## Introducing the **WINDSOR PARKS AND RECREATION FOUNDATION**

The newly formed Windsor Parks and Recreation Foundation is looking to raise some much needed funds to improve our community's parks and recreational facilities. Although there is no limit to the types of projects the group can help to raise dollars for, initial projects are focused on the Town Green.

Working with Windsor's Department of Parks & Recreation, the Foundation will be raising awareness and dollars for two specific projects to enhance the Town Green experience. Projects include improvements to playground equipment and the introduction of sculptures to the Town Green.

The Town of Windsor and the Windsor Parks and Recreation Foundation look forward to your support as we "Grow the Green."
