTER 27.36 - TREE PRESERVATION AND PROTECTION

27.36.010 - Purpose of Chapter

The Town of Windsor is endowed with a wide variety of both native and non-native trees, giving the Town a unique visual character. Trees are a source of great beauty, provide shade and other environmental benefits, enhance property values, create community identity, and generally enhance the quality of urban life. The Town is committed to planting new trees, as well as protecting all existing trees to the greatest extent practicable.

This Chapter provides regulations for the protection, preservation, and maintenance of native Oak trees and trees of significance, groves and stands of mature trees, and mature trees in general. It is also the intent of this Chapter to perpetuate these trees through the replacement of trees removed as a result of a new development.

27.36.020 - Applicability

The provisions of this Chapter shall apply in all zoning districts to the removal or relocation of protected trees as identified in Section 27.36.040 (Protected Trees). Exceptions to the provisions of this Chapter are outlined in 27.36.030 (Exceptions). Town sponsored/funded projects are subject to tree protection and preservation requirements but are exempt from security deposit requirements.

27.36.030 - Exceptions

The removal or relocation of protected trees is exempt from the provisions of this Chapter under the following circumstances.

A. **Existing trees on residential property.** Existing trees on single-family residential property less than one acre in size but not including protected trees, or trees that were required to be preserved, relocated, or planted as a condition of approval of a Tree Removal Permit or other discretionary permit.

B. **Emergency situation.** Cases of emergency where the Director, a member of a law enforcement agency, or the Windsor Fire Department, determines that a protected tree poses an imminent threat to the public safety, or general welfare. In the case of an emergency situation on private property where persons or property are threatened the tree may be removed under the following conditions:

**EMERGENCY REMOVAL CONDITIONS**

1. **Abatement**

   When a tree has partially failed and persons or property are threatened the tree may be removed without Town review or approval. The Town does not require an arborist report before the removal in this instance.
2. **Authorization**

Such cases must be substantiated after the fact by the property owner and tree professional with photographs, abatement information, insurance claim or other relevant information as well as completion of a Protected Tree Removal Application. The information is to be submitted to the Town Planning Department within five days of emergency removal. All other authorizations are subject to the standard procedure for tree removal.

C. **Traffic visibility obstructions.** Removal or relocation of trees necessary to maintain adequate line-of-sight distances as required by the Town's Traffic Engineer or Director of Public Works.

D. **Public utility damage.** Removal of trees for the protection of existing electrical power or communication lines.

E. **Nursery.** Removal of trees planted, grown, or held for sale by a nursery.

F. **Orchards.** Removal of orchards or fruit trees grown, planted, or held for sale for cash crop or commercial purposes.

**27.36.031 - Hazardous Trees**

Property owners are responsible for the trees on their own property. The Town does not require advance permission for removal of Protected or Designated Trees in emergencies. However, it does require documentation of the problem after the fact. This is to avoid the unlawful removal of sound trees on the grounds that they are hazardous. If there is no immediate danger, and the structural deficiency can be corrected, it should be. If the Town determines that there was no reasonable basis for believing there was an emergency, the property owner may face penalties for violating this Ordinance.

The health and safety of a tree are two distinct and separate functional characteristics. A vigorous and healthy tree may not necessarily be of sound wood or structure. To remove a dangerous protected or designated tree, it must first be evaluated and the tree determined to be “hazardous” as defined in this section. This must be verified in writing by the Town Arborist before the tree can be removed.

A. **Tree Hazard Responsibility.** On private property, it is the responsibility of the property owner to mitigate or abate a known hazardous condition of a protected or designated tree that may be of questionable structure or deemed as hazardous. Most tree hazards can be prevented with regular checkups by a tree care professional and timely maintenance action by the property owner.
B. **Recognizing Tree Hazards - Criteria and Evaluation of Hazards.** Determining whether or not a tree’s defects constitute a condition that presents an imminent hazard to an area requires a high degree of knowledge and experience. Hazard tree assessment of a protected or designated tree should only be evaluated by an arborist. Refer to the Town of Windsor “TREE TECHNICAL MANUAL” for specific criteria in evaluating tree hazards. The manual includes a checklist for evaluation as well as reduction and prevention methods.

C. **Town Liability for Public Right-of-Way, Publicly Owned Property.** In the event that a tree on private property is evaluated by an arborist and a report is submitted that indicates that a tree may be a hazard to the public (overhang sidewalk, buildings, pedestrian use area, etc.) but recommends for reasons of health, maturity, etc. that the tree be retained, the Town may require that Risk Management review and make a determination on the issue of liability. If the tree is determined by the Town’s Risk Manager to be a liability, maintenance and/or removal may be required. Payment of costs shall be determined by the Town Manager or his/her designee.

**27.36.032 – Tree Technical Manual**

Regulations to implement this Ordinance are entitled “Tree Technical Manual”. The manual will be made available to the public and shall include but not be limited to standards and specifications regarding: (1) protection of trees during construction; (2) replacement of trees; (3) maintenance of protected trees; (4) format and content of tree plans/reports.

**27.36.040 - Protected Trees**

A protected tree is any of the following:

A. The following native oak trees six inch or greater:
   - Black Oak (Quercus kelloggii)
   - Blue Oak (Quercus douglasii)
   - Coast Live Oak (Quercus agrifolia)
   - Oregon Oak (Quercus garryana)
   - Valley Oak (Quercus lobata)
   - Interior Live Oak (Quercus wislizenii)
   - Oracle Oak (Quercus x morehus)
   - Chase Oak (Quercus x chaseii)

The following trees:
   - California Buckeye (Aesculus, californica) six inch or greater
   - California Bay (Umbellularia, californica) twelve inch or greater

Size is trunk diameter measured at a height of 4.5 feet from surrounding grade. Multiple trunk trees must possess at least one trunk with the above diameter (based on species) to be considered protected. (Smaller trees may also be protected under special circumstances. On projects where Planning Commission/Town Council approval is not required, determination will be made at the direction of the Planning Director.)

B. Heritage trees as identified by Council resolution
C. Significant groves or stands of trees. On projects where Planning Commission/Town Council approval is not required, determination will be at the direction of the Planning Director.

D. Mature trees located on a parcel of one acre or more. Smaller trees may also be protected under special circumstances. On projects where Planning Commission/Town Council approval is not required, determination will be at the direction of the Planning Director.

E. Any tree required, to be planted or preserved, as environmental mitigation for a discretionary permit.

F. Landmark trees are trees identified during the development process and for which preservation is encouraged during the design phase of the project by keeping development and construction activity outside the designated Tree Protection Zone (TPZ). An arborist report prepared by a Town approved arborist shall be prepared assessing the structural integrity and health of the tree(s). Project developers should be aware of their significance and understand that special measures, unusual protection techniques, and more rigid preservation standards will apply. Development density and project layout may be affected where landmark trees are located in order to protect them. Over-mature, senescent, or ancient trees may not qualify for preservation if they are unstable, hazardous, in poor health, or otherwise unsuited for preservation in an urban setting. However, if older larger trees are not in optimum condition that in itself would not be a reason for removal.

(Revised 04/18/07, ORD. 2007-214)

Landmark trees shall be designated on the development plan for preservation and protection. When a tentative map is part of the development entitlement the conditions shall include the following notes to be recorded on the map:

1. The location of the tree shall be identified by lot/parcel number.
2. The Tree is subject to all regulations of the Tree Protection Ordinance.
3. Maintenance shall be completed in accordance with the Tree Technical Manual.
4. Tree Removal is subject to Planning Commission review and action.
5. Standard Tree Protection Notes including references to the arborist report and supplemental reports shall be included.

27.36.050 - Preservation of Existing Trees

A. The design of each project shall recognize the desirability of preserving protected trees to the greatest extent feasible. The design of the grading and site improvements shall reflect consideration of the following safeguards:

1. Provision of sufficient growing areas as required by individual species;
2. No disruption or removal of structural roots;
3. Fencing of trees at or beyond their drip lines during grading and construction activities;

4. No ornamental landscape, filling, cutting, development, or compaction of soils within the drip line;

5. Preservation of oak leaf litter below the drip line; and

6. Other measures required by the particular species of tree(s) to be preserved as recommended by the consulting arborist, horticulturist, or landscape architect.

B. It is recognized that the preservation of all existing trees on a development site may sometimes conflict with reasonable land developmental considerations (e.g., adequate drainage, grading, circulation, safety, and provision of utilities.) However, the design of the proposed development shall address preservation of the most desirable and significant of the healthy trees and the developer is encouraged to utilize creative land planning techniques to achieve this goal.

C. Grading and landscaping plans shall implement the approved tree preservation plan. The locations of all protected trees shall be indicated on the plans by the number of the tree as described in the tree study. Notes shall identify which trees are to be preserved and which may be removed. Plans shall be consistent with the required tree protection mitigation measures included in the project application, initial study, mitigated negative declaration, or environmental impact report and monitoring plan, and the conditions of the development approval.

D. Prior to use inauguration, the preserved trees shall be trimmed for healthy balance, structural integrity and ornamental appearance.

E. The precise vertical and horizontal locations (plus or minus one foot) of all protected trees to be preserved or removed shall be shown on the site plan as part of the initial application unless the project does not involve exterior alterations or construction activities.

27.36.051 - Project Arborist Requirements

The Town strongly recommends the use of a Town arborist in the preparation of any required arborist report or Tree Preservation and Protection Plan. Arborist reports must be prepared by an arborist, pre-approved by the Town of Windsor. All approved arborists must possess a current Certified Arborist Certificate from the International Society of Arboriculture and be a current member of the American Society of Consulting Arborists. An applicant may submit an arborist report prepared by his/her own arborist who is certified, however, the report will require a peer review pre-approved Town arborist at the applicant’s expense. A deposit fee will be collected when an application is submitted for review. The fee will be used to cover the cost of report preparation and recommendations. Additional fees will be collected if the actual costs exceed the initial deposit fees. The applicant will be provided with a written request for the fees. If the initial deposit fee exceeds the final report costs the applicant will be refunded the difference.
In the event that an applicant’s arborist is used and the recommendations conflict with the Town arborist recommendation, the Planning Director will make a decision on the recommendations.

27.36.060 - Tree Removal

A. Permit required. No protected tree shall be removed, cut down, or otherwise destroyed, unless a written permit is issued by the Planning Department. For individual sites including single-residential lots a “Tree Removal Permit” must be completed and submitted to the Planning Department for review and action. For site development that allows for tree removal as part of a project’s conditions of approval, the written permit may be in the form of signed authorization by the Planning Department, a tree preservation plan signed by the Planning Department, written approval for a grading permit, encroachment permit, or other similar permit. In all cases, removal of a protected or designated tree requires written authorization from the Planning Department.

B. Tree replacement requirement. The following conditions determine whether a protected or designated tree must be replaced.

1. Protected Trees – If the Town authorizes the removal of a protected tree(s) because it is dead, dangerous, or a nuisance, no tree replacement is required. In all other cases, the tree(s) must be replaced, with the exception of protected trees approved for removal by the approving body in relation to a development application.

2. Designated Trees – The Planning Director or the Director’s designee shall require tree replacement if it is necessary or desirable to implement the intent of the original site design. The number and nature of the replacement trees shall be determined by the Director or designee, taking into consideration the value of the tree removed and the site design.

3. Street Trees – If the Town authorizes removal of a street tree in connection with a development project, it shall specify the replacement requirements in the permit authorizing removal.

4. Development Projects - If a project applicant chooses to remove trees only from development areas (building envelopes, access roads, etc.), the project applicant may be required to replace the tree/trees. Refer to the “Town of Windsor Tree Technical Manual” Sections 6.20, 6.30, 6.40 and 6.50 for approved forms of tree replacement. On projects where Planning Commission/Town Council approval is not required, replacement will be at the direction of the Planning Director. If the protected tree is dead, dying, or diseased replacement/in-lieu fee will not be required. For development projects that require Planning Commission/Town Council approval, protected trees authorized for removal will be addressed as part of the development conditions of approval. The approving body shall be the deciding factor on appropriate replacement/in-lieu fee and the project will be conditioned accordingly.
5. Development and General Plan Density Issues – The Town Council and/or Planning Commission may direct removal of protected and designated trees for development purposes. Certain levels of removal at the direction of the Council and/or Commission may be allowed to meet density and housing goals and policies of the General Plan. These levels are solely at the discretion of the Council and/or Commission and certain criteria and review is required, prior to a final determination. See the Tree Technical Manual for additional criteria.

C. **Appraisal valuations.** All trees to be replaced shall be the same native species as those removed, unless specific approval has been granted, by the Director. Appraisal value shall be determined by using the most recent edition of the “Guide for Plant Appraisal”, published by the Council of Tree and Landscape Appraisers. The appraisals shall be completed on the most recent “Form for Northern California” published by the International Society of Arboriculture.

D. **Location of replacement trees.** Replacement trees may be located on residentially zoned parcels of at least 1.5 acres and on any commercial or industrial zoned parcel, regardless of size, where feasible. Where infeasible, replacement trees may be located on public land or maintained private open space. In-lieu fees may be used to acquire and protect stands of native trees in preserves or place trees on public lands.

E. **Diseased or hazardous trees.** In no case shall an applicant for a Tree Removal Permit be required to replace or otherwise pay for the value of a tree that is diseased or in danger of collapse, or that the Town has requested to be removed.

F. **Posting of notification of pending permit.** The applicant shall be issued a summary notice to be posted on a pole, tree, or fence nearest to the front of the subject parcel. Copies shall be posted on each corner of the parcel visible to the public. The notice shall state, "Application has been made to the Department to cut and/or damage certain trees on this site, previously described in a Council resolution as a protected tree. A copy of the tree removal plan is on file with the Department."

G. **Considerations for denial of Tree Removal Permit.** A finding of any one of the following situations shall be grounds for denial of the permit.

1. Removal or damage of a healthy tree could be avoided by:
   a. Reasonable redesign of the site plan prior to construction;
   b. Trimming, thinning, tree surgery, or other reasonable treatment, as determined by the Director.

2. Adequate provisions for drainage, erosion control, land stability, windscreen buffers along the road and between neighbors have not been made where these problems are anticipated as a result of the removal.

3. The tree to be removed contains an active bird nest of a rare and endangered species and relocation of the nest is not possible.
H. **Security Deposits.** A security deposit shall be posted to cover the value of protected trees for preservation. The security deposit will be collected with and subject to the same requirements as site improvements. Typical methods may be improvement agreements, encroachment permit, building permit, or other similar methods used by the Town to secure improvement requirements. Release of security for tree preservation shall be the same as the time frames defined within the agreement/permit method used to secure improvements.

Security deposits for tree preservation shall be subject to a tiered system as defined below.

1. Up to the first $100,000 of tree value the deposit is 20%, thereafter tree valuations in excess of $100,000 shall be 10% of the valuation in excess of $100,000. Total security deposit amounts for any project shall not exceed $50,000.

Creeks, riparian corridors and significant groves or stands of trees are considered a biological resource and construction activity is restricted from these areas. Creeks, riparian corridors and significant groves or stands of trees are exempted from security deposit requirements.

Town of Windsor sponsored/funded projects are exempt from security deposit requirements.

If any tree fails to survive, or declines to a point where it is deemed to not be expected to survive, the Town may use the security value of the dead or declining tree(s) to purchase new trees for on or off-site use. In the event that replacement cannot be accomplished on-site, the security will be placed in a fund with the Town of Windsor for use in planting trees within public right-of-way, parks, public landscape areas, or other areas as deemed appropriate by the Town of Windsor.

If a tree or trees, that have been designated to be protected, are determined to have failed or died on their own and not through impacts from development, the security deposit shall not be used for replacement. This determination shall be made at the discretion of the Planning Director and may include an evaluation by the Town arborist, the cost to be borne by the developer.

**NOTE:** Single developed lot property owners that are proposing remodels, additions, pools, etc. are exempt from security deposits.

27.36.061 **Tree Mitigation** (Revision 02/21/07, ORD. 2007-212)

An arborist report is required for all development project sites that contain protected trees. The Town maintains a list of arborists approved to work on Town projects. An initial deposit amount to prepare the report shall be paid by the owner/developer of the project. The deposit amount will be used to cover the cost of the report preparation. Additional fees will be collected if the actual costs exceed the initial deposit amount. If an arborist is utilized who is not on the list that arborist’s report is subject to a peer review by an approved Town arborist with the cost to be borne by the developer/owner of the project. Tree mitigation may be in the form of in-kind replacement, in-lieu replacement, and/or a combination of both.
A. New Commercial and/or Residential (2 or more units) Development Projects. In the event that there are no viable and/or practical alternatives except to remove a protected tree, the Town will require mitigation. All removed protected trees shall be replaced at the following ratios:

- All protected trees, determined by the project arborist to be in good (4) or excellent (5) health, and/or with moderate (3) to good (4) structure, shall be replaced on a one-to-one trunk diameter basis. (Example: A 24-inch protected tree in good or excellent condition must be replaced with new trees totaling 24 inches in trunk diameters.)

- All protected trees, determined by the project arborist to have fair (3) or marginal (2) health, and/or with marginal (2) structure, shall be replaced on a two-to-one trunk diameter basis. (Example: A 24-inch protected tree in fair-to-marginal condition must be replaced with new trees totaling 12 inches in trunk diameter.

- All protected trees, determined by the project arborist to have poor (1) health or poor (1) structure, are not required to be replaced.

1. Tree Mitigation. An approved arborist must determine that a tree designated for preservation in a development project has a good chance at long-term survival as determined by an assessment of proposed development impacts. Simply preserving a tree does not excuse it from designated mitigation requirements; it must, in the professional opinion of the arborist, have a good chance to survive after all the impacts of construction are considered.

   a. In-Kind Replacement: If the location of replacement tree planting will remain as a natural area suitable for the healthy and long-term growth of native trees, replacement of protected trees should occur in-kind. That is, a native tree species shall be replaced with the same native tree species. If the location of replacement tree planting will be part of an irrigated, ornamental landscape area, replacement of protected trees may occur with a water tolerant oak tree species as identified by the project arborist. If an oak tree species cannot be used the project arborist may recommend a high-value ornamental tree species (as designated by a 70% species rating in the Species Classification and Group Assignment Handbook, which is an official publication of The Western Chapter of the International Society of Arboriculture).

   Replacement tree ratios shall be applied as follows:

   - 24-inch box replacement tree = 2-inch replacement trunk diameter
   - 36-inch box replacement tree = 3-inch trunk replacement diameter
   - 48-inch box replacement tree = 4-inch trunk replacement diameter
Replacement trees shall be a minimum 24-inch box size. If less than 6 inches are required, any combination of box sizes may be utilized. Where more than 6 inches of total replacement trunk diameter are required, the following minimum ratios of replacement tree sizes must be incorporated:

- 50% minimum must be a 48-inch box.
- 50% may be any combination of 24-inch and 36-inch boxes

Example: If a project requires removal of one 24” protected tree, a total of 24 trunk inches must be replaced. At least 12” of replacement trees must be 48” boxes. This requires at least 3 – 48” boxes, and the balance of the requirement may be composed of either 24” or 36” boxes. If 36” boxes are chosen, then 4 would be required. A total of 24” of replacement trunk may be composed of 3-48” boxes plus 4-36” boxes.

Example: If a project requires removal of a 12”, 26”, and 10” protected trees, a total of 48 trunk inches must be replaced. At least 24” of replacement tree must be 48” boxes. This requires at least 6 – 48” boxes and the balance of the requirement may be composed of either 24” or 36” boxes. If 24” boxes are chosen, then 12 would be required. A total of 48” of replacement trunk may be composed of 6-48” boxes plus 12-24” boxes.

At the time of replacement, equivalent sizes of trunk are required. After ten years time it is expected that replacement trunks will yield an equivalent volume of canopy to that which was originally removed, even though the equivalent canopy will be spread across a greater number of individual trees. This achieves the Town’s goal of “no net loss” of protected tree canopy.

b. **In-Lieu Replacement:** In the event that a development site is insufficient in size or use to plant any or all of replacement trees, the Town may accept payment of in-lieu fees by the applicant to the Town Oak Tree Fund. In-lieu fees will be utilized by the Town to purchase and install trees in future public open space, park space, or other areas designated for tree planting.

Replacement tree costs for the purposes of satisfying in-lieu fees shall be based on the following scale of typical northern California wholesale tree cost plus average installation cost:

- 24-inch box = 2-inch trunk diameter = $400
- 36-inch box = 3-inch trunk diameter = $800
- 48-inch box = 4-inch trunk diameter = $1,600
In-lieu fee replacement trees shall be a minimum 24-inch box size. If less than 6 inches are required, any combination of box sizes may be utilized. Where more than 6 inches of total replacement trunk diameter are required, the following minimum ratios of replacement tree sizes must be incorporated:

- 50% minimum must be a 48-inch box.
- 50% may be any combination of 24-inch and 36-inch boxes

Example: If a total of 24 trunk inches is to be replaced, the in-lieu fee requires half to be 48-inch box and the remainder may be 36-inch and/or 24-inch box. ((3, 48-inch (3 x $1,600), 2, 36-inch (2 x $800), and 3, 24-inch (3 x $400) for a total of $7,600)). (Revised 04/18/07, ORD. 2007-214)

2. **Security Deposits.** Security deposits may be collected with and subject to the same requirements as site improvements, as outlined in Section 27.36.060 H. Security deposits are subject to a tiered system based on a percentage of tree values with a deposit amount not to exceed $50,000. The project arborist prepares a final evaluation of the protected trees based on impacts, protection, and maintenance during the construction period. If a tree(s) is recommended for removal at the end of construction the security amount collected may not meet the requirements of this ordinance for replacement. The developer shall be subject to the replacement requirements outlined in this ordinance. The developer shall be responsible for payment of the difference between the bond amount and the mitigation amount defined in this ordinance. The health and structural rating of the project arborist report will be used in determining the mitigation amount of the lost tree(s).

B. **Existing Residential Lots (additions, accessory structures, etc.)** An arborist report is required for residential project sites that may impact protected trees. The Town maintains a list of arborists approved to work on Town projects. If an arborist is utilized who is not on the list that arborist’s report is subject to a peer review by an approved Town arborist with the cost to be borne by the developer/owner of the project. Private property owners that are considering additions, decks, pools, and/or other accessory uses are required to identify protected trees that are located on the property and may be impacted by the proposed addition/use.

1. **Tree Protection/Removal Requirements.** The Town requires the land developer to protect and preserve trees during the development/subdivision of residential parcels. The resulting lots are then sold to property owners with the understanding that the trees should be protected. Property owners may request any number of modifications to their properties that may in turn result in impacts to the protected trees. Lots with protected trees are subject to the following requirements for additions, pools, and/or other accessory uses that may result in an impact to the protected trees.

   a. An arborist report is required for all properties considering additions, pools, and/or accessory structures that may have an impact on a protected tree, including improvements within the tree protection zone.
b. In the event that there is no viable and/or practical alternative to removal of protected trees to accommodate the addition, pool, and/or accessory structure the following shall apply:

1. A request for a Tree Removal Permit for protected trees 15” or greater, determined by the project arborist to be in good (4) or excellent (5) health, and/or with moderate (3) to good (4) structure will require review and action by the Planning Commission at a noticed public hearing. The request will require a Tree Removal Permit, arborist report, statement justifying removal of the tree, and payment of a permit application fee. For protected trees 14” or less which are requested to be removed, the Planning Director shall review the request and make the determination for removal. If the Planning Director authorizes removal, mitigation shall be required either by in-kind replacement or in-lieu fee payment, as defined in this ordinance. If the Planning Director denies the request for removal, the decision may be appealed.

2. A request for a Tree Removal Permit for all protected trees, determined by the project arborist to be in fair (3) or marginal (2) health, and/or with marginal (2) structure may be approved and require mitigation. The Planning Director shall review the request and make the determination for removal. If the Planning Director authorizes removal, mitigation shall be required either by in-kind replacement or in-lieu fee payment, as defined in this ordinance. If the Planning Director denies the request for removal, the decision may be appealed.

3. A request for a Tree Removal Permit for all protected trees, determined by the project arborist to be in poor (1) health, poor (1) structure, or to be structurally unsafe or hazardous (1), will be approved and will not require mitigation.

c. Denial and/or appeal of a Tree Removal Permit and its conditions is subject to Section 27.36.090 – Appeals, Extensions, Revocation.

2. Tree Replacement Requirements:

a. **In-Kind Replacement** – In-kind replacement shall be the same as outlined in Section A.1.a. The arborist report shall specify the replacement value. The applicant/owner shall include a replacement landscape plan with the Tree Removal Permit. The building permit for the addition, pool, and/or other accessory use shall be conditioned to require installation of the replacement trees, prior to building permit final.

b. **In-Lieu Replacement** – In-lieu replacement shall be the same as outlined in Section A.1.b. The arborist report shall specify the replacement value. The
applicant/owner shall pay to the Town the in-lieu fee with the Tree Removal Permit. The building permit for the addition, pool, and/or other accessory use shall be conditioned to require a Tree Removal Permit and payment of the in-lieu fee, prior to initiation of the work.

C. **Penalties for Unauthorized Tree Removal.** Enforcement and Civil Penalties shall be applied to violations of this Tree Mitigation Ordinance per Section 27.36.100 Enforcement, in Chapter 27.36 of the Tree Preservation and Protection Ordinance.

Illegal or unauthorized removal of any protected tree will require payment of a determined ‘replacement value,’ as defined in Section 27.36.100, which is different and separate from mitigation replacement as addressed in Section 27.36.061.

27.36.070 - Tree Protection and Preservation Plan

A. Where an applicant proposes to remove one or more protected trees, the Director may require a tree plan for review by the Department.

B. Tree plans shall be prepared by an arborist, horticulturist, or registered landscape architect.

C. All Tree Protection and Preservation Plans must include the following basic information:

1. The location of all trees present that are greater than 6 inches in trunk diameter at a height of 4.5 feet above surrounding grade, including all that will be preserved, removed, or transplanted.

2. All trees that overhang the proposed project site and are located on immediately adjacent properties.

3. The report cover shall include the arborist’s name, certification number, project reference name and address, and report date.

4. A cover letter describing the project site, the date of inspection and summarizing the total number of trees present, to be removed, and preserved.

5. A site plan that identifies the location of each tree, including its report reference number.

6. Assessment data for each tree.

7. Comments and observations regarding health or structure.

8. Estimate of the impacts of proposed development activities on long-term health and structural integrity.

9. Recommendations for removal or preservation based on the development impacts expected from the proposed plan.
10. Recommendations for modification of the proposed plan to reduce or eliminate impacts to the tree.

Refer to the Towns “TREE TECHNICAL MANUAL” for more detailed information related to the preparation and contents of the Tree Protection and Preservation Plan.

D. The Director may waive the requirement for a tree plan or the requirement for a survey based upon a determination that the tree(s) would have little or no ornamental value in an urban setting or that the tree(s) are located so that they would not be impacted by the proposed development.

27.36.080 - Tree Protection Requirements

The Director shall determine during project review whether and to what extent measures will be required to protect the existing trees during construction. This decision shall be based upon the proximity of the area of construction activity to existing protected trees. The protective measures shall include, but are not limited to, the following:

A. Prior to initiating any construction activity on a construction project, including demolition or grading, temporary protective fencing shall be installed at each site tree.

1. Fencing shall be located at the Tree Protection Zone (TPZ) illustrated on the Improvement Plans.

2. Fencing shall serve as a barrier to prevent encroachment of any type by construction activities, equipment, materials storage, or personnel.

B. The Tree Protection Zone (TPZ) is illustrated on the Improvement Plans and represents the area around each tree, or group of trees, which must be protected at all times with tree protection fencing.

1. No encroachment into the TPZ is allowed at any time without approval from the project arborist.

2. Any unauthorized entry into the TPZ is a violation of this Ordinance and shall be subject to enforcement through civil, criminal or administrative remedies, including applicable penalties.

C. Contractors and subcontractors shall direct all equipment and personnel to remain outside the fenced area at all times until project is complete, and shall instruct personnel and sub-contractors as to the purpose and importance of fencing and preservation.

D. No grade changes shall be made within the protective barriers without prior approval by the Director.

E. No attachments or wires other than those of a protective or non-damaging nature shall be attached to a protected tree.
F. Excavation or landscape preparation within the protective barriers shall be limited to the use of hand tools and small hand held power tools and shall not be of a depth that could cause root damage.

G. When the existing grade around a protected tree is to be raised the project and/or Town arborist shall provide written directions on which method(s) may be used to drain liquids away from the trunk.

H. When the existing grade around a protected tree is to be lowered the project and/or Town arborist shall provide written directions on which method(s) may be used (terracing, retaining wall, etc) to allow the dripline to be left at the original grade.

I. No equipment, solvents, paint, asphalt, or debris of any kind shall be placed, stored, or allowed within the protective barrier.

Refer to the Town’s “TREE TECHNICAL MANUAL” for additional information on tree protection requirements.

27.36.090 - Appeals, Extensions, Revocation

A. Appeals. The decision of the Director shall be considered final unless an appeal is filed in compliance with Chapter 27.52 (Appeals).

B. Expiration/extension. A Tree Removal Permit shall be exercised within one year from the date of approval or other time limit established through a discretionary permit approval. Time extensions, for up to a total of two additional years, may be granted in compliance with Chapter 27.44 (Permit Implementation and Time Extensions). If a Tree Removal Permit is not exercised within the established time frame, and a time extension is not granted, the provisions of Chapter 27.44 shall be initiated to consider the permit expired.

C. Performance guarantee. The applicant/owner may be required to provide adequate performance security for the faithful performance of conditions of approval imposed as part of the Tree Removal Permit.

D. Construction monitoring. Monitoring of tree protection and restoration measure specified as conditions of approval shall be performed by site inspection conducted by the Director.

E. Revocation. A Tree Removal Permit may be revoked or modified, as provided in Section 27.56.050 (Permit Revocation and Modification), with any of the following findings that the tree removal, relocation, or protection activities:

1. Cannot support the original findings;
2. Resulted from misrepresentation or fraud;
3. Has not been implemented in a timely manner;
4. Has not met, or has violated any condition of approval;
5. It is in violation of any code, law, ordinance, or statute;
6. Is detrimental to public health, safety, or welfare; or
7. Constitutes a nuisance.

27.36.100 - Enforcement

Enforcement. Any person who cuts, damages, or removes a protected tree in violation of this Chapter shall be deemed guilty of a misdemeanor and upon conviction may be punished in compliance with the applicable provisions of the law. A violation of this Chapter shall also constitute a public nuisance and may be abated and/or enforced through civil, criminal, or administrative proceedings in accordance with the Town Code. Further, a violation of this Chapter during construction may result in an immediate stop-work order until permits are obtained and required mitigation procedures are in place.

CIVIL PENALTIES

If a civil action or administrative enforcement is brought by the Town, a civil penalty in an amount not to exceed five thousand dollars ($5,000) per violation may be assessed, against anyone who violates any provision of this Ordinance or the Tree Protection and Preservation Plan.

Where a tree is illegally removed, or damaged to a degree that survival is not expected, the penalty shall be the replacement value of each tree, and shall be paid to the Town. Replacement values shall be developed using the most recent edition of the “Guide for Plant Appraisal,” published by the Council of Tree & Landscape Appraisers. If a violation occurs during development, appraised values for each tree will be found in the Tree Protection & Preservation Plan. If a violation occurs outside the development process, values shall be determined by an arborist pre-approved by the Town.

Where a tree is illegally damaged, the damage cannot be fully corrected but the tree is expected to survive, then the penalty shall be the replacement value times the percentage of the tree damaged.

A civil or administrative action may also be implemented to provide appropriate relief to abate, enjoin, or otherwise compel the cessation of such violation.

If civil action is brought by the Town, the court shall award all costs associated with investigation, preparation for trial, costs of the trial, reasonable expenses including overhead and administration costs incurred when prosecuting the action, and reasonable attorney fees, to the prevailing party in such action.

CHAPTER 27.37 – MARIJUANA (NONMEDICAL) – INDOOR CULTIVATION

27.37.010 - Purpose of Chapter

It is the purpose of this chapter: to require that the indoor cultivation of marijuana occur only in appropriately secured, enclosed, and ventilated structures so as not to be visible to the general public; to provide for the health, safety and welfare of the public; to prevent odor created by marijuana plants from impacting adjacent properties; and to ensure that personal nonmedical marijuana cultivation remains secure and does not find its way to illicit markets; to establish reasonable limits on the personal cultivation of marijuana for nonmedical purposes within the Town of Windsor as defined by state law and subject to the provisions established herein. Nothing in this chapter is intended to authorize the cultivation, possession, or use of marijuana in violation of state or federal law.

27.37.020 - Applicability

All of the provisions of this chapter shall be immediately enforceable as to the personal indoor cultivation of nonmedical marijuana. Any person legally cultivating marijuana indoors prior to the effective date of this article shall have one hundred twenty (120) days from the effective date of this chapter to comply with the regulations. After the one hundred twenty-day (120) grace period, all the provisions of this article shall be immediately enforceable.

27.37.030 - Standards for Personal Indoor Cultivation (Nonmedical Marijuana)

The limit of six plants per residence for marijuana indoor cultivation (nonmedical) shall apply regardless of how many adult individuals reside at the private residence. Indoor cultivation may only occur within a private residence or fully enclosed and secure private residential structure. Attached and detached garages, designed and intended primarily for the use of vehicle parking are not considered private residences or fully enclosed and secure structures and may not be used for the cultivation of marijuana. Indoor cultivation may only occur in a locked space that is not visible by normal unaided vision from a public place.

Standards for personal indoor cultivation of nonmedical marijuana is as follows:

1. A Zoning Clearance, pursuant to Zoning Ordinance Section 27.42.020, shall be required at the time of Department review of any building, grading, or other construction permit, or other authorization required by this Zoning Ordinance for the proposed use.
2. The Town retains the right for Town officials to access a property to determine continued compliance with the standards for Personal Indoor Cultivation (Nonmedical Marijuana), pursuant to Zoning Ordinance Section 27.56.040.
3. No person other than an individual over 21 years of age may engage in the cultivation of nonmedical marijuana.
4. If the cultivation occurs in a dwelling unit, the dwelling unit shall retain at all times legal and functioning cooking, sleeping and sanitation facilities with proper egress. These
rooms shall not be used for nonmedical marijuana cultivation where such cultivation will prevent their primary use for cooking of meals, sleeping and bathing.

5. Marijuana cultivation is permitted only on a lot or site with a dwelling unit. The primary purpose of the property on which the nonmedical cultivation occurs shall be as a private residence.

6. Indoor grow lights shall not exceed 1,200 watts and comply with the California Building, Electrical, Plumbing and Fire Codes as adopted by the Town. Gas products (CO2, butane, propane, natural gas, etc.) or generators may not be used indoors.

7. The residence or fully enclosed and secure structure used for the cultivation of marijuana must install a filtered ventilation system that will prevent marijuana plant odors from exiting the interior of the structure and that shall comply with the California Mechanical Code Section 402.3, Mechanical Ventilation, as amended. The filtered ventilation system must be approved by the building official and installed prior to commencing cultivation.

8. A fully enclosed and secure residential accessory structure used for the cultivation of nonmedical marijuana shall be located in the rear yard area of the property and must maintain a minimum ten-foot setback from any property line, and must comply with applicable height, site coverage and permit requirements of the Town of Windsor Zoning Ordinance. The yard where the fully enclosed and secure structure is maintained must be enclosed by a solid fence at least six feet in height. This provision shall not apply to cultivation occurring in a garage.

9. Volatile solvents as defined in State Health and Safety Code Section 11362.3(d) or generators are strictly prohibited and may not be used for the cultivation, manufacturing or processing of marijuana.

10. A portable fire extinguisher that complies with the regulations and standards adopted by the California State Fire Marshal and other applicable law. shall be kept in the area of cultivation at all times in a location that is easily accessible.

11. The private residence or the fully enclosed and secure structure shall comply with all provisions of California Building Standards Code (Title 24, California Code of Regulations) as adopted and amended by the Town of Windsor.

12. Adequate mechanical locking or electronic security systems must be installed to ensure the indoor nonmedical marijuana cultivation is secure from the entry or access or any person under 21 years of age and from theft or vandalism, prior to the commencement of indoor nonmedical cultivation.

13. Cultivation of indoor nonmedical marijuana shall only take place on impervious surfaces.

14. From a public right-of-way, there shall be no exterior evidence of nonmedical marijuana cultivation occurring on the property.

15. Written consent of the property owner to cultivate nonmedical marijuana within the residence or in a fully enclosed and secure structure shall be obtained and shall be kept on the premises, and available for inspection by the Building Official, Chief of Police, Fire Chief or their designee(s).

16. Public Nuisance Prohibited. It is hereby declared to be unlawful and a public nuisance for any person owning, leasing, occupying, or having charge or possession of any lot, site, dwelling unit, and/or fully enclosed and secure structure within the Town to create a public nuisance in the course of cultivating marijuana plants or any part thereof in any indoor location. A public nuisance may be deemed to exist, if such activity produces: (a) odors which are disturbing to people of normal sensitivity residing or present on adjacent
or nearby property or areas open to the public, (b) repeated responses to the parcel from law enforcement officers, (c) repeated disruption to the free passage of persons or vehicles in the neighborhood, (d) excessive noise which is disturbing to people of normal sensitivity on adjacent or nearby property or areas open to the public, or (e) any other impacts on the neighborhood which are disruptive of normal activity in the area.

**27.37.040 - Violation and Penalty**

1. A violation of this article shall be prosecuted by the Town Attorney through the civil enforcement process, including injunctive relief, as set forth in Section 1-1-205 of the Town of Windsor Code. Each day a person is in violation of this article shall be considered a separate violation.

2. The administrative citation penalty for each and every marijuana plant cultivated in violation of this article shall be One Thousand Dollars ($1,000) per plant, plus One Hundred Dollars ($100) per plant per day the plant remains unabated past the abatement deadline set forth in the administrative citation.

3. Any property upon which a violation of this article is found shall be subject to immediate abatement by the Town.

4. In addition to any administrative penalty assessed for violation of this article, any person found in violation of this article will be charged abatement, actual, administrative and enforcement costs as defined in Section 1-1-260 of the Town of Windsor Code, calculated to recover the total costs incurred by the Town in enforcing this article.

Revised 04/09/18, ORD. 2017-318
CHAPTER 27.38: TEMPORARY HOUSING MEASURES FOR RECOVERY FROM THE NUNS AND TUBBS FIRES

27.38.010 - Purpose

This Chapter establishes interim regulations for the provision of temporary housing in response to the unprecedented loss of over 5,000 homes resulting from the Nuns and Tubbs fire events of October 8, 2017. The provision of temporary housing for people displaced by the fires and for workers who will be needed for recovery and reconstruction efforts will benefit the public health, safety and welfare by serving to stabilize the community and area’s economy.

27.38.020 - Applicability

The temporary housing provisions of this Chapter are intended to serve people whose homes were destroyed by the Nuns and Tubbs Fires and workers who are involved in related recovery and reconstruction efforts.

27.38.030 - Location

The temporary housing options allowed by this Chapter shall be limited to properties that are located within the Town of Windsor town limits and that are zoned for residential or commercial uses by the Town of Windsor Zoning Ordinance.

27.38.040 – Temporary Housing Allowed on Residentially Zoned Properties

A. Single Units on Developed Residential Properties. The following may be allowed on properties that are developed with an existing residential structure and that are zoned for residential uses, with approval of a Ministerial Limited Term Permit.

1. One trailer, manufactured home or other similar structure when located in the side or rear yard area of the property and sited in conformance with applicable side and rear yard setback requirements for accessory structures.
2. One recreational vehicle when located in the side or rear yard area of the property and sited in conformance with applicable side and rear yard setback requirements for accessory structures. A recreational vehicle may also be allowed in the front driveway area of the property provided that it does not encroach into the public right-of-way when parked.
3. Use of an existing residential accessory structure with conditioned space, such as a pool house, guest house, recreation room or studio space, when in compliance with the following requirements:

   a. The accessory structure shall have been constructed with a building permit.
   b. The structure shall be subject to inspection by the Town of Windsor Building Official and Windsor Fire Protection District staff prior to occupancy as a temporary housing unit.
c. Compliance with any exiting and/or safety requirements determined to be necessary by the Town of Windsor Building Official and Windsor Fire Protection District staff.

4. The property owner shall enter into an agreement with the Town of Windsor and Windsor Water District governing provision and termination of water and sewer services prior to occupancy of the temporary units.

B. Multiple Units on Developed Residential Properties. Multiple temporary housing units, including trailers, manufactured homes, recreational vehicles and other similar structures may be allowed on properties that are developed with an existing residential structure and that are zoned for residential uses, with the approval of an Administrative Limited Term Permit, subject to the following development standards:

1. The total number of units, including any existing residence(s), does not exceed the maximum allowable density of the General Plan land use designation for the property.
2. The units are located in the side or rear yard area of the property and are sited in conformance with applicable side and rear yard setback requirements for accessory structures.
3. The total square footage of all structures on the property, permanent and temporary, does not exceed the maximum allowable lot coverage of the applicable zoning district.
4. There is sufficient area on site located outside of the required front yard setback area for parking of two vehicles per unit.
5. The property owner shall enter into an agreement with the Town of Windsor and Windsor Water District governing provision and termination of water and sewer services prior to occupancy of the temporary units.

C. Units on Vacant Residential Properties. Single or multiple temporary housing units, including trailers, manufactured homes, recreational vehicles and other similar structures may be allowed on vacant properties zoned for residential uses, with the approval of an Administrative Limited Term Permit, subject to the following development standards:

1. The total number of units does not exceed the maximum allowable density of the General Plan land use designation for the property.
2. The units are sited in conformance with applicable front, side and rear yard setback requirements.
3. The total square footage of all structures on the property does not exceed the maximum allowable lot coverage of the applicable zoning district.
4. There is sufficient area on site located outside of the required front yard setback area for parking of two vehicles per unit. Parking for each unit shall be provided to the side or rear of the unit.
5. The property owner shall enter into an agreement with the Town of Windsor and Windsor Water District governing provision and termination of water and sewer services prior to occupancy of the temporary units.
The Community Development Director may approve modifications to setback and site development standards if determined to be appropriate, provided that the modifications do not unduly impact the use or privacy of adjoining properties.

27.38.050 – Temporary Housing Allowed on Commercially Zoned Properties

A. Units on Vacant Commercial Properties. Single or multiple temporary housing units, including trailers, manufactured homes, recreational vehicles and other similar structures may be allowed on vacant properties zoned for commercial uses, with the approval of an Administrative Limited Term Permit, subject to the following development standards:

1. A 15-foot setback shall be maintained along the front, side and rear property lines.
2. Vehicle parking shall be provided in a centralized location on the property. Parking spaces shall generally comply with Zoning Ordinance standards for stall size and aisle widths.
3. A centralized refuse collection area shall be provided.
4. All units shall be accessible from a 20-foot wide emergency vehicle access way.
5. A minimum of 15-feet shall be provided between units to provide dedicated outdoor space for each unit.
6. The property owner shall enter into an agreement with the Town of Windsor and Windsor Water District governing provision and termination of water and sewer services prior to occupancy of the temporary units.
7. Security lighting shall be provided to the satisfaction of the Town of Windsor Police Chief.

The Community Development Director may approve modifications to setback and site development standards if determined to be appropriate, provided that the modifications do not unduly impact the use or privacy of adjoining properties.

B. Units on Developed Commercial Properties. Placement of temporary housing units on developed commercially zoned properties is prohibited.

27.38.060 – Temporary Expansion of Existing Emergency Shelter Uses

A. Length of Stay. Existing emergency shelters, including shelters located at religious facilities, may extend the length of stay of shelter occupants until the expiration of the enacting ordinance.

B. Number of Beds. Existing emergency shelters, including shelters located at religious facilities, may increase the maximum number of beds to above 40, subject to review and approval of the Windsor Fire Protection District and the Town of Windsor Building Official.

C. Expiration of Expanded Use. The provisions of this section shall expire concurrently with the expiration of the enacting ordinance.
27.38.070 – Wine Country RV Park (8225 Conde Lane, APN 164-030-024).

A. Expansion of Non-Conforming Use. Additional recreational vehicles may be parked at the Wine Country RV Park property on a temporary basis, or a permanent basis with Town Council approval of any required permit(s) or other land use action(s).

For temporary parking of additional recreational vehicles, an Administrative Limited Term Permit approved by the Town Council shall be required, subject to the following:

1. Each RV unit shall acquire Town water service and electrical service. Sewage disposal to a legal disposal facility is the responsibility of each RV unit.
2. The property owner shall enter into an agreement with the Town of Windsor and Windsor Water District governing provision and termination of water and sewer services prior to occupancy of the temporary units.
3. Any necessary approvals from the California Department of Housing and Community Development shall be secured prior to occupancy of the temporary units.
4. Parking of recreational vehicles and/or improvements needed to serve the additional temporary parking spaces shall avoid any impact to trees protected under the Town’s Tree Preservation and Protection Ordinance.
5. Parking of recreational vehicles and/or improvements needed to serve the additional temporary parking spaces shall be appropriately set back from any creek or waterway on or adjacent to the property.
6. Other conditions or requirements as determined to be appropriate by the Town Council.

Permanent expansion of recreational vehicle parking at the Wine Country RV Park may be considered subject to approval of any required land use entitlements by the Town Council.

27.38.080 – Limited Term Permit Required.

Unless otherwise stated in this Chapter, all temporary housing units permitted by this Chapter shall require approval of a Limited Term Permit. An application for a Limited-Term Permit shall be filed and processed in compliance with Chapter 27.40 (Applications - Filing and Processing).

A. Ministerial Limited Term Permit. A Ministerial Limited Term Permit processed at the staff level is required for a single temporary housing unit on a developed residentially zoned property.

B. Administrative Limited Term Permit. An Administrative Limited Term Permit considered through the administrative hearing process is required for more than one temporary housing unit on a developed residentially zoned property, for one or temporary housing units on a vacant residentially zoned property, for one or more temporary housing units on a commercially zoned property, and for additional recreational vehicle parking at the Wine Country RV Park.
C. **Growth Control Ordinance.** Limited Term Permits authorized by this Chapter are exempt from the Town’s Growth Control Ordinance.

D. **Public Notice.** Notice of the administrative hearing required for an Administrative Limited Term Permit shall be sent to property owners and occupants located within 300 feet of the property a minimum of 10 days prior to the hearing.

E. **Expiration of Permit.** A Limited Term Permit shall expire concurrently with the expiration of the enacting ordinance or earlier if specified in the terms of the permit. The duration of all permits for temporary housing issued under the provisions of Ordinance 2017-320 or Ordinance 2018-321 shall automatically be extended and expire concurrently with the expiration of the current enacting ordinance for temporary housing.

**Review Authority.** The Community Development Director has the authority to elevate the review of any Administrative Limited Term Permit for Temporary Housing to the Planning Commission or Town Council when determined to be warranted in his/her opinion. Circumstances warranting elevation of review may include: unusual proposals or site conditions; requests for variation from applicable standards or procedures; and/or a high level of public interest or concern.

### 27.38.090 – Inspections

Inspection of a temporary housing unit and site by the Community Development Department, Public Works Department, Windsor Water District, and Windsor Fire District is required prior to occupancy of a temporary housing unit. The temporary housing unit shall comply with all Town, Windsor Water District, and Windsor Fire District requirements prior to use as a temporary housing unit.

### 27.38.100 - Fees

Because the provision of temporary housing for people displaced by the Fires and workers involved in the recovery and reconstruction efforts will provide an economic benefit to the Town by permitting residents to retain jobs, reside in the area, and shop in the community, and is temporary in nature, development impact and mitigation fees and application fees are not required and shall not be charged.

### 27.38.110 – Agreement

Property owners shall enter into an agreement with the Town and Windsor Water District governing the provision and termination of water and sewer services for temporary housing units prior to occupancy.
27.38.120 – Conflicting requirements

If a conflict occurs between the provisions of this Chapter and other requirements of the Zoning Ordinance, Station Area/Downtown Specific Plan, or Town of Windsor Municipal Code, the provisions of this Chapter shall control.

27.38.130 - Discontinuation of use

Upon the expiration of a Limited Term Permit for temporary housing or upon expiration of the enacting ordinance, the use of the property or structures for one or more temporary housing units shall cease and the condition of the property or structures shall be returned to the condition that existed prior to use for temporary housing.

27.38.140 - Land use, zoning, or other situations not addressed

The Community Development Director shall have the authority to make determinations regarding any land use, zoning, or other similar situation not addressed by this Chapter.

27.38.150 - Duration

All provisions of this Chapter shall be in effect until the expiration of the enacting ordinance. Any permits for temporary housing approved under the authority of this Chapter shall also expire at the time of expiration of the enacting ordinance.

27.38.160 – Appeals

Appeals of actions taken by the Administrative Hearings Officer on an Administrative Limited Term Permit application for Temporary Housing shall be considered by the Town Council. (Rev. 04/09/18, ORD. 2018-322)
